EDITORIAL

IS THIS A SENSATIONAL STORY

Some of the daily newspapers published a story, several days ago, to the effect that President Wilson intends to appear before Congress and request authority to sever friendly relations with Germany. It is also said that in that event Germany will declare war against the United States. There is cause for a rupture between the two countries, if this country shall adhere to the theory that the people of the United States are at liberty to travel on the high seas in armed merchant ships of the belligerents and that Germany cannot attack and destroy such ships without warning. It is a question whether that theory would hold good if a merchantman, so armed, should encounter an enemy's ship of a similar character, or even a man-of-war. An armed ship of any character is to be considered in fighting trim and need not be warned against an attack from an enemy on the open sea. It is therefore not immune from attack without warning from a submarine. On that point Germany and the United States are at odds. Or, at least President Wilson holds views opposite to those of Germany. And Germany is not likely to back down in the controversy. It is not clear to everybody that she is in error.

But there is also friction between the two countries in regard to the Lusitania case. It was supposed that an agreement had been reached in that case several weeks ago, but the trouble continues and is thought to present serious difficulties.

President Wilson, who has been applauded for keeping this country out of the war, appears now to be giving way to a warlike spirit. Many people believe that if he had been more decided in the beginning there two of the testator's sons, are the our being drawn into the conflict than would otherwise be the case at this time. The trouble it is supposed will culminate March 1st, when Germany, it is said, will proclaim her determination to follow the policy she has announced.

THE WAR IN EUROPE

The only news of real importance from the war in Europe comes from the west war zone, where Berlin reports the capture of trenches 700 by 600 yards, from the French, and the driving back of the British two miles in Flanders. Neither of these reports has been contradicted in Paris or London, and are therefore reliable.

A zeppelin air ship of the newest type and of immense size, was brought down by a shot from French artillery. The shot ploughed along the Zeppelin and ripped it open. The gas ignited, the great airship collapsed and fell in a crumpled heap to the ground, causing the death of the entire crew of 22. It was a lucky shot for the French.

The Russians continue their active operations in Asiatic Turkey and are reported to be approaching Trebizon. Petrograd again reports that Roumania is about to enter the war on the side of the Allies, but that action seems to be no nearer than it was a week ago.

The Germans have gained more ground from the French and claim to have advanced to a point where their artillery is in range of the fortification of Verdun. A terrific struggle in that locality is impending.

ADDITIONAL LOCALS

The Ladies' Aid Society of the Church of the Brethren, this city, held an all-day's quilting Wednesday, 23rd inst., at the residence of Mr. and Mrs. David M. Young, West Main street, this city. Two quilts and three comforts were quilted. A sumptuous dinner was served and all present spent a very pleasant day. About fifty-six persons were present.

The will of the late Lewis Green, admitted to probate in the Orphans' Court this week, disposes of a valuable estate, which is principally bequeathed to his sons and daughters, several of his grandchildren coming in for bequests also. The will mentions that the testator, during his lifetime, had given his children, in cash, about $11,000 in money, besides other money and stocks. Messrs. Isaac T. Green and Lewis Green, Jr., two of the testators sons, are the executors named in the will.

The dwelling on the Elias Read Farm, near Reese, this county, with nearly all its contents, was totally destroyed by fire Tuesday morning 22nd inst., between ten and eleven o'clock. The house was occupied by Mrs. Elias Reed and two daughters. The property is owned by Mr. William Reed, of Baltimore. The fire is supposed to have started from a small hole in the pipe. It burned very rapidly and although about a hundred people gathered it was impossible to save anything except some furniture. Mrs. Reed is about 59 years of age. The family was taken to the home of Mr. and Mrs. Frank Magee where they have been made very comfortable. Some insurance was carried on the furniture, but none on the building.

SUFFERED NERVOUS COLLAPSE

Mrs. Leister Armacost, of Norfolk, Va, formerly of Thurmont, is at this time in St. Agnes hospital, Baltimore, under treatment for a serious nervous collapse or break down. This condition was brought about by the sudden illness, of Mrs. Armacost's little son, Robert, who about a month ago was taken with membranous croup and from which he almost died; strenuous efforts alone saving him. Mrs. Armacost is now suffering from the effects of the shock at that time. The little boy is now with his grandparents, Mr. and Mrs. W. L. Armacost, this city, his father having taken him there about two weeks ago.

When Mr. Wilson repudiates the one-term plank of the Baltimore platform and becomes a real candidate for renomination is he responding to a duty which he "assumes" or "recognizes?"

JACOB LAWYER

Mr. Jacob Lawyer one of our oldest citizens died at his home in Pleasant Valley about 8 o'clock on Tuesday morning, February 22nd, aged 77years, 8 months and 12days. Mr. Lawyer was a christian man having joined the church many years ago. He was a great Sunday School and Christian Endeavor worker. He was also the Sexton of the cemetery of which he took pride in beautifing. When the church was rededicated he made the remark that he would be the first to be taken into the church. He surely thought that the end was near and knew his condition better than we did for his words came true. He was a true Christian in every sense of the word and edeavored to live up to his ideal of what a christian life constitutes. His favorite hymn was: "When My Life Work Is Ended." The funeral will take place from his late home on Thursday morning at 10 A. M. A widow and the following children survive Mr. Jonas Lawyer, of Frizzellsburg; Mrs. Emma Fowler, of Baltimore and Mrs. Robert Bankard, of Taneytown.

The pallbearers were: Messrs. Edward Hahn, Joseph Yingling, Edward Yingling, Harry Devilbiss, Edwin Geiman, Robert Wantz, William Yingling and Noah Powell.

Mr. James M. Stoner was the funeral director.

A PLEASANT EVENING

On February the 24, 1916, at the home of Mr. and Mrs. David R. Petry a very pleasant surprise was given in honor of Mr. Petry's nephew and niece, Mr. and Mrs. Benjamin Stouffer, nee Burns, of Denver, Colorado who were recently married and came east on their wedding tour. During the day they were visiting relatives in the vicinity of Silver Run.

When they returned at the home of Mr. Petry's the house was filled with a merry crowd around. Soon the bride and groom knew what was going on. The evening was spent in vocal and instrumental music and social conversation. About ten-thirty the waiters were passed around in the different rooms, which consisted of country made ice cream, various kinds of cakes, oranges bananas, lemonade, etc., to which all did ample justice. About mid-night they all returned to their respective homes thanking the host and hostess for having spent a very pleasant evening. There were about fifty persons present.

WED, THEN WENT TO WAR

"With the return to this city a few days ago of Dr. Grover A. C. Stem, a former resident surgeon at University Hospital, after 18 months' service in the American Red Cross, at field hospitals of General von Hindenburg's armies and Russian prison camps, the fact became known that the surgeon was married to a Baltimore girl a short time before he left for Europe.

"As a culmination of a romance which began at the Hebrew Hospital two years ago, the marriage was quickly decided on. Miss Irene Meyer, daughter of Mrs. C. Meyer, 403 South Collington avenue, was the bride.

"Yesterday the young woman, who has lived at the home of her mother while her husband was abroad, admitted that she was Mrs. Stem, but she declined to tell the details of her marriage. She expressed surprise that the secret had become known.

Letters Were Censored..

"Dr. Stem arrived in Baltimore on Wednesday and on Saturday night he left the city for the home of his father, near Westminster, Md. His father, it is said, is very ill. Only a few intimate friends of the couple knew of the wedding. When her husband was abroad Mrs. Stem received many letters, but a number were severely censored, she said. Very few words were permitted to pass through Russian mail.

"With the exception of Mrs. Stem and a friend or two none knew that Dr. Stem had returned and many of his acquaintances in this city believe he is abroad.

"Dr. Stem was graduated from the medical school of the University of Maryland in 1912. He is 29 years old. After his graduation he became an interne at the University Hospital. Later he was appointed to the staff of the Hebrew Hospital, where he met Miss Meyer, who was a bookkeeper there. Friendship ripened into love. Dr. Stem left the hospital and went to Washington. In September, 1914 the American Red Cross called a number of American surgeons for work on the European battle fields.

"Among the Baltimore surgeons Dr. Stem's name was listed, and a few weeks later in company with Dr. John Spearman, of this city, and other American physicians he sailed from New York. Before Dr. Stem left his wedding to Miss Meyer was performed.

Was With German Army

"For one year Dr. Stem was with Dr. Spearman, who returned to this city last October. Both were with the Red Cross until assigned to von Hindenburg's command, and they experienced the campaign when Hindenburg captured a major part of Poland and Warsaw. After this campaign Dr. Stem was at Gleiwitz, Galicia, where a large first line hospital was located. While there he performed and aided in hundreds of operations

"Dr. Stem is a staunch believer in German thoroughness. In his letters he described the organization of the army as wonderful. When other American surgeons decided to come home, Dr. Stem decided to see the war from the other side so he inlisted in the Red Cross doing work in Russia.

"Armed with passports and other things of identification, he got across the border into Russia and went to Petrograd. He entered for six months' service in the Red Cross and he was assigned to work in the great prison camps at Orenburg, Siberia. Orenburg, where thousands of Austrian and German prisoners are held by the Russians, in a city of 60,000 inhabitants. It is the headquarters of the Orenburg Cossacks.

"Dr. Stem found the work in the prison camps exceedingly strenuous and after three months' service resigned and went to Muscow. The camps are at foothills of the Mountain range and the cold is intense. Only coarse food is furnished the prisoners. After traversing Russia Dr. Stem made his way to Bergen, Norway, where he boarded the steamer Bergensfjord for New York.

Dr. Stem is a son of Ex-County Commissioner John H. Stem, of Winfield, and a cousin of Mr. J. Ezra Stem and Mrs. George E. Matthews, of this city. Dr. Stem's father is seriously ill at this time.

The Empire Pipeless System of House Warming offers clear, even heat to the Thousands of Homes that have heretofore been forced to rely on dirty stoves. Heretofore the Prosperous Farmer only has been able th have a Heating Plant installed, but the Farmer of small ncome has pratiaclly considered having every room in his house heated to a warm even temperature as a thing impossible.

We have now in operation one of these Heaters in the Residence of Mr. Jesse F. Chrest this city Mr. Chrest is highly pleased with the operation of this plant and states that he would not trade it for any other System that he has ever seen. Anyone who is interested in heating their House, and getting the best results for the least amount of fuel, may see this plant in operation at Mr. Chrest's Residence on Pennsylvania Ave., this City. Mrs. Sara Bard Field of California doubtless spoke by the book when she told a committee of the Senate that the crowds who turned out in the West came to see Mrs. Wilson, and not to hear the President.

An administration which lets Garrison go and retains Daniels may well be looked upon with some suspicion when the question of a sincere regard for national defence is under consideration.
