Men In Training Camps Have Equipment For Many Sports

At every training camp in the country plans of the Commission on Training Camp Activities have been carried out to provide athletic facilities for the men. Baseball heads the list in popularity, and full equipment has been placed in the camps. More than 70,000 baseballs and 3,000 bats have been sent. At Camp Lewis, Washington, there are 16 baseball fields in use. Practically every company in each camp division throughout the country has its team, and there are company, battalion, regimental, and interregimental leagues.

Every form of track athletics occupies the attention of men training at the camps. As many as 800 men have taken part in divisional contests, and track meets have been witnessed by more than 20,000 spectators.

Where facilities permit, instruction in swimming is given. Men are first given land instruction and then sent into the water. Tennis courts have been built in every camp, one having 40 courts, and the sport is rapidly gaining inpopularity. Through the generosity of golf clubs located near the camps, the demand for golf coures is partly being met. Polo matches are frequently held, and competition for places on the teams is keen.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Finger Prints To Be Taken In Registration Of German Alien Females

The registration of German alien females, to begin Monday, June 17 and end Wednesday, June 26, will be conducted in cities or municipalities having 5,000 population or over by the police officials. In communities having a population of less than 5,000 the registration will be handled by postmasters.

In general the plan of registration is the same as that followed in the registration in February of German alien males. Each person who must register will be required to register her finger prints. This method of indentification is also used in the military and naval services of the United States.

Under a new agreement the Army will handle all mail for the expeditionary forces after it leaves United States ports. The Post Office Department will deliver the mail to military authorities at the port of embarkation in this country and receive it from them at a port in France for dispatch to the United States. The domestic money-order service to the troops will, for the present at least, continue under the direction of the Post Office Department in France.

Production of honey will be greatly increased during 1918 in many localities, according to the Department of Agriculture. The increase in Colorado, it is said, will probably be 100 per cent.

Feelin' Fine!

Makes no diff'runce time o' day,
Here at home or fur away,
If he's sick, or feelin' blue,
If he's cold an' hungry, too,
Full o' gout or roomertiz
Ask Bill Selby how he is,
An' his face will fairly shine,
While he says he's "feelin' fine!"

Ol' Bill Selby's full o' grit,
Though he never brags of it;
Takes things cool as cool kin be;
Has a smile for you an' me.
Never growls about his work,
Never thinks to loaf or shirk,
Never answers with a whine,
Allus says he's "feelin' fine!"

We have seen him hobblin' round,
Nigh bent over to the ground,
Victim of the ager, too,
Workin' for the well-to-do,
Fingers cramped an' cold inside,
But chock-full o' grit an' pride.
Ask him how he is today,
"Feelin' fine," is what he'll say.

Ol' Bill Selby teaches me
What a feller orter be;
'Stid o' grumpin' round like some,
Makin' all the world feel glum,
Nursin, aches we never had,
Makin' ev'rybuddy sad,
We should brace ourselves a bit,
Make a show of havin' grit;
An', like Selby, never whine,
Tell the world we're "feelin' fine!"

—Joe Cone, in Christian Endeavor World.

Camp Jackson, Columbia, S. C.
Dear Miss J.

I hope you don't think I have forgotten you. Much has happened since I last wrote you, I graduated from the school in Anniston in April I went home for a few days, and was called back to Anniston before my furlough was out, and ordered to Camp Jackson, S. C., preparatory in going over sea.

I had a nice time at home and saw Elsie several times.

This is a very nice Camp, but I'd like to be back with my old bunch as they are going over now. We have no idea what minute we will be ordered away as we have to attend another school in France.

I am to go to Columbus, O., next week to bring some recruits back, and hope to have a very nice trip.

This is a holiday for us, and we enjoy them whenever they come. The Y. M. C. A. had a very nice service this morning and I enjoyed it so much.

After an Air Raid

A workman at Kinlockleven, Argyllshire, found a live crab in a pocket of sand at a depth of more than ten feet. On being taken to the police station and shown the "All clear" notice, the cautious crustaean consented to go straight home.—London Punch.

Then It Becomes Clear

"We often wonder," often wonders an exchange, "how some folks make a living until we have a bill against them."—Boston Transcript.

Black—He's a young lawyer and and desperately in love!

White—Yes, he enters an appearance at the girl's home three nights a week, pleads his case, receives an adverse decision and then appeals again!—Puck.

A Boy's Vacation

By Nixon Waterman

Little Tommy Doodle and his mother spent a week
At Gran'pa Doodle's farm, where Tommy tumbled in the creek
And got his lungs so full of wet he couldn't ge his breath
Till pood old Gran'ma Doodle had been frightened 'most to death.

He ate some poison berries that he found along the lane:
It took a doctor half the night to soothe away the pain.
He tried to ride a "kicky" colt—a risky thing to do—
'Twas quite a litle while before they really brought him to.

He stuck a stick into a hive of bees—oh, sorry day!
He couldn't see a thing until the swelling went away.
He teased the goat to see if it was cross as he had heard:
They had to to work with him awhile before he spoke a word.

And then he climed a cherry tree—just like a boy—and fell
And broke his arm, and—sakes alive! you ought'a heard him yell.
His mother took him back to town to get a little rest,
But Tommy says of all his life that week was far the best.

My Kittens

When one wee kitten is in the house,
It's all as quiet as a mouse,
When there are two,
It is not so quiet,
But not enough,
But not enough to call a riot.
When there are three
They make a noise
Most like a school-room full of boys.

Some of the people who spend so much time fretting because our army does not advance on the Germans, are the same ones who allow the allies of the Germans, the insect pests, to eat up our gardens.
