Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions.

What You Get Is What Counts.

It is very easy to spend money foolishly; spending it sensibly is the rub. Take coal. Many thousands of dollars are consumed in coal that isn't worth the trouble of mining and hauling. That is not our kind. Coal you get here is —Coal. It will burn steadily, conserve its heat, and leave only the white ashes.

18,000 ORPHANS SAVED WHEN SHIP BRINGS IN FOOD

Cablegrams to Near East Relief Disclose Critical Situation Among Starving Armenians.

An epic of American heroism and devotion in saving the lives of 18,000 children at the last moment before all food supplies were exhausted is revealed in a file of cablegrams from Transcaucasia made public by the Near East Relief, the American organization which in the past four years has been the means of saving more than a million lives in the old Ottoman empire.

When the steamer "Quequen," sent from Constantinople by Near East Relief, arrived in the deserted harbor of Batum on April 22, just ten bags of flour remained in that city, while in Alexandropol, Armenia, eighteen thousand orphans and seven American relief workers were on their last day of half-rations, when the first trainload of American flour arrived.

The first news of the desperate situation of the American relief workers and their orphan charges reached the Near East Relief on April 21 in a cable dated April 15, which was the first direct message received from the Americans cut off in the heart of Armenia since mid-February. The dispatch said: "Near East Relief food supplies exhausted. Situation, especially in Armenia, very critical. Send food supplies to Batum immediately," and stated that the new governments of the Transcaucasian States had furnished "satisfactory guarantees making relief operations easier than formerly."

Near East Relief chartered a special steamer, loaded her with flour, rice, beans and milk, and sent her to Batum, in charge of two Americans, Melville Chater, and Charles T. White, of New York City. But before this first shipment reached Batum a new cable from E. A. Yarrow, representing the Near East Relief in Transcaucasia, reported that seventy-five hundred children in American orphanages in Kars had been sent to Alexandropol, making a total of eighteen thousand children at the latter point, probably the largest assemblage of orphans ever known.

Arrives Just in Time

"Immediate transport saved eighteen thousand orphans and seven Americans at Alexandropol, where food arrived same day last half-rations exhausted," the cable reporting the arrival of the American supplies states, prosaically.
