been cutting this Wood off, off and on for the last ten or fifteen years, the wood that was cut off was hauled to Parkton where they made sale of it in different ways, some to the Rail Road company and some to the Lime Burners, it was originally just good timber, I cant say there was any valuable timber the wood was a mixture some of it what we call spanish oak, some white oak, and some Chesnut, when the wood was cut off the Land was not cleared but has grown up in sprouts and Bushes I think Lot No 2 ought to bring 20 dollars an Acre. Lot No 2 I think ought not to be worth more — $12 an acre

Cross Examined for Complainant

I was born on the Wilkins Property then known as the Calder property I have 137 acres in my farm I purchased my property from several Heirs, there were seven of us in all. I had my own share and bought out the others the parts that I refer to that I would hardly pay taxes for are some old fields I am not able to point the same out on the plat, there is one of these fields binding on the County road near Walkers Mills leading from the pike over there on the right hand side, it is not far off from the falls on the east side of the falls. I cant say how many Acres there are of it, but should suppose there were seven or eight Acres of it in that Lot. I cant refer to it on the Plat shown to me on examination in chief and now again before me the other old fields I refer to must be in what is I suppose the Bee Tree hart, I know the Bee Tree Run it is not very far off from the run I might say a quarter of a mile, it has been cleared. It has grown up in Bushes and willows and some scrubby trees standing about I cant say how many Acres there are there may be fifty or not, there may be twenty or not, I should suppose there are ten anyhow I dont recollect of any other harts of that kind of Land, I do not follow any other business than that of farming except that I have been acting as Constable this four or five years Edwin Wilkins and I have had I suppose some unkindly feelings for each other I should consider my farm worth $30 an acre my dwelling is about half a mile from the Rail Road and half a mile from the nearest switch I dont understand how Lot No 2 lies by looking at the plat, I travelled across Pantner Branch two weeks ago last Friday on the County Road leading from Walkins Mills to the York Road.

Question How long is it since you travelled along Pantners Branch.

Answer, last Friday two weeks.

Question Have you ever travelled along Pantners Branch as far as it runs through the Wilkins Farm to any part of it.

Answer. I can say any more than that I have crossed it

at different points through the Wilkins Property that is all I can say about it

Question: how long ago is it since you crossed it at different points through the Wilkins Property

Answer I cant say as to the time but at different times

Question; Have you so crossed it at different times within the last ten years

Answer; Yes.

Question; where abouts have you so crossed it

Answer, I cant enumerate the different points, where ever my business called me

Question; where abouts have you so crossed it within the last ten years,

Answer; wherever it was convenient. I cant tell the names of the places, sometimes through the bushes, any where where I could get across.

Question, At the times you crossed it of which you speak was the wood cut away as it is now

Answer that would be a hard question for me to answer they were at it every year more or less

Question How far would you suppose the turnpike road leads through the Wilkins farm

Answer, I hardly know, a mile and a quarter at any rate.

Question How far north of the County road do you suppose you have crossed Pantners Branch upon the Wilkins Estate within the last ten years

Answer. I have nothing to say about that at all I cant answer that question.

Again Examined for Defendents.

Question; what price or prices did you pay for the several shares which you purchased as you have stated in cross examination in your farm of 137 acres.

Answer I hardly know I dont recollect all exactly as it was.

Question; state the price or prices you paid for any of it per Acre if you can

Answer. I did not buy it by the acre I bought out the shares.

Question How much did you pay for any seventh

Answer I paid seventy five to eighty dollars. eighty dollars was the highest I paid for anyone share I think.

Question; have you any other farm or an interest in any other.

Answer I have an interest in a farm of 105 acres which I hold as executor.

Question; where is that farm situated when did you sell
