THE LOST CHORD

You know how it was discovered and that since the day of its discovery it has thrilled the hearts of millions, and Great Masters of Music have wondered why the Lost Chord was not written before. Not a day passes over the heads of normal people that they do not ask questions of themselves, if no one else, why such and such a thing was not done before.

The reason why we did not name such low prices before was never in the history of this store were we situated so well as now to sell First Class Merchandise at these prices.

We have just contracted with the International Harvester Company for their full line of Farm Machinery and are now able to name you the following low prices.

FARM MACHINERY
