LISTEN TO FACTS
There Is A Difference

There is a difference in people. There is a difference in horses. There is a difference in AUTOMOBILES, even down to the tires, springs and chasis as well as the engine and everything it takes to make an automobile. There is a big difference in a big, flexible Four Cylinder engine and a little, weak four cylinder engine. There is a difference in a big Six Cylinder motor and a little six cylinder motor as well. I will be glad to show and prove these facts to you by giving you a demonstration in the WESTCOTT, HUPMOBILE and DODGE.

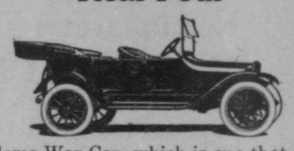

THE WESTCOTT
Real Six

Is a big, running, comfortable car; made quite a hit at the Baltimore Automobile Show and had quite a lot of admirers. It ranks very high among the best cars distributed in Baltimore.

THE HUPMOBILE
Real Four

Has five good points: beauty, comfort, performance, durability and economy, and has made its mark in Carroll County. There are no dissatisfied Hupp owners.

THE DODGE
Real Four

Last, but not least, Uncle Sams War Car, which is one that was picked by the best automobile brains of the country for war purposes. If you want to know the enduraunce of the Dodge, ask the soldier boy who has been "Over There" how the Dodge performed.

Just telephone Westminster 211 or writeor call at the Garage Palace, and it will be a pleasure to me to show and prove to you the difference in automobiles, the same as I have proved it to many others.

The statesmen home from Washington are being informed by their constituents that it is no longer a Congressman's sole duty to rise in his seat and holler "No".

The people who had women and children relatives torpedoed by the German submarines, have not so far got very excited about the German sufferings for lack of food.

SENATORS OVERCOME CENSORSHIP

Washington, Mar. 26—(Special correspondence)—It begins to look as though the hysterical efforts of the President and his lieutenants to prevent all information of the peace conference from reaching the United States, and all American criticisms of himself from reaching Europe, will come to naught. It is an open secret that the speeches made in the Senate during the closing hours of the last Congress, were based not only on material gathered on this side of the water, but on information obtained direct from Paris and London. Through confidential sources Senators have kept in intimate contact with the proceedings at the peace conference, and the statements that they have made have been inspired by knowledge of facts not available to the general public. Although the President refused to appoint a representative of the Senate on his peace commission he has been unable to keep from Senators, by their own correspondents and otherwise, the information that the coordinate treaty making power of the country should possess. As a consequence, the speeches that have been made in opposition to the league should not be considered in any way as based upon prejudice or political expediency, but as coming from men influenced by a knowledge of what has actually taken place at the peace table.

Senators Poindexter, Reed and Borah, through their recently formed organization for the purpose of acquainting the American people with the nature of the league, are going to see to it that the English and French peoples and their representatives at the peace conference are kept informed of the grounds upon which critics of the league in the United States base their contentions. It is understood that a courier service is to be established between this country and Europe, the prime purpose of which is to convey accurate informal on back and forth across the Atlantic. Already the first courier has gone on his journey. The Burleson censorships of the cables and the mails are thus rendered impotent in concealing the facts from both the American and European publics, and a better understanding of the real effect of the league, and the popular attitude toward it on both continents is expected to ensue.

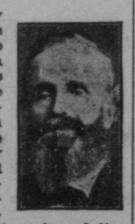

LET THE UNDERSTANDING SPEAK

"The plain people understand it" declared Homer Cummings, Democratic Chairman, speaking of the League of Nations. "Only learned Senators are confused about it." Then if the plain people understand it they should be given an opportunity to pass on it by means of the ballot, and not have it thrust down their throats, At the famous White House dinner, judging from reports, it was apparent that Mr. Wilson himself did not understand the pact he brought back, but possibly Mr. Cummings does not consider Mr. Wilson one of the plain people.

SAVED BY A FAITHFUL WIFE

Suffered Thirty Years With Stomach Trouble and Hemorrhages of the Bowels.

The Story of a Wonderful Recovery

There is hardly any one who does not experience some trouble with the stomach. It is so common that we frequently pay little or no attention to it. Yet, the stomach is very easily upset, and catarrhal inflammation of the mucous lining develops, grows worse—the pain and distress is incessant and the truth dawns that we have chronic stomach trouble.

The case of Mr. Louis Young, 205 Merrimac St., Rochester, N. Y., is typical. He writes: "I suffered for thirty years with chronic bowel trouble, stomach trouble and hemorrhages of the bowels. We bought a bottle of Peruna and I took it faithfully. I began to feel better. My wife persuaded me to continue and I did for some time as directed. Now I am a well man." Mr. Young's experience is not unusual.

If you suffer from catarrh in any form, whether of the head, stomach, bowels or any other part of the body, try Peruna. It may be just what you need. Peruna comes in either liquid or tablet form and is sold everywhere. Your dealer has it or will get it for you. Ask for Dr. Hartman's World-Famous Peruna Tonic and insist upon having it. If you want your health accept nothing else.

All the sick and suffering are invited to write The Peruna Company, Dept. 78, Columbus, Ohio, for Dr. Hartman's Health Book. The book is free and may help you. Ask your dealer for a Peruna Almanac.

The most terrible punishment that could be imposed upon these people that want to overthrow the government would be to set them to work.

METHODISTS UNVEIL FIVE BRONZE TABLETS

Impressive Ceremonies at First M. E. Church, Baltimore.

Plates Are in Memory of Robert Strawbridge, Henry Maynard, John Evans, Richard Owings and Rev. William Watters—Presented by American Methodist Historical Society—Commemorate Lives and Works of Pioneers.

Amid impressive ceremonies five bronze tablets, commemorating the lives and works of five pioneers of American Methodism, were unveiled last Friday night at First Methodist Episcopal Church, Baltimore. The bronzes were presented by the American Methodist Historical Society and were designed by Hans Schuler.

The achievements of the society in preserving places and records dear to the hearts of American Methodism, in erecting memorials and in financing pilgrimages were enumerated by Dr. John F. Goucher, who presided, and who told of the purpose of the society to make of First Church, the successor of the first Methodist Church established in this country, another Westminster.

The first tablet unveiled was in memory of Robert Strawbridge, who was born in Ireland, came to this country in 1760, settling in Sam's Creek, this county, and who was the first preacher of Methodism in America. He died in 1781, three years before the first church was organized. The presentation was made by the Rev. Dr. Frank G. Porter. It was unveiled by Russell Strawbridge, a nephew of the sixth generation.

The other four tablets are grouped to form a cross. They are in memory of Henry Maynard, born in 1763, died in 1839; of John Evans, of Carroll county, born in 1734, died in 1827; of Rev. Richard Owings, who died in 1786, and of Rev. William Watters, born in 1751, died in 1833. Mr. Maynard was baptised by the Rev. Robert Strawbridge and his baptism is the first recorded Methodist baptism in the world. This tablet was presented by the Rev. W. H. Litsinger and was unveiled by Master Henry H. Maynard ,a nephew of the sixth generation. Mr. Evans was the first recorded Methodist convert in America. This tablet was also presented by Rev. Litsinger. It was unveiled by Miss Margaret Evans Gillelan, a great-great-great-great granddaughter, a granddaughter of Mr. George W. Albaugh, of this city, a direct descendant of Mr. Evans. Rev. Owings was the first native American to become a Methodist preacher. This tablet was presented by Rev. John William Smith and was unveiled by Miss Josephine Owings, a great-great-great-granddaughter. Rev. Watters was the first native American to become a traveling Methodist preacher. This tablet was also presented by Rev. Smith. It was unveiled by Master William J. H. Watters, a great-great-great-grandson.

An address of acceptance in behalf of the trustees of First Church was made by John L. Alcock. The address of the evening was made by Rev. Dr. Charles E. Guthrie, secretary of the Epworth League. Dr. Guthrie emphasized the importance of energizing the church. A brone medalion of Rev. Bishop Alpheus Wilson was unveiled at First Church on Monday evening at 8 o'clock. Bishops McDowell and Hendricks took part in the program.

Mrs. Charles E. Goodwin, Mrs. Jos. D. Brooks and Mr. George W. Albaugh, of this city, are direct descendants of John Evans, whose residence near Denning, is still standing and in good repair.

THE PRESIDENT UNCERTAIN

When asked whether a nation that once entered the league of nations could withdraw from it, President Wilson is reported to have replied. "I think so." And that is by no means the only provision of the constitution concerning which there is such indefiniteness and uncertainty that even its proponents can not express themselves with confidence. "I think so", is a poor reply to the most important question that could be asked. The American people want to know.

American business wants the cooperation of the government. The administration wants control of American business. In the meantime, business is waiting.

If trouble breaks out, the place to look for the orators who are threatening armed resistance to the law, will be in bed with the bedclothes pulled over their heads.
