Shoo Fly--The Animals' Friend

Flies cause Stockmen to lose millions of dollars.
Flies cause kicking horses.
Flies cause kicking cows; which means rough usage, shrinking and wasting one third of milk.

It costs no more to feed cows giving twelve quarts of milk than to feed those giving eight quarts.

Cows will lose more than four quarts of milk at "Fly Time," which is never regained, thus "Shoo Fly" causes the gain of four quarts of milk, which means money during the 120 days of fly time. **Shoo Fly saves the dairyman over $14.00 in cash per cow to say nothing of extra flesh and comfort to the milker.**

No Flies, Warbles, Mosquitoes, Buffalo Gnats, Ticks or Vermin, on Horse or Cow where Shoo Fly is used. You cannot afford to be without it. It means money to you.
