BETTER CONDITIONS AT SPRINGFIELD SOUGHT

An investigation of the needs of the Hospital for the Insane at Springfield is being conducted for the purpose of introducing reforms where necessary.

The investigation is being made by a committee appointed by Governor Goldsborough at the last meeting of the board of trustees of the institution. This committee consists of C. Wilbur Miller and W. C. Robinson, Republicans, and W. S. Evans, of Elkton, Democrat. The committee will report its recommendations to the trustees at their next meeting. The question will then come to the front whether the Democrats, who, because of holdover terms, are in the majority in the board, will support the suggestions for better and more economical conditions at the hospital.

It is understood that one of the recommendations will call for a division of the duties of the purchasing agent and the creation of an additional position. The purchasing agent is superintendent of the large farm connected with the hospital as well as the buyer of all supplies. It is the belief of those most familiar with the management of the institution that the farm has not yielded the returns it is capable of yielding and hence the proposed inauguration of a system headed by a capable farmer, by which the products of the fields will be greatly increased. Joshua W. Linthicum, purchasing agent, is holding his position until his successor shal have been elected.

The chief aim of the committee is to introduce economies and reforms wherever practicable without impairing the efficiency of the hospital. Dr. J. Clement Clarke, the general superintendent, has been re-elected for a year.

Governor Goldsborough is keeping a watchful eye on all the institutions supported wholly or in part by the state. He is also keeping in close touch with all the state boards and commissions and is reminding them of their duties. Recently he called twice at the office of one of the important boards in this city. On each occasion the office was closed. The president of the board, a day or two later, received a letter from the Governor reminding him of his duties and of the necessity of keeping his office open.

FOR BETTER COUNTRY LIFE

Governor oldsborough and Henry J. Bowdoin, of the Maryland Country Life Commission, called at the Department of Agriculture in Washington Thursday and discussed with Secretary Houston and Dr. Carver, chief of the rural organization service, ways and means of improving the economic and social sides of rural life. They offered the co-operation of the State of Maryland in whatever the federal government might attempt along this line. Upon their return last evening Governor Goldsborough and Mr. Bowdoin expressed themselves as greatly gratified with their visit and with the encouragement which they had received.

The Maryland commission is preparing to enter actively upon the work which awaits it. It has been delayed in its activities by the illness which overtook Assistant Secretary of Agriculture Hays, who was chairman of the state commission. Members of the commission include, in addition to the Governor and Mr. Bowdoin, G. E. Osborn, Frederick county; Robert Crain, and Mr. Reindollar, of this county.

The work of preparing Main street of this city for oiling is proceeding with commendable energy. The process is much more elaborate than it was generally supposed it would be. When the surface shall be worn smooth, which is rapidly taking place, the oil will be applied.

MESSRS. FRECH & ALLEN

Messrs. Frech and Allen, whose headquarters are in this city, and who have built a long stretch of State road in this county, have become successful bidders for street asphalt paving on Hilton street in the Baltimore Annex. They were bidders last week for cutting through rock in connection with the paving, and their contract probably covers that part of the work also. The Baltimore News says:

Materially underbidding the older paving companies, Frech & Allen, a paving concern of Westminster, Md., today celebrated its entrance into the local paving field by securing Annex Commission Contract No. 118 for sheet asphalt paving on Hilton street. The bid of the Westminster concern, $68,200., was much lower than that of the Pen-Mar Construction Company, the next lowest bidder.

Frech & Allen is one of the number of new concerns that have entered the local field since the barring by the city of "Bob" Padgett's F. E. Schneider Paving Company and the Elder Paving and Contracting Company.

Samuel Bridges, an old fisherman of Wittman, Bay Hundred district, when the herring season closed on May 25 was sick and unable to get out in the Chesapeake Bay and take up his pound nets. A few days ago he had recovered sufficiently to do so, and when he went out to his net he found such a wonderful catch of rock that he could scarcely believe his eyes. He succeeded in landing the fish many of which were of remarkable size, running up as large as three feet. He shipped the fish to Baltimore and Philadelphia and received 14 cents a pound for them, which netted him about $900.
