Mr. Shipley had complained of feeling unwell but was able to attend to his farm duties and was plowing in a field on his farm when he became ill about ten o'clock and went to his home. A physician was summoned immediately who did everything possible to relieve the patitnt's suffering but despite his efforts Mr. Shipley expired at one o'clock. Mr. Shipley was one of the most prominent and highly respected farmers of the county and was one of the largest real estate owners in his section.

He was a member of Zion Methodist Protestant Church and had been the faithful superintendent of its Sunday school for the past twenty years.

He was among those who called upon the County Commissioners, on the 15th inst., to urge an appropriation to aid in the employment of an expert demonstrator of farm work in this county, and made a strong appeal for favorable action by the Board.

MEN'S SOCIAL

The Men's Social, held in the lecture room of the Methodist Protestant Church, this city, last night, was a most pleasant occasion. The pastor, Rev. Edgar Read, presided, and after the large company of men had united in singing "My Country 'tis of Thee," offered a short prayer. The men were divided into two camps, jocularly named "The Good-Lookers" and the "Not-So-Good-Lookers," one body under the leadership of Mr. H. Peyton Gorsuch, and the other led by Rev. W. L. Seabrook. Which appellation belonged to which camp not specified, and the question will probably never be decided. A number of amusing and interesting mental contests took place between the two sides, with divided honors. Mr. Charles Mitten was the pianist; Mr. J. Walter Zepp sang; Mr. Kinnett, of the Seminary, recited a number of "Cotton-field Ballads." The speaker of the evening was J. Frank Supplee, Jr., Esq., one of the Police Magistrates of Baltimore. Mr. Supplee was a school-mate and class-mate of Mr. Read at college. For an hour he held the close attention of his hearers as he related some of his experiences as a police justice. Refreshments were served.

The Right Principle of Construction Saves you money

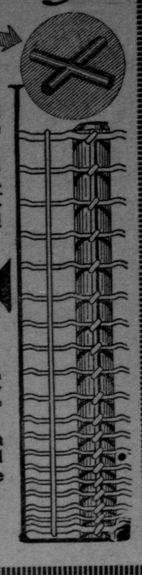

There is always just one right way of making a thing—and all the other ways are wrong. The right way to make a wire fence is to weld the wires by electricity at every point of contact. Clamps, wraps and ties are wrong, because they waste wire and add to the cost without adding the least bit to strength or durability. The strongest fence made is also the lowest in price. Simply because it is made on the right principle, which saves wire and adds strength.

"Pittsburgh Perfect" Fence

Is made of Open Hearth Wire Electrically Welded

All wires are galvanized by the most improved process. Every wire is open hearth wire, conceded by everybody to be stronger, tougher and better in every way than Bessemer steel wire. Line and stay wires are all of the same gauge (size)—a point which counts materially for strength and long life.

We simply ask you not to purchase any fence until you have seen the "Pittsburgh Perfect" Fence—the fence without weakness, and without waste. It is made in 73 different styles for every fence purpose
