PARENT-TEACHER ASSOCIATION

A meeting of the Parent-Teacher Association of Westminster was held in the high school building on Monday evening, March 25. The meeting was called to order by the President, Mrs. J. Pearre Wantz, and was opened with singing followed by prayer by the Rev. Edgar T. Read.

After the reading and approval of the minutes of the last meeting, Mr. Read explained the plan of forming a league of junior four-minute speakers among the pupils of the public schools.

Miss Margaret Lockard read an interesting paper upon the subject of "Play", in which the importance of property directed play in connection with public school work was strongly emphasized.

A piano solo rendered in highly artistic style by Miss Jewell Simpson, was greatly appreciated by all present.

Dr. William Burdick, director of The Public Athletic League of Baltimore, who has been closely indentified with athletic activities and physical training for school children, then addressed the Association. In the course of his remarks he called attention to the large number of rejections for military service by the Draft Boards throughout the country, and showed from statistics which he had collected that the average for the whole country is about 29.9 per cent, and for the State of Maryland alone 29.1 per cent. From examined in Carroll County 639 were selected, showing a rejection of about 27.9 per cent. While the percentage of rejections for Carroll County is somewhat lower than that for the whole country, and slightly lower than that for the State, this not a record of which any community might feel proud, and the fact that more than one out of every four of our young men are physically defective deserves serious consideration. Dr. Burdick also stated that a bill is now pending in the Legislature of Maryland providing for physical educated and training in the public schools. After some discussion, a resolution was passed by the Association requesting our representatives to support this bill.

The president announced that the next meeting will be held the last week in April, and that the "question box" will be the principal feature of the evening's program.

COUNCIL OF DEFENSE NOTES

Women of the counties will play an important part in the third Liberty Loan drive. With the idea of perfecting plans for the third loan so that the work done by the women in this state will be even more effective than that which featured the last loan when the Woman's Liberty Loan Committee for Maryland turned in over three millions of dollars, a large patriotic luncheon and meeting will be held on the roof of the Emerson Hotel on Friday, April 5th.

The guest of honor and chief speakers will be Mrs. Wm. Gibbs McAdoo, wife of the Secreary of the Treasury, Mrs. George J. Seay, of Richmond, Va., wife of Governor Seay of the Fifth Federal Reserve District, and Mrs. Antoinette Funk, Vice-Chairman of the National Woman's Liberty Loan Committee. Perhaps at no other time three women of such prominence visited this state on the same date, and it is designed by the Woman's Liberty Loan Committee for Maryland, of which Mrs. Sydney M. Cone is Chairman, to make the luncheon and meeting one of the most impressive events ever held in Maryland with the idea of inspiring all Maryland women to the necessity of going over the top in the third Liberty Loan.

Presidents of all women's organizations in the state, women Liberty Loan County Chairmen and their assistants, and women Ward Chairmen and their precinct and block leaders of Baltimore City have been invited to subscribe to the luncheon, and at the meeting at which the three noted women will speak.

April 5th will also be known as "Woman's Day" at the "Over There" Liberty Loan Cantonment at the Fifth Regiment Armory which opens on Saturday, March 30. A special program on that afternoon of particular interest to all women will be presented in addition to which all women visitors will view the numerous war exhibits and other attractions which feature this colossal production. Following the patriotic rally at the Hotel Emerson, the women will be taken to the Armory to the "Over There" Cantonment.

The active co-operation of every woman in the state is urged for the approaching Liberty Loan and all county women are cordially invited to the meeting.

"THE DEVIL STONE"

The release by Artcraft of "The Devil Stone," coming to the Opera Tuesday, marks the sixth Geraldine Farrar production filmed at the studios of the Lasky company since the famous prima donna first entered the field of the photoplay, two years ago.

It is interesting to note that all of the Farrar productions have been created by practically the same working organization, including the director, Cecil B. DeMille, who has been responsible for the staging of the entire series of remarkable features, and Jeanie MacPherson, who wrote the scenarios for the six photoplays.

The selection of appropriate vehicles for the noted star has been a serious problem, but the great success of the Farrar films bespeaks well of the judgment of the producers, who have based the stories on big themes, the more recent of which, "The Woman God Forgot" and Joan the Woman," created the new epoch in cinema art.

"The Devil Stone" is a story of weird fascination which presents Miss Farrar in modern role, based upon the big theme of Superstition, brought down from ancient folk lore and influencing the events in the life of a modern woman.

The same supporting cast which has appeared to excellent advantage in previous films is seen in this latest photoplay, including Wallace Reid, Robert Bosworth, James Neill, Horace B. Carpenter, Tully Marshall, Raymond Hatton and Theodore Roberts. To Alvin Wychoff, chief of the camera staff, who has been responsible for the splendid photography of Lasky pictures, is due the credit for the exquisite effects in "The Devil Stone," and the splendid ocean views of the fisheries of Brittany.

The present war has brought forth a new kind of ammunition for airplane use in the form of special cartridges containing bullets for armor-piercing, tracing, and incendiary purposes. All of these cartridges are of the small rifle calibers, according to a statement authorized by the War Department. The three-tenths of an inch diameter and short length of the bullet left little space for the armor-piercing element or tracer and incendiary composition has been made. The bullets developed by the United States Ordnance Dept. have been tested on land and from airplanes to see if there is any difference in their performance when fired from a quickly moving airplane in the upper atmosphere and when fired on land. These tests indicate that the United States has developed a class of special cartridges with a performance fully equal to or surpassing that attained abroad.

IN MEMORIAM

Shipley—In loving remembrance of my dear parents, Cornelius and Lucilda S. Shipley, who departed this life four and eight years ago.

Why should we weep for those who die?
They fall; their dust returns to dust;
Their souls shall live eternally
Within the mansion of the just.

The soul, the eternal soul must reign,
In worlds devoid of pain and strife;
Then why should mortal man complain
Of death, which leads to happier life?

By their daughter, Eleanor.
