Chancellors order for re correction, It appears on the contrary, that he has made out the reconected Certificate with attention to an order given on another Caveat which in no manner related to the order for reconection and in consequence thereof has even made a beginning of Contestable mano different from the beginning mentioned in Calders Certificate of Contestable mano which he was directed to pursue and he has made out Courses different from the Courses in the Certificate which he was directed to reconect without assigning any reasons for so doing, Jesse Jarrells asserts that the difference of Courses arrises from the surveyors pursuing certain Calls in Calders Certificate If that be the case the surveyor ought have certified that the difference arose from pursuing the Calls in Calders Certificate. If also the determination on the Caveat of the Certificate of Belgrade ought to have any influence on the Certificate of Contestable mano Jesse Jarell ought to have applied for a new order of Correction, The Chancellor however can confirm when done that which he might originally have ordered to be done If then the Surveyor will Correct the reconected Certificate of Contestable mano by certifying that he has pursued the Calls of Calders Certificate and that he hath laid down the said tract of Contestable mano as by James Calder certified to be laid down Janry 22d 1789. except that he hath excluded such part thereof as is contained in a tract of Land called Beautiful Plain patented to Samuel Richardson and hath excluded likewise such part as is not Contained in a Certificate called The Hills of Poverty, and will likewise return the Corrected Certificate of Contestable mano which was endorsed to be reconected and will return the reconected Certificate also along with the Corrected Certificate thereof there will be no obstacle arising from the present Caveat of David West to the said Jesse Jarrells obtaining a patent for the land. It is thereupon adjudged and ordered that the surveyor of Harford County return a Corrected Certificate of the reconected Certificate of Contestable mano if he can do so consistantly with truth and the duty of his office agreably to what is herein before suggested and that he return likewise this Certificate along with the Corrected Certificate of Contestable mano

That on the 8th day of May 1797 the said Jarrell returned his said Certificate again corrected in these words to wit.

By

By virtue of Sundry orders of the Chancellor passed in the Land office I Daniel Scott surveyor of Harford County Certify that I have corrected the original Certificate of a tract of land called Contestable mano and that in making the said Correction I have laid down the said Contestable mano as by James Calder certified to be laid down Janry 22nd 1789 except that I have purchased the calls in said Calders Certificate at the end of the first third fifth seventh eleventh twenty first, twenty second and thirty third lines, instead of the following, merely the Courses and distances and except also that I have excluded such part of the said Contestable mano as is contained in a tract of Land Called Beautiful plain patented to Samuel Richardson and have excluded also such parts of said Contestable mano as is not contained in the Certificate called Hills of Poverty and except also that I have made the beginning of the said Contestable Mano to correspond with the Chancellors determination respecting a tract of land called Bellgrade And I hereby Certify that Contestable mano laid down as aforesaid lies in two seperate tracts or parcels which I have distinguished by No. 1 and No 2. bounded as follows to wit, lying in Harford County Beginning for No. 1. at the end of thirty four perches on the first line of a tract called Buchanans Deer Park (supposing the beginning of said Land to be as directed by the Chancellor at a marked Chesnut and Chesnut Stump standing North eighty two degrees East thirteen perches and half a perch from a mile Stone in the Pennsylvania line one Mile eastward from the tent meeting house) and running, thence south forty three degrees West two hundred and fifty five perches South fourteen degrees East one hundred and eighty nine perches South fifty two degrees East twenty perches South eighty six degrees East fifty five perches North seventy four East sixty two perches South sixty two degrees East Eleven perches and half a perch north twenty two degrees East Sixty one perches South fifty five degrees east twenty perches north twenty seven degrees West one hundred and forty one perches South seventy seven degrees East two hundred and ninety six perches and three quarters of a perch north forty eight degrees east twenty perches and a half perch to Stone in a Marsh by the side of the Western prong of a run descending into Deer Creek called the Great Branch the South seventy seven degrees and fifteen minutes East ninety one perches to a Stone in a Marsh North seventy four degrees West one perch and nine tenths of a perch from two bounded White oaks growing from one root on the bank of said Marsh on the
