Five days of storm marked this closing week of March a high wind having prevailed at short intervals from Sunday until last night. While March has a stormy nature an unusual feature of this week's experience was that during most of the time the gales were from the south and caused an unseasonably high temperature. Heavy showers accompanied the storm from Tuesday night till yesterday morning and streams all over the county were much swollen, though not to a dangerous height. Clearing weather began yesterday morning and about noon the temperature started downward. This morning it was about the freezing point.

Elaborate Easter services were held in the Methodist Protestant Church, in this city Sunday. In the Sunday school an address was made to Dr. J. W. Hering on the completion of his twenty fifth year as superintendent of the school. A sheaf of twenty five callow lillies was handed the Doctor by Miss Caroline Wantz as the gift of the infant class. The pastor, Dr. D. L. Greenfield preached at the morning service. The altar was crowded with palms. A mass of roses was placed in the chancel in memory of the late J. Edward Brundige. Easter anthems were sung by the choir. Eight persons were received to membership.

In the evening the choir, with Miss Anna Shriver at the organ, gave a fine recital of music with the Passion, Crucifixion and Resurrection as its theme.

While Mr. John Humbert, of Union Mills, was driving into the uper end of Pennsylvania avenue, this morning, in a spring wagon in which he had a number of sacks of cloverseed, one of the shafts became loose and dropped and the horse ranaway. Mr. Humbert was thrown from the wagon, fell upon his head and was rendered unconscious. The horse dashed down the avenue and became detached from the vehicle in front of Mr. E. D. Whitmore's grocery store, then ran on and was caught between a telegraph pole and the gate at the freight house of the W. Md. Ry and barely missed colliding with a train. Several sacks of cloverseed were jolted from the wagon. Dr. S. Luther Bare was hastily summoned to attend Mr. Humbert and soon restored him to consciousness. Fortunately his injuries are not serious. He was badly shaken up by the fall and considerably bruised and his skin abraded in places.

Health Commissioner Gorter and his department will be called upon by the Association of Ice Cream Manufacturers of Maryland to co-operate in the extermination of the "hokey-pokey" venders, because the members of the Association believe that this product is harmful and generally undesirable.

This was decided upon at a meeting of the Association Tuesday at the Hotel Emerson, Baltimore, and at the same time the organization decided to make a uniform price on all of its products after April 1 for the purpose of seeing that the public hereafter gets nothing but good material. L. M. Hendler was elected president and the other officers are Asa B. Bardiner, Jr., vice-president; A. F. Goetz treasurer, and J. D. Beidelman, secretary.

Two aged colored women were carried from their sick beds to safety when fire destroyed their home at Pearl, Md., Wednesday, but a setting hen which sat on her nest in the kitchen of the building refused to be "shooed" from her prospective offspring and perished.

The building destroyed was one of the oldest in Frederick county and was on the farm of Edward Markell. When the fire was discovered "Aunt Lou" Howard, a colored woman, and her aged mother were bedridden. They were rescued with difficulty.

But the hen refused to leave her post. When rescuers took the women from the building they returned and tried to chase the gallant fowl from her nest. Clucking angrily, she refused to move and sat upon her eggs until the burning roof of the building fell upon her and her valued possessions.

### CARD PARTY

One of the most delightful and successful entertainments ever given in this city was the Card Party at St. John's Parish Hall on Tuesday night. nearly two hundred persons were present and about seventy five premiums were awarded for the highest scores in Bridge and Five Hundred. There was a table each of Euchre and Old Maid each receiving a gift. The premiums were donated by the merchants of Baltimore and Westminster. They were very handsome. The West End Mandoline Club donated the music which proved a great addition to the evening. Candy and punch were sold during the games, after that coffee, chocolate and sandwitches were sold. The ladies having the evening in charge are most grateful to their friends who loaned tables and chairs. Mr. Joseph B. Boyle was the spokesman of the evening and made lots of fun in announcing the winners: The Patronesses were: Mesdames John L. Reifsnider, Jr., Nathaniel Baumgartner, Jos. B. Boyle, Paul Case, Thomas Coonan, Lynn Coane, John Cunningham, John Lynch, Geo. Fouke, Gertdude B. Galligher, George M. Parke, S. G. Ramer, Orlando Reese, John M. Roberts, John J. Rose, Thos. K. ## THE DUTY OF THE HOUR

Mayor David E. Walsh makes an appeal to citizens of Westminster and the surrounding county for aid for the suffering people of Ohio and Indiana who are in dire straits on account of the destruction of their homes by the terrible and unprecedented flood elsewhere reported. The banks of this city have consented to recive contributions and forward them to Mr. B. H. Griswold, president of the Red Cross Society in Baltimore, which will see that the money is judiciously expended for the relief of the sufferers.

Just now the great need of the unfortunate people is foor and refuge from the conditions by which they are surrounded—particularly for food supplies, and these are being sent from many quarters. The government of the United States is extending its help and some State governments will do likewise. But money will be long needed to meet the wants of the impoverished people, and this appeal comes with great force to citizens of this highly favored section of the country, where such disasters are unknown. The exigency is great and the response should be as generous.

The Sentinel would suggest to the citizens of every bank section in this county that they adopt a plan similar to that agreed upon here. Taneytoyn, Union Bridge, Uniontown, Union Mills, Manchester, Hampstead, New Windsor, Sykesville. Woodbine and Mt. Airy all have banking institutions that no doubt will cheerfully receive contributions for this most landable purpose.

## Latest From the Flood in Ohio and Indiana

While the news from Dayton, Ohio, this morning, indicates that the loss of life in that place was not nearly so great as reported yesterday, the condition of the people in the submerged city is pitiable beyond description. Thousands are marooned by the elements and up to last night had been for two days without food or drinking water. To add to their suffering from hunger and thirst the weather had become freezing and they were without fires or the means of generating artificial heat. The flood was subsiding to some extent, but from the lay of the land days may pass before it will have entirely disappeared.

Though the death roll at Dayton is greatly reduced there seems to be no diminition in the numbers of dead reported in other localities. Perhaps Columbus experienced the greatest loss of life, the number who have perished in that city being estimated as high as 1,000. Taken all in all the calamity throughout the wide flooded area is inexpressibly fearful and appalling. Details of the dreadful story would fill volumes. High waters have prevailed elsewhere than in the section described but nowhere else has there been, during this spring flood, very great destruction of property and loss of life. Western New York and Pennsylvania are having this experience and the Ohio river is threatening the towns and county along its banks with inundation. A considerable area in Wheeling, W. Va., is reported as flooded and Cincinnati and Louisville are warned that the waters may invade portions of those cities.

The Bulgarians and Servians have finally captured Adrianople, the Turkish Holy City, after a seige of five months. The capture was accomplished by assault. The city was one of the most strongly fortified places in the world, but Bulgar persistence and dogged determination triumphed at last over the Turkish defence. Andrianople was the bone of contention that prevented the success of the peace negotiation at London several months. The Bulgars would agree to nothing short of its surrender, while the Turks were equally obstinate in refusing that demand. Now that the allies have succeeded in capturing it and making it a Bulgarian city and the country around it Bulgarian territory the prospect of peace has brightened. Turkey is helpless and must yield to such demands on the part of the allies as the great powers of Europe will permit.

### GREAT MASS OF PROOF

**Reports of 30,000 Cases of Kidney Trouble, Some of Them Westminster Cases**

Each of some 6,000 newspapers of the United States is publishing from week to week, names of people in its particular neighborhood, who have used and recommended Doan's Kidney Pills for kidney backache, weak kidneys, bladder troubles and urinary disorders. This mass of proof includes over 30,000 testimonials. West minister is no exception. Here is one of the Westminster cases.

Harry C. Jones, cigar maker, Green St., Westminster, Md., says: "The statement I gave in 1907 publicly recommending Doan's Kidney Pills still holds good. For a long time I had trouble from my back and kidneys. The kidney secretions contained sediment and were irregular in passage, causing me annoyance. My back also ached and although I used various remedies, I was not helped until I procured Doan's Kidney Pills at Moore's Drug Store. They restored me to good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
