DOES YOUR

BACK ACHE?

It's usually a sign of sick kidneys, especially if the kidney action is disordered, passage scanty or too frequent. Don't wait for more serious troubles. Begin using Doan's Kidney Pills. Read this Westminster testimony.

C. H. Campbell, 25 John St., says: "My back was always weak and tired very quickly. The greatest of my troubles was a dragging ache directly over my kidneys. I was growing more miserable all the time and when I saw Doan's Kidney Pills advertised I got a box at Moore's Drug Store. They strengthened my back and gave me immediate relief." (Statement given November 4, 1907.)

On August 9, 1916, Mr. Campbell said: "I cannot praise Doan's Kidney Pills too highly. They gave me permanent benefit and I think a great deal of them. All sufferers of kidney complaint should give Doan's Kidney Pills a trial for they are a wonderful medicine."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Campbell had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

Nothing can be done to the spies because they positively deny they are guilty, and of course they always tell the truth.

Some peoples' theory of How to Win the War is to fill the people up with a lot of roseate views that will all have to be dealed next week.

MEDFORD GRANGE MEETS

Medford Grange No. 188, met February 6, 1918, at the Grange Hall with twenty-seven members present. The meeting was called to order by our Master, Clarence Duvall. We closed the session in the Fourth degree and opened in the First to initiate eight new memebrs which we did.

We then had a public installation of officers for the ensuing year, 1918. Brother Walsh was invited to install the officers. They are as follows:

Master, Clarence Duvall; overseer, Hamilton Fritz; lecturer, U. M. Gladhill; steward, Jas. W. Beacham; ast. steward, Dacid Snader; chaplain, R. S. Roser; treasurer, H. Devilbiss; secretary, James Swelgart; gate keeper, Dennis Smith; Ceres, Mrs. James Swelgart; Pomona, Mrs. Harry Englar; Flora, Mrs. H. Fritz; Lady A., Steward, Mrs. David Snader.

Brother Walsh gave us a talk on co-operation, and the duty to our nation. Mr. Kinsey, our County Agent, talked on United States Government War-Savings Stamps, also How the Federal Farm Loan Act Benefits the Farmer. He also gave us a talk and read some articles on knocking the Government and why we should be boosting it instead.

Miss Everett, with the help of the lady members, served sandwiches, which were delicious. She also told us her mission to the rural districts.

We spent a delightful social hour then adjourned to meet at the home of Brother and Sister Fritz, on February 20, 1918.

The subject to be discussed is co-operation.

MELROSE

Our neighborhood was shocked on Monday morning to hear of the sudden death of one of our highly esteemed citizens, Mr. Joseph James, who died of a complication of diseases Sunday night. He is survived by a wife, one daughter, Mrs. Emory Decker, of Baltimore, and one son, Tilden, of Hanover, Pa., and a number of grand children. He was about seventy years of age. His remains were laid to rest at St. David's (Sherman's) Church on Thursday morning.

On Sunday evening a large motor moving van drawn by eight horses passed through town enroute to some garage.

The Bachman's Valley Iron Ore mines have been closed down temporarily until weather conditions are more favorable.

A force of men and boys armed with shovels openal the State road, on top of Dug Hill on Saturday afternoon. People are now driving between walls of snow and ice.

Mr. Beniah Bankert received a letter from his son in Seattle, Wash., stating the following prices there: "Eggs, 75c dozen. Butter 65c lb. Pork, 50c lb. Ham 65c lb., and bacon 60c lb.

Kaiser Bill's big offensive he has been bragging about simply means that a million men will be taken from their safe trenches, out in the open where our gun fire can get them.

CARROLL COUNTY DIVISION MARYLAND COUNCIL OF DEFENSE
Report For Month Of January 1918

This report was read February 7th at the meeting of the Maryland Council of Defense held in Baltimore.

Mrs. Tdward Shoemaker, Chairman:

I have the honor of submitting the following report for the month of January, 1918:

1-Registration. No report.

2-Social And Welfare Department

Sec. 1. Families of Soldiers and Sailors.

Sec. 2. Comforts for Soldiers and Sailors.

No report in accordance with instructions from Baltimore Headquarters, to make the report of these sections only in May and November.

3-Thrift Department.

A short course in Farming and Food Conservation, was given in Westminster by the Agricultural Extension Department of the International Harvester Company. The arrangements were made by a most able committee, interests stimulated by the Council of Defense. The course given was well worth the effort of preparation. The Lecturer's were able men and women, most interesting pictures were shown, demonstrations were well conducted with excellent charts and in spite of intense weather the attendance was large. The different sections attracted not only persons in Westminster but all Farmers, who were not completely cut off by the snow. We feel certain that had the conditions permitted a very large percentage of Farmers and their wives from all over the County would have been present.

Another demonstration of the preparation of War Foods was given by Miss Ericson of the Maryland Agricultural College in the Domestic Science Room of the Westminster High School. This was also most interesting and helpful. The Woman County Agent has formed several Thrift Clubs and reports a most enthusiastic response and real interest among the women.

4-Education.

Sec. 1. Patriotic Education.

The Superintendent of School for Carroll County, has taken up with the County Commisioners the subject of "Increased compensatipensation for Teacher's" and obtained their support. They have agreed to pay half the increase if the state can complete the fund and are awaiting a reply from the Legislature.

Plans are being formulated for a tour of each purpose of stimulating interests in the War. We hope to obtain interesting War pictures and a motion picture machine and to hold a meeting in the local houses, having Speakers to make addresses along Patriotic and Educational lines.

Sec. 2. Americanization.

No report.

Sec. 3. Preparation for Employment.

Sec. 5. Employment Department. No report.

Sec. 6. Medical and Nursing Department.

Sec. 1. Nurses Service.

Several Districts are arranging nursing classes, which will be done a soon as arrangements are completed.

Sec. 2. Garments and Surgical Dressings. No report.

7-Volunteer Service.

Fourteen young women volunteered to do clerical work for the draft board and were constantly active for nearly a month doing splendid work. Four of this number were loaned by their employers.

8-Vigilance.

Sec. 2. Recreation and Mobilization.

Four detachments of motor trucks, each numbering thirty trucks and ninety men have passed through Carroll county and stopped for a night in Westminster during the past week.

The Council of Defense had already a Canteen Committee, including their own members and about twenty-five women to care for this emergency and nearly every one in the town offered to assist either by personally working to prepare supper or by sending sweets in addition of what we had bought. Each detachment was given a hot supper on their arrival of sausage and buckwheat cakes, also coffee or sausage, hominy and etc. The Council has given us a small sum to expend each night, but the untiring work of the women had made the supper possible and successful.

Owing to the fact that the Armory is not yet finished, the Firemen have very generously offered the use of their building and equipment.

St. John's Catholic Church have asked to be allowed to entertain the next detachment, arriving Thursday evening at supper, and the Knights of Columbus have given us the use of their club room permanently for the soldiers to enjoy during their stay.

Sec. 1. Child Welfare.

No children reported absent from school since the active work of the Chairman of this section provided them with proper clothing.

Through the Parent Teachers' Association, 14 families have been helped and 71 articles of clothing distributed.

Sec. 2. Recreation at Mobilization Centers

A melting pot fund has been started in Westminster for the maintenance of the United Service Club on Fayette street, in Baltimore.

9. Work of Colored Women.

No report.

10, Liberty Loan

No report.

Thrift Stamps

An active campaign is being organized for the sale of thrift stamps. Arrangements have been made with the Chairman of the four minute men of Carroll county, to make a short address in each room of every school house in Westminster and also to speak to employees of the two shirt factories, the only industries of that nature in the town. I think we can report a sale of approximately five thousand dollars worth of Thrift stamps in the last two weeks.

Respectfully submitted,
HILDA SHRIVER,
(Mrs. Robert Sargent Shriver)
Per G. S. Gehr.

WE MUST HAVE SHIPS
THIS COUNTY CALLED ON TO SUPPLY VOLUNTEERS FOR SHIPYARD WORK

The chairman for Carroll county of the Maryland Council of Defense, has received an urgent letter from General Francis E. Waters, Chairman of the Executive Committee of the Council asking him to make immediate appointments of local men to receive registrations of volunteers for shipyard work. General Waters writes that it is the most imperant call that the government has made on the Maryland Council and there is a demand that the work must be handled swiftly.

The purpose is to raise at once a reserve force of 250,000 shipyard volunteers. Maryland's quota is 5250. This country's quota is 125.

Men are asked to give their names to local committeemen. These names will be forwarded to Mr. John K. Shaw, Chairman in charge of the Labor and Employment Bureau, 26 and 28 Commerce Street, Baltimore. The buttons and certificates of enrollment will be furnished at a later date. The volunteers will not be given immediate employment but will be called on later. The fact that so much shipbuilding is done in Maryland means that they will not have to go far from their homes.

The wages will be high and the government is now working out the housing problems, so that all will be well taken care of. There will be steady employment.

It is not promised that these volunteers will be exempted from the draft, but the men now in shipyards have been given a deferred classification and the volunteers will have special consideration.

In this critical year the man who helps to build a ship will serve his country as usefully as though he carried a musket.

The shipbuilding reserve will be a great honor body of patriotic Americans.

This county's quota should be made up in a week. Action is needed. Apply at once. If you cannot reach your local committeeman write to John K. Shaw, 26 and 28 Commerce Street, Baltimore, Maryland.

General Francis E. Waters, Chairman of the Maryland Council of Defense, received the following telegram recently from Charles Piez, General Manager of the Emergency Fleet Corporation:

"The work of the State Councils of Defense and of the agents of the Public Service Reserves in enrolling two hundred fifty thousand skilled workmen for the United States shipyard volunteers is of paramount importance in the early winning of this war, for on earnest labor depends the early construction of our merchant fleets.

"Within sixty days three huge government yards will be completed and soon thereafter more than sixty thousand workmen will be required to furnish for them the three eight hour shifts necessary if these yards are to turn out their ships according to schedule.

"The Shipping Board now has seven hundred sixteen ship ways. Three hundred two are for wooden ships and four hundred fourteen are for steel construction. The yards in which they are established are only working one eight hour shift per day six days a week. This is monstrous. If we are to keep ahead of the submarine we must run three shifts per day fifty-two weeks in the year.

"Our program calls for the construction in nineteen eighteen of eight times the tonnage delivered in nineteen sixteen at a cost of more than a billion dollars. The Shipping Board has the necessary yards, the materials and the money. All that is lacking is a spirit in the nation that will send a quarter of a million American mechanics into the yards to give their best and most efficient work.

"We all honor the men in uniform the men who look to work in the and the same honor must be given to yards. Just as the Navy is the first line of the British Empire and just as Germany depends upon the submarines, so must America depend for victory upon the shipbuilders in the American yards. To the women of America I say, 'Send your men to the shipyards for they will be doing there no less a service than in the Army or Navy, and they will be returned to you safe and well paid, after having performed a duty that is a primal necessity of this war."

GAS-BAGGING GARFIELD

Secretary of the Interior Lane is one of the very few level-headed and capable members of the national administration. If he had been given some authority in the fuel problem, matters would not now be in such a deplorably dangerous situation. But he evidently is not in good standing with the powers that be. A few days ago he was before the Senate Committee investigating the coal shortage and told of the steps he took last Spring to check price raising without discouraging coal production. Here is all the attention he got in the Official Bulletin the next day: Secretary Lane told the Committee what he knew of the coal situation last Spring and the fixing of prices." Mr. Garfield, who muddled the coal situation, gets abundant space in the Official Bulletin.
