April Term 1868

Have you knowledge derived from John Chattertons statements of the extent of his means before and at the time the farm was purchased

Answer

I know from John Chattertons Statements and from facts connected with the general transactions of business that he could not have been at no time possessed of over two thousand dollars, well I know that after the purchase of the farm for one item we needed a team on the farm badly and it was not purchased until after I sold out my sewing machine business in Philadelphia and realized the means to make the purchase, I know that during the time we were hunting for farms, better purchases could have been made had we had more money to purchase with

April Term 1868

paper was ever signed with the understanding that I should convey lands in Tennessee to John, nor did I ever agree to convey any lands in Tennessee or elsewhere to him. You might add further that there never was any talk of such conveyance until after the institution of this suit

Fifth interrogatory

Look at the 4 notes C.D. E. F. returned in Phil Commission (McAllister & Brewster) and state whose signatures are to them

Answer

The signature to them is John Chattertons, I saw him sign them. The writing part in the body of the note is in my handwriting and the notes were made and John Chatterton signed them at the time of the purchase of the store in Second Street 207 Philadelphia and they are the original notes and only notes made in connection with the purchase of that store. I paid the notes, as agreed before the notes were made in full with means of Mrs Chatterton.

Sixth Interrogatory

State all you know in reference to the auction sales at the store in Philadelphia referred to in the testimony in this case

Answer

Shortly after the purchase of the Store 207 Second Street I commenced filling the store with furniture and so forth received from parties in debt to Mrs Chatterton at Store No 35 Second Street and by trading clocks and varnish for furniture and then selling out the stock at auction I repeated that operation several times and finally closed
