FARMERS BUY UP NITRATE

Large Quantity Released By Government At Low Cost.

Washington, April 18.—More than $1,500,000 will be saved by the farmers this year as a result of the action of the Government in making available at reduced prices large quantities of nitrate for fertilizer. After the armistice was signed the war department released to the Department of Agriculture 111,000 tons of nitrate produced during the war for use in explosives. To this quantity is added 40,000 tons received from Chile by the Agricultural Department too late for distribution last year. Under authority of the Food Control act, the nitrate is to be sold at cost, and already, says a statement today by the department, farmers have taken up the full 151,000 tons in orders ranging from 200 pounds to 300 tons.

CHILD SWALLOWS LIZARD

Three-Year-Old Girl Has Suffered No Ill Effects Yet.

Waynesboro, Pa., April 18.—Nancy Hoover, 3-year-old daughter of Mr. and Mrs. Guy Hoover, of Chambersburg, swallowed a lizard yesterday in the garden of their home.

The reptile was about four inches long and was found by her father, who was digging in the warden. When he returned from the house, where he went to get a spade, he found the child choking on the lizard, which was in her throat. He attempted to pull the reptile out and the tail came off, allowing the lizard to drop down her throat. So far the child has suffered no sericus consequences.

After seeing the welcoming girls in their new spring clothes, many of the returning soldiers will be reported by the matrimonial casualty lists as "Killed in Action".
