The First Bottle of PERUNA

Gave Relief so Writes

Mr. M. VanBuren, Engineer, G. R. & I. Ry., 17 Highland St., Grand Rapids, Mich.

Entirely Free from Catarrh of the Stomach

"Peruna has positively done for me what many doctors failed to do. I have been time and again compelled to take to my bed for days. The first bottle of Peruna gave relief and while I always keep it in the house for emergencies, I consider myself entirely free from catarrh of the stomach, the trouble from which I suffered for so long before taking this remedy."

COMMISSIONERS' NOTICE

Hereafter, and until further notice the ounty Commissioners of Carroll County will meet at their office in Westminster, every Monday and Tuesday of each week for the transaction of business.

By order of MARTIN D. HESS,

The poetic city people who long to get out in the country and enjoy the fragrance of the spring flowers, are much disturbed when they do go out and get principally the scent of phosphate fertilizer.

Some people complain that there is no enthusiasm in the last Liberty Loan drive, but it isn't regarded as necessary to raise anyone's enthusiasm to make him pay his debts.

QUAIL SCARCE IN THE SOUTHWEST

Supply Is Also Short in Mexico for Exportation—Maryland's Quest Falls Flat.

Maryland's effort to replenish its depleted supply of quail, rabbits and pheasants will have to be deferred because of inability to secure the game for propagation throughout the state.

E. Lee Le Compte, state game warden, has returned from an extensive tour, which included visits to Kansas, Texas and Mexico, and which had for its object the gathering of game birds and rabbits for propagation. He had expected to gather thousands of birds; he returned with 343 quail. A three-year drought in Mexico has almost extinguished quail in that country. Mr. Le Compte says the Conservation Commission had contracts with brokers at Kansas City for 500 ringneck pheasants and contracts in Mexico for 20,000 Bob White quail. The brokers reported that because of drouth they would be unable to carry out their contracts placed in November, 1918, for delivery in March, 1919. The commission sent Mr. Le Compte to investigate their reports.

"I left Baltimore March 24 and stopped first at Kansas City. The broker explained the situation and has promised to deliver the pheasants contracted for, if possible, between May 1 and 15. Then I went to Eagle Pass, Texas, and found conditions exactly as the brokers had described. During the season of 1918 there were reported at the port 14,800 quail. The port inspector opened his books to me and they showed that 344 birds had been imported during the season of 1919, and of these only 263 were Bob Whites," said Mr. Le Compte.

"I also visited the port of Laredo and found the same conditions there. I spent three days in Mexico, traveling by automobile and in calling on trappers. Many of them had quit trapping for the season because of the scarcity of quail. On one hacienda, an irrigated property of 225,000 acres, the manager told me that during the season of 1918 there were over 6,900 Bob White quail trapped, as against 103 during the season of 1919.

"The continued drouth for three years throughout Mexico and Southern Texas has not only caused birds to migrate, but has kept them from propagating, and I also feel sure that a great many have died for want of water and vegetation. Citizens maintain that on February 22, 1919 occurred the first rainfall in three years. Since that time there has been a wet season and the vegetation begins to show improvement.

"Our broker with whom we had a contract for cottontail rabbits, stated that because of severe windstorms during the trapping season the rabbits had burrowed into the ground, where they remained, making it impossible for trappers to operate."

Mr. Le Compte addressed the Maryland Game and Protective Association last night in the New Howard House on the results of his trip.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surface of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

WESTMINSTER WITNESSES

The Names of Westminster Persons Familiar To All.

Who are the witnesses?

They are Westminster people—

Residents of Westminster who have had kidney backache, kidney ills, bladder ills; who have used Doan's Kidney Pills. These witnesses endorse Doan's.

One Westminster resident who speaks is C. H. Campbell, 25 Johns St., says: "My back was always weak and tired very quickly. The greatest of my troubles was a dragging ache directly over my kidneys. I was growing more miserable all the time and when I saw Doan's Kidney Pills advertised I got a box at Moore's Drug Store. They strengthened my back and gave me immediate relief." (Statement given November 4, 1907).

On August 9, 1916 Mr. Campbell said: "I cannot praise Doan's Kidney Pills too highly. They gave me permanent benefit and I think a great deal of them. All sufferers of kidney complaint should give Doan's Kidney Pills a trial for they are a wonderful medicine."

WARNS OF GRAIN CONGESTION

Government Urges Preparations For Record Wheat Crop

Washington, April 28.—With a wheat crop of more than 1,000,000,000 bushels in prospect in the United States this season, the greatest crop the country has ever produced, the need for greater efforts by the farmers and elevator companies to market and store this grain with the least possible loss and congestion of traffic is impressed upon those producing and handling grain.

Bureau of Markets of the Department of Agriculture, in a statement made public today, calls attention to this great marketing problem. The department urges that every possible measure be taken to insure the safe storage and handling of the crop. Last year, with a crop of about 900,000,000 bushels, the rushing of the grain to market immediately after harvest caused congestion. The wheat "backed up" after the terminal elevators were full and congestion on the railroads and all country elevators followed.

The result of the congestion was that embargoes were placed on further shipments until the terminals could be cleared. Fortunately the winter just was an open one, or the loss due to the lack of proper storage would have been heavy. The department further calls attention to the situation that prevailed in North Dakota in the winter of 1915-16, following a crop in that State of 150,000,000 bushels. Owing to a congestion of elevators at country stations, due to the inability of the railroads to move the wheat away as fast as the farmers hauled it, platforms were built and hundreds of thousands of bushels of wheat were piled up in the open.

Stacking is a partial solution to the grain congestion problem, which every farmer can apply, says the department's statement. Furthermore, he is likely to be a gainer by the practice, for wheat that sweats in the stack, except during an unusually dry harvest, will be of better quality than if thrashed from the shock. If stacked at once after harvest the farmer may thrash and market his crop at his convenience There is a further advantage, says the Bureau of Markets, that the wheat will not deteriorate from rains as it would in the shock.

206,936 MAJORITY FOR DRYS

Michigan Returns On Wine And Beer Canvassed.

Lansing, Mich., April 28.—Official figures announced today by the Secretary of State's office show that the proposed constitutional amendment to legalize the sale of wine and beer in Michigan was defeated at the election April 7 by a majority of 206,936. The vote for the amendment was 322,119; against, 529,055. Three counties, Wayne (Detroit) and Menominee and Dickinson, in the upper peninsula, returned wet majorities.

A majority of 322,236 was recorded for the constitutional amendment to authorize a State bond issue of $50,000,000 for the construction of good roads.

Majorities received by Republican candidates for minor State offices ranged from 280,000 to 295,000.

It is complained that the boys are shooting birds with their air guns, and it is urged that they be required to restrict themselves to target practive on their neighbors' shed windows.

Also industrial harmony very often means that employer and employe have worked up a deal for sticking higher prices on the public.
