FLORENCE
OIL COOK STOVES

More Heat

Less Care

EASY to cook with, easy to control, and easy to keep clean—that's the story of the Florence Oil Cook Stove.

Burns kerosene. No wicks, no valves. Cooks, bakes, roasts, and does it evenly and thoroughly. Powerful burners direct the intensely hot blue flame close up under the cooking. The heat is automatically controlled by turning the lever handles.

The Florence Portable Oven has a baker's arch that throws the heat to all parts of the oven. We are always pleased to show you why the use of the Florence Cook Stove and Oven means more heat and less care.
