Ans. I do.

7th x int. Did you not have a talk with the said Donnelly since the death of Henry Gunther, on the subject of having this deed, or the will of said Gunther, set aside, and say to him that that was all nonsense, that you knew that at the time of the execution of the deed in question, that Mr. Gunther was all right, and as sensible as any body; or use words to that effect?

Ans. I had conversations with Mr. Donnelly since Mr. Gunthers death, on several occasions, and have expressed my self as not seeing where they could break the will, but I don't remember in regard to the deed, for the simple reason that I was not familiar with the contents of the deed directly.

8th x int. Have you not told Mr. Donnelly at the station house in Canton, within the last six weeks, that Mr. Henry Gunther was in his perfect mind when he signed the deed, or used words to that effect?

Ans. I can recollect that I did.

9th x int. Have you not told Mrs. Gunther, who now sits before you, several times within the last two months, that the plaintiffs in this case could do nothing, because Mr. Gunther was all right, and in his right mind when he signed the deed?

Ans. I have told Mrs. Gunther frequently that I believed her case was all right, and that I did not believe that the plaintiffs could do anything.

10th x int. How often within the last four months has John T. Ensor, or Walter R. Townsend been to see, or talked with you about this case, or your evidence in it?

Ans. Each of them two or three times; Mr. Ensor approached me once at the police station, in Canton, and in Towsontown, on two different occasions, and once in Baltimore City

at Mr. Townsend's office; Mr. Townsend once at the police station, in Canton, and twice at his office, to the best of my recollection.

11th x int. In August, 1886, you, as a Justice of the Peace for the State of Maryland, and for Baltimore county, certified in legal form that Henry Gunther personally appeared before you and acknowledged the deed in question to be his act; now tell us whether you then officially certified to what was true or to a falsehood.

Ans. I certified to the truth, to a formal acknowledgment under the circumstances.

12th x int. Did you read the deed which Mr. Gunther then acknowledged, either privately or to him?

Ans. I did not thoroughly read the deed; I did not read it to him at that time, to the best of my recollection.

13th x int. Don't you know that you did read it, and after your reading of it, don't you know that Mr. Gunther then asked his wife to read it to him again?

Ans. I can't recollect that circumstance.

14th x int. Do you swear that there was no one in the room except Mr. and Mrs. Gunther and yourself?

Ans. I am not positive.

15th x int. Can you state who wrote that deed, and how long it was in Mr. Gunther's possession before he signed it?

Ans. I believe from what I hear, that Mr. James H. Smith is the writer of the deed; I believe, from what I heard, he had it a week or ten days.

16th x int. In your 11th x answer you have testified: "I certified to the truth, to a formal acknowledgment under the circumstances;" explain what you mean by a "formal acknowledgment."
