children and legatees the direction in his will in relation to the advancement of $1700 to Mrs. Balfour has never been attended to unless indeed the manner in which the parties seem to have treated the U.S. loan of $1400. as belonging to the other five children may be regarded as a substantial division of the residue of the personal - among them. I think it would be proper to charge Mrs. B. with the principal sum of $1700 only when the balance of the personal estate is divided because they have all expressed a wish that this should be done as they know the whole amount has long since been expended by Mrs. B. and because there is nothing in the will of Col. Long which would seem to prohibit the wishes of the parties and the fair division of the property now remaining.

3. 4. I find from the books of the loan office that the certificate for $1400. was in the name of Henry Long as trustee, and of Andrew K Long, Thomas J. James H. Mary J. and Amelia J. Long and that on the 25th May 1830 Thomas J. Long sold and transferred $280. his part of the certificate. As the others have received the dividends on the balance ($1120) it is unnecessary to notice the time at which the sum was received by Thomas with a view to the charge of interest.

5. Charge me with the $1000 due by H. Long.

6. I consider myself entitled to 5 per cent on the gross amount of the trust estate as a testamentary trustee. I have been allowed this in several cases and know of many more where it has been made. You will please consider this as a direction to allow me five per cent on the whole trust fund.
