ANNOUNCEMENT OF THE SECRETARY OF THE TREASURY RELATING TO U. S. TREASURY CERTIFICATES OF INDEBTNESS DATED JAN. 2ND. AND MATURING 25, 1918.

Secretary McAdoo announced that "subscriptions have been received and allotted for Two Hundred and Fifty Million Dollars of the issue of Treasury Certificates of Indebtedness, dated January 2nd and maturing June 25, 1918 about Nine Hundred and Forty Million Dollars. As these certificates have been issued with a view of sale to those having income and excessprofits taxes to pay and to avoid concentration of tax payments on one date, the sale of so large an amount, more than five months before the taxes are due, is very gratifying. The Secretary has directed the Federal Reserve Banks to continue to recive subscriptions for certificates of this issue at par and accrued interest, and until further notice to make allotment in full in the order the subscriptions are received still reserving the right however to close the issue at any time, to reject any subscriptions, and to allot less than the amount subscribed for."

We respectfully request of banks that they continually bear in mind the very great importance of having their clients make preparations in advance by the purchase of Treasury Certificates for the payment of income and excess profits payable in June. It is of vital consequence to the public and to the banking situation that such preparation be made in order to avoid disturbance and congestion of credit, which would inevitably be caused by waiting until the arrival of the time of payment to borrow or draw at one time too heavily upon bank balances accumulated for the purpose of tax payments.

Respectfully,

Federal Reserve Bank of Richmond.

Every evening this week the "Lime Kiln Hill" has been full of jolly coasters—not many who live here are to old; really some older ones are younger than the youngest. The Army and Navy Commission on Training Camp Activities, in addition to the work being done in Army camps and cantonments, now has its representatives in every training station of the Navy and at every place where enlisted men are preparing for sea service. There are 86 clubs for sailors at camps and in adjacent cities. There are reading and writing rooms, assembly halls, and some of the cities have arrangements for athletics, swimming pools, and gymnasiums. In the 18 camps there are given each week 92 entertainments ranging from professional performances, lectures, and exhibitions, to club nights and weekly dances. More than 60,000 books have been furnished ships and stations by the American Library Association. The Y. M. C. A. has 42 buildings and tents in the various camps.

Men qualified along certain lines, although registered under the selective-service law, may be inducted into the land division of the Signal Corps, which is in need of men for the following duties: Chauffeurs, motorcycle drivers, and gas engine repairmen for duty in field and telegraph battalions; telegraphers, both wire and radio; telephone men, including switchboard operators, telephone repairmen, and men skilled in testing and repairing telephone lines; telephone and telegraph linemen; photographers, still and moving, homing-pigeon men; radio men who are familiar with installing radio apparatus; men qualified as cooks, clerks, stenographers, blacksmiths, meteorologists, cobblers, cable men, etc. Men inducted for this division, unless otherwise requested by the Chief Signal Officers of the Army, are sent to Fort Leavenworth, Kans.

Examination of the records of 1,000,000 men passed for military service by local boards and then rejected by camp surgeons show that nearly 22 per cent. of the final rejections were caused by defective eyes. Teeth were responsible for 8.50 per cent; hernia, 7.47 per cent; ear, 5.94 per cent; heart disease 5.87 per cent; tuberculosis, 5.37 per cent. Attempts to evade military duty by deception regarding physical condition were very few.

Some people seem to think that the sugar question is solved when it is fed out to the people in the form of candy at $1.00 a pound.

Just as the sleeve chevrons and bars, stars, and eagles on the shoulder proclaim ranking officers, the hat cord denotes the branch of service each private has entered. Light blue signifies Infantry; sarlet, Artillery; yellow, Cavalry; cuff, Quartermasters Corps; scarlet and white, Engineers' Corps; orange and white, Signal Corps; scarlet and black, Ordinance; black and white, field clerk; maroon, Medical Corps; black and gold, officers; silver and black, adujant general's clerk; green, instructor Home Guards; green and white, Home Gaurds.
