SWEET AIR

Harvest is here once more and owing to the recent storms which blew down the grain very badly in this vicinity and the scarcity of laborers it may be said "The harvest is great and the laborers are few." The grain promises a good yield. The hay harvest is fine considering the dry season in the spring.

Miss Mollie Shipley who has been bedfast several months, we are sorry to state, is but little improved.

The Messrs. Glennan were a one day guests of Mr. and Mrs. A. Saville Hewitt last week.

Mr. Pierce Glennan called on Mr. Oliver T. Buckman Saturday.

Misses Bessie E. and Sophronia E. Hood spent a short time recently with Miss Zola N. Streaker, who is able to be out again.

Mr. Silas Jenkins and daughter. Mrs. O. Maybelle Penn, spent Monday with Mr. and Mrs. Edward Barner, near Winfield. Later Mr. Jenkins was taken suddenly ill at the home of his son-in-law, Mr. Burgess N. Penn, near Woodbine.

Master Albin Hood visited Master John W. B. Pickett recently.

Miss Sophronia E. Hood and Mrs. Florence Pickett were Monday guests of Mrs. Walter E. Conaway.

Mrs. F. Lizzie Pickett and children spent Thursday with Mrs. Levi Haines.

Mr. Charles Reck was a caller at several homes near here. He is taking orders for fertilizers.

Miss Bessie Hood, Mr. and Mrs. Saville Hewitt and Mr. Willie Brandenburg were guests of Mr. and Mrs. Michael Glennan recently.

Mr. Charles Penn raised his new barn with a host of friends and workers present. The day was beautiful despite the presence of Mr. Jack Frost in the early morning. There were a large number present to assist in the raising. There were also several ladies present who prepared an appetizing dinner which was greatly enjoyed. Mr. Arthur Shipley is the contractor. He is an experienced workman.

Mr. and Mrs. Wallace Shull spent Thursday with the former's parents, Mr. and Mrs. Alexander Shull.

Master Albin Hood spent Thursday in Berrett.

Mrs. Thomas Bower was a recent guest of her sister-in-law, Mrs. Walter E. Conaway.

Mrs. Leah Penn was a recent guest of her sister, Mrs. Fletcher Day.

Mrs. Grover Harrison spent Wednesday morning with Mrs. Alice Richardson. Mrs. Alice Richardson spent the afternoon of the same day with Mrs. Lizzie Day and in the evening of the same day Mrs. Richardson entertained Mrs. Elmer E. Hood and daughter Sophronia.

Mrs. Charles S. Conaway was a recent guest of Mrs. Ambrose Streaker.

Mrs. Laura J. Lowman and the Misses Hood were entertained one day last week by Mrs. Hester A. Pickett.

Mrs. Levi Haines was an afternoon guest of Mrs. J. Donald Miller recently.

Miss Ruth Frizzell spent a day last week with Mrs. Beulah Pickett.

Miss Margaret A. Pickett spent a short time Wednesday with her grandma, Mrs. Laura J. Lowman.

Mr. F. Robert Gosnell is quite sick at this writing.

Miss Martha Gillis, of Baltimore, and niece, Miss Gertie E. Hammond, of Woodbine, were recent guests of friends in Daniel.

Mr. Chester Hood spent Thursday in Mt. Airy.

Strawberry harvest which was large in this section is over. They were numerous, both wild and cultivated.

Mrs. Harry Gillis, of Warren, O., will visit relatives and friends here next week. Mrs. Gillis was formerly Miss Emma I. Conaway, of this vicinity, and will be welcomed by a host of friends. She will remain a fortnight here.

Master Elmer Jenkins was a Sunday guest of his uncle and aunt, Mr. and Mrs. Charles S. Conaway.

Mrs. Frank B. Davis, of Westminster, spent Sunday with Mrs. Rodney Davis, of Woodbine.

Mr. and Mrs. France, of Ellicott City; Mr. and Mrs. George Grimes, of Franklinville, and Mr. and Mrs. M. Glennan, of Woodbine, were guests of Mr. and Mrs. A. Saville Hewitt Sunday.

Mrs. Joe Brandenburg, of Berrett and Mrs. Harry Pickett, of Woodbine, visited Mrs. Michael Glennan recently.

Mr. and Mrs. Samuel Bair, Mr. and Mrs. Jesse Bair and Mr. David Haines motored to Hanover, Pa., Sunday.

Mrs. Grace Barnes visited Mrs. Ida V. Shull recently.

Mr. Burgess A. Gosnell is suffering with quinsy.

Mrs. Carrie Pickett and son Wilbur called on Miss Melvie Penn on Sunday morning.

Mr. Walter E. Conaway was a Sunday afternoon guest of Mr. Elmer E. Hood.

Mr. Milton H. Penn contemplates sinking a well at his door in the near future, which will be a great convenience, as he has quite a hill to carry water and he and family have carried it many years.

Rev. and Mrs. V. K. Betts, son Smyth and daughter Mary, of Unionville, visited friends near Winfield Sunday.

Master Harry Gosnell spent Sunday morning with his grandma, Mrs. Abner Gosnell.

Miss Marie Barnes was a recent guest of Mrs. Jesse Bair.

Messrs. Charles S. Conaway, of Woodbine, and Earnie Conaway, of Baltimore, called on Mr. Elmer E. Hood Monday.

Mrs. Alice Richardson spent one day recently with Mrs. Alexander B. Shull.

Mr. Elmer E. Hood spent a short time Monday with Mr. Marquis Pickett, of Winfield.

Mr. and Mrs. Francis Glennan, who have been on the sick list, we are glad to state are slightly improved.

Sunday School Sunday morning at 9.30. Missionary at 7.30 P. M. Health of community fair at this writing.

Miss Wilson, who is now to be an editor, will soon learn that the magazine reading public will take any old kind of reading matter, provided the cover has a pretty girl picutre.

As they have nothing to do but to regulate the whole business of the United States, the Inter-State Commerce Commission think they might as well lay off for the summer.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher.

MILLERS

A large crowd attended Millers' picnic last Saturday and a pleasant day was spent by all present.

Clarence Miller and wife and Mr. and Mrs. Bollinger, of Westminster, spent Saturday and Sunday visiting the former's parents, Theodore Miller and wife.

Mrs. Isaiah Miller, of Baltimore, spent several days visiting here.

Henry Rinehart was taken ill Saturday night with a severe attack of kidney colic. He suffered great pain until Dr. Sherman gave him relief. He is improved now.

Mrs. Hershey and daughter, of Hanover, Pa., visited Mrs. H's. sister, Mrs. Amanda Lessner Sunday.

Mrs. Bessie Miller and son Frank, of Westminster, attended the picnic here Saturday.

Misses Mildred and Marie Warner, of Baltimore, spent last week visiting relatives here.

Charles Sullivan and family, of Hanover, Pa., and H. Sullivan and family, of Milton, Pa., visited their sister, Mrs. Jacob Zepp, here the past week.

Mrs. Noah Warner and daughter-in-law, Mrs. Harry Warner, of Baltimore, spent from Saturday until Sunday evening visiting the former's daughter, Mrs. John Rinehart and family.

Mrs. Charles Hersh and children, of Baltimore, are visiting Mrs. H's. parents, David Brown and wife, near here.

Miss Lizzie Fisher, of Baltimore, visited Mrs. Harry Brilhart Saturday and Sunday.

John Albaugh, wife and daughter Hazel, of Greenmount, and son Preston and wife, of Baltimore, visited George Albaugh and wife Sunday.

Robert Frank and wife, of Westminster, visited here last week.

Lee Logisdon and family, of Baltimore, visited Henry K. Miller and wife Saturday and Sunday.

Miss Edith Rinehart, of Baltimore, visited here Saturday and Sunday.

Horatio Bortner and wife and Charles Rabenstine, wife and child, of Hanover, Pa., visited near here Saturday and Sunday.

EMORY

Mrs. Mary S. Wall, of Daniel's Park, is visiting at the home of Mr. and Mrs. B. F. Bond and family.

Miss Shipley and Mr. Stanley Briscoe, of Baltimore, visited at the home of Mr. and Mrs. Nicholas Mummaugh on Sunday.

Miss Ethel Parker, of Ohio, is visiting at the home of her parents, Mr. and Mrs. E. K. Parker.

Miss Helen Stull, of Finksburg, spent the week end with Miss Hazel Zepp.

Miss Fannie Leight, of Baltimore, spent the week end with her parents, Mr. and Mrs. Chas. Leight.

Mr. and Mrs. Wallace Gore and laughter, of Baltimore, spent the week end with their cousins, Mr. and Mrs. John Myers.

Mrs. Wm. Cooper and daughters, of Arlington, spent Sunday with her laughter, Mrs. Chas. Myers.

Mr. and Mrs. Claude Leight have moved into Mr. Frederick Fowble's house.

Mr. Luther Burk, of Philadelphia, is visiting his parents, Mr. and Mrs. John Burk.

Miss Carrie Bond attended the Laurel High School commencement last week and spent several days with Miss Ethel Hand, of Daniel's Park, one of the graduates.

Mrs. James W. Taylor, of Finksburg, spent the week end with her daughter and son, Mrs. Frank Raver and Mr. Marshall Taylor.

Miss Anna Bond attended the Polytechnic commencement at the Lyric on Tuesday last.

Mrs. Janes Leppo, of Baltimore, is spending a few days with her niece, Mrs. Frank Raver.

Miss Margaret Leight spent several days the past week with her cousin, Miss Emily Fowble, of Reisterstown.

Mr. Leslie W. Taylor has accepted a position with his uncle, Mr. J. Howell Taylor, at Medford.

Mr. Roland Matthews, of Hampstead, is visiting his sister, Mrs. Marshall Taylor.

MELROSE

We wish to congratulate Mr. Clinton Utz and Miss Sadie Sellers, who were recently united in the holy bonds of matrimony. We wish them much happiness and prosperity through life.

We are having refreshing rains which are a blessing to many crops, including peaches which are plentiful and of fine size and quality.

There were 74 present last Sunday afternoon at the session at Wentz's Union Sunday School. The question, "Why do men sleep in church during service and women do not."

Wentz's Union Sunday School has decided to hold its annual celebration in Crumrine's beautiful grove north of the schoolhouse the last Saturday in August. The Pleasant Hill Band will furnish music.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

In spite of Boards of Trade and business men, Congress might argue for months over the trust bills, were it not that a few days with the thermometer at 95 will offer a very convincing reason for adjournment.

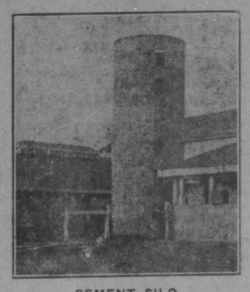

Concrete Silo is Cheapest in End

Far More Lasting Than Wood and Costs No More To Build.

G. E. WOLCOTT.
Maryland Agricultural Experiment Station.

The kind of a silo that a farmer should build will, to some extent, be controlled by circumstances. In a few cases it would seem expedient to construct the cheapest silo that will keep silage. This applies in the case of a renter or where the cost of materials for a permanent silo make it prohibitive.

Ordinarily the concrete silo can be constructed as cheaply as the wooden silo. It will keep silage as well and it is permanent. Where a gravel pit is near at hand so that gravel can be had for the hauling the concrete silo can be constructed at a comparatively small cost, the cement and material for forms representing the chief items.

CEMENT SILO.

Where sand and crushed rock can be had for $1.00 per load the following bill was figured for the cost of a concrete silo 12x30 feet, the wall being six inches thick, reinforced with woven wire.

Silo wall foundation and floor.

22 yds. crushed rock, @ $1.00	$22.00
13 yds. sand, @ $1.00	13.00
115 bags cement, @ .37½	43.12
33 rds. woven wire, @ .20	6.60
5 pcs. angle iron (2 ft. long), @ .50	2.50
10 pcs. scrap iron (4½ ft. long), @ .10	1.00
	$88.22

Roof and Doors.

438 feet B. M., @ .20	$ 8.76
50 feet B. M., T. G., @ .30	1.80
2½ squares roofing, @ $2.00	5.00
36 sq. feet water proof paper	1.00
55 lbs. nails, @ .05	2.75
8 bolts, @ .15	1.20
	$20.51

Material for Forms.

181 ft. B. M., @ .20	$ 3.62
10 pcs. Gal. iron, No. 22, 8x3, @ $1.09	10.90
6 pcs. strap iron, @ .15	.90
40 ft. old tin iron	.75
Rivets and bolts	1.00
	$17.17

Total cost of material, $125.90. If the farmer can furnish his own labor, the above figures represent the cash outlay. If all the labor is hired, it will require 13 days to lay the foundation and build the wall. Three more days would be required to make the forms, doors and put the roof on. The labor cost would not exceed $80.00. This would bring the total cost of the silo up to $205.90 which is cheap for a permanent silo.

SECOND SPRAY FOR CODLING MOTH.

T. B. SYMONS.
Maryland Agricultural College.

The second brood of the codling moth appears about July 1st. Unless the first spraying, when the bloom fell, was exceedingly thorough, a spraying with arsenate of lead should be applied at this time.

More important though than the arsenate of lead treatment for the Codling Moth is the application of Bordeaux mixture to prevent Bitter Rot and other diseases developing when the fruit is maturing.

The combination spray recommended for this time is:

Bordeaux Mixture and Arsenate of Lead:
Copper Sulphate, 4 lbs.
Lime (Burned), 5 lbs.
Water, 50 gals.
Arsenate of lead, 2 lbs.

The spray solution is cheap, and it only requires a little extra pains to secure a good crop of clean fruit.

TIME TO SEPARATE.

Do you know that all things being equal the smaller your flock of growing chickens the better the individual birds will grow and develop? Have you stopped to think that you can reduce the size of your flock of pullets approximately one half by taking out the males? The earlier they are removed the better the pullets will be developed, and the stronger and hardier the pullets are, the better will be their egg production during the winter. Sell off the cockerels as soon as they get a little size for as a rule prices are higher earlier in the season. However, if you have some exceptional birds and can sell some of the cokerels for breeders in the fall pick out the best and pen them up by themselves being sure to give them the best of care and attention. It is just as important to have the male birds health and vigorous as the breeding hen.

ALWAYS LEAD TO BETTER HEALTH

Serious sicknesses start in disorders of the stomach, liver and kidneys. The best corrective and preventive is Dr. King's New Life Pills. They purify the Blood—Prevent Constipation, keep the Liver, Kidneys and Bowels in healthy condition. Give you better health by ridding the system of fermenting and gassy foods. Effective and mild. 25c, at your Druggist.

White Diarrhoea Due To Several Causes

What It Is—Some Methods Of Prevention.

ROY H. WAITE.
Maryland Agricultural Experiment Station.

So-called white diarrhoea is a symptom of several diseases that affect young chicks during the first few weeks of their lives. There are several causes which are: (1) faulty incubation; (2) faulty brooding; (3) improper feeding; (4) a mold organism (aspergillus fumigatus); (5) a small animal organism (coccidum); (6) a bacterial organism (bacterium pullorum).

WHITE DIARRHOEA.

In birds the normal excretions from the kidneys, which are white in color, are discharged with excretions from the bowels. If from any cause this intestinal excretion is stopped the kidney excretions will be voided alone and be white in color. This explains why the white diarrhoea is present as a symptom of several diseases.

There is no sure method for diagnosing these diseases outside the laboratory, but a careful observer can come close to the diagnosis by considering the history of the case. To determine whether or not the trouble is bacillary diarrhoea is most important. This form of disease is transmitted through the egg from the infected ovaries in the mother hen. Therefore, if the disease occurs quite uniformly in all chicks from certain flocks, no matter how they are raised, bacillary white diarrhoea may be suspected. If on post-mortem examination, the lungs are found spotted, we have a case of aspergillosis caused by mold organism.

Give close attention to correct incubation, brooding, and feeding. In the mold form (aspergillosis) prevent further outbreaks by sterilizing all feed for the first few weeks. This can be done by feeding only cooked feeds or by heating the dry feed in an oven. Keep your brooders clean and disinfected. Keep hatching eggs in a clean place.

For bacillary white diarrhoea, there is no known cure. Sour milk or butter milk is recommended. The best policy is to renew the breeding stock by getting eggs or stock from some breeder whose flock is free from disease. Never breed from a bird that has white diarrhoea.

The early summer season is the most favorable time of the year to study agriculture and allied subjects at the Maryland Agricultural College. The College Farm with its experimental gardens, orchards, field crops, and fertilizer plots is at its best. These opportunities for first hand study in addition to the outdoor life and the freedom from the care of the school room will make a few weeks spent at your Agricultural College delightful and profitable.

GIVE YOUR TOMATOES A GOOD START.

Aim To Have Strong Stocky Plants That Will Not Wilt When Moved.

J. F. MONROE.
Maryland Agricultural College.

Too many growers fail to realize the value of having stocky, healthy, vigorous plants to transplant in the field. The seed should be sowed thinly in rows four inches wide. The distance apart of the rows will depend upon the method of cultivating them. When the plants are about two inches high, thin them to about two inches apart, being careful to leave only the strong, vigorous plants. This gives the plants plenty of room to grow stocky, and develop a more extensive root system, which enables them to withstand transplanting.

The seed bed should be fertile. Avoid excessive applications of nitrogen, especially, Nitrate of Soda or Sulphate of Ammonia, because these materials tend to force a soft growth.

Plants that are growing too rapidly can be pinched back. This will start the growth of lateral branches. It is recommended in cases of extreme growth, rather than as a corrective for a neglected bed of plants or an undesirable condition in growth.

Many have experienced trouble from the flea beetle. Do not dust the plants with lime or other material, because it frequently injures the young seedlings. Spray the plants with 4-4-50 Bordeaux Mixture, to which has been added Arsenate of Lead at the rate of 2 pounds to 50 gallons of water. Keep the young seedlings covered with this spray. It will keep off the flea beetle without injuring the plants, and help to keep them clean and healthy.

Have the seed bed thoroughly wet when removing the plants, water by hand a few hours before if necessary. Never "pull" the plants. Loosen the soil with a spade and remove the plants carefully, in order not to break the small, tender roots. Put the plants in a box or bucket and keep covered from sun and wind as much as possible.

The courses in Domestic Science and Art, and Industrial Hand Work given in the Maryland Agricultural College Summer School are particularly attractive to the women teachers of the State. These courses not only provide useful training for the teachers, but include such work as can be done in elementary and rural schools.

There is a move to have holidays celebrated on the week end. Also Washington's birthday should come in August.

As the public good demands that Congress hurry up, some of the members are getting to work daily as early as noon.
