3rd. Cross Interrogatory. Can you accurately fix the date when this ore was taken?
Answer. No, Sir. It was in 1860 or 1861. I don't know which. It was in the Fall & Winter of 1860 and 1861.

The Complainant's Solicitor here filed "Complan ore No 1" as an exhibit.

John Welch, aged about 31 years, residing at No. 47 South Greenrich Street in the City of Baltimore, produced as a witness on the part of the Complainant being duly sworn and examined to interrogatories filed with the Commissioner by the Complainant's Solicitor R.R. Boarman, Esq. and herewith returned, deposes and says:

1st. Interrogatory. State whether or not you drove Thomas Ward's team hauling ore, at any time
Answer. I drove Mr. Wards team over twelve months. I quit about four months before Mr. Greens death. Part of the time I was hauling ore.
2nd Interrogatory. State whether Ward was hauling ore for Mr. Green or not.
Answer. Mr. Ward always told me he was hauling ~~ore~~ for Mr Green. Mr Ward paid me for driving the team.
3rd. Interrogatory. State where the ore was hauled from and where it was delivered.
Answer I hauled ore from the Washington Road to Bolton depot and to Bailleys wharf.
4th. Interrogatory. State how many days you were engaged in hauling ore to Bolton Depot and Bailleys Wharf. What was a six mule team worth a day?
Answer. There were two teams, a four horse team belonging to Ward and he had also a six horse team. The four horse team was not there when the six horse team was there. I judge I myself was engaged three months in hauling to Bolton Depot and Bailleys wharf I suppose I hauled during that time sixty or seventy days. The other team was engaged steady. I drove a six mule team. I judge a six mule team was worth eight dollars a day
5th. Interrogatory State what size team the other of Ward was, and how long was it hauling ore to the same place. Did it haul longer than your team, and what was it worth a day, the four horse team.
Answer. The other team consisted of three horses and a mule. I do not know how long this team was engaged ~~in~~ hauling ore. I judged it hauled as long as my team did. It was worth I judge about five dollars a day.
6th Interrogatory. Can you state whether or not it was in the Fall of 1860 and Winter of 1861, that the ore was hauled that you have spoken of.
Answer. It was during the summer, Fall and Winter before

Mr. Green's death that I did the hauling of which I have spoken.
7th Interrogatory. You say that you stopped hauling about four months before Green's death. State whether or not Ward's teams hauled any ore after you quit or not, to the places you have spoken of.
Answer Ward's teams hauled ore from that bank I judge pretty near two months after I quit.

1st. Interrogatory. Did you purchase any lime in Oct. 1861. and where did you get it from, and what did you pay for it? Where did the lime come from.
Answer. I got it from William Pannell and paid him for him five hundred bushels at eighteen cents a bushel. The lime came to Ferrymanville from I don't know where. I paid the freight on it. I bought it for Texas lime, but I don't know where it came from.
2nd Interrogatory. Was or not William Pannell at that time an agent of Richard Green.
