(Exhibit H. G., No. 1, shown witness, and filed.)

Ans. Yes, sir; I wrote it myself.

18x int. You have said when you bought the milk route, you paid your father $350 cash, and the balance in a note of $100, and that you bought in the Fall of 1884, you now identify the note of $125.00, dated April 13th, 1885, as the note you gave; are you not wrong both in your statement of the amount you gave, and of the time you gave it?

Ans. No, sir; I am not wrong in the amount I gave him; I gave him $450 for the milk route; at least I think the receipt calls for that, and the $25.00 extra on the note was for a counter, ice box and shelves, and a few jars, that had nothing to do with the milk route at all.

19x int. And yet, both you and your wife have spoken all along of the note given on that occasion being for $100; why was that so?

Ans. Only a hundred dollars more to pay on the milk route; I paid $350.00 cash.

20x int. How long after the purchase from your father did you purchase from Berends?

Ans. I could not say how long exactly - a couple of months.

21x int. Have you Berends' receipt; if so, produce it?

Ans. Receipt produced and filed, marked "Defts Exhibit H. G., No. 2."

22x int. This receipt indicates your purchase from Berends as taking place just seventeen days after the receipt from your father; which is right, your statement or the receipt?

(Excepted to by Mr. Emser, on the ground that nothing of the sort appears upon the receipt.)

Ans. I think I had the milk route a couple of months

before I bought the route.

23x int. In your 40th and 41st answers, you say that you gave $450 for the milk business, and did not pretend to distinguish the milk route from the articles you say the $25 in the note represented; was not the purchase from your father, in point of fact, every thing connected with the dairy which you were buying?

Ans. No, sir; the ice box and counters had nothing to do with it; they had not paid Mr. Crone yet for fixing it.

24x int. You got all of the things at the same time that the $475.00 paid for; didn't you?

Ans. No, sir.

25x int. What did you not get when you got the route, wagon, horse and counter?

Ans. I got the route, mare and a wagon, one milk can and a bell and three measures; I got them over at father's house on the day of the sale; that is all I got at the sale; I bought the route; I was to get a set of harness; that all that was to go with the route; I got the harness that night.

26x int. That was all you were to get in the purchase from your father?

Ans. That was all I was to get; then I went over and asked him about the counters and shelves - if I was to pay Crone or him; and he said, you can suit yourself about that; I said, all right; suppose I put $25.00 more on the note; so the day we made the note out I put $125.00 on the note; this was the same day I bought the route; then at the same time I rented the house the things were in from father.

27x int. The whole establishment belonged to your father; did it not?

Ans. What was that.
