C. & P. To Ask Increase Rentals

The Chesapeake and Potomas Telephone Company has notified the Public Service Commission of Maryland that it intends to file an application with it for an increase in its monthly rentals of phones. As was expected, vigorous protests have been raised by certain citizens, who, perhaps, feel that it is their duty to raise objections to an increase price of any commodity they do not produce, or of any service they do not render.

The application for an increase in rentals is not to be filed until this coming Fall. In the meantime the telephone company will prepare the data upon which it intends to base its claim for a right to the proposed increase.

In as much as the authority to grant an increase in rentals has been lodged in the Public Service Commission by the General Assembly of Maryland, it seems rather unfair to the stockholders of the telephone company, a large number of whom are persons of moderate means residing in Maryland, to prejudge the matter beforehand, and especially to use the columns of the press of the state to vent one's spleen upon the company simply because it is a corporation without first giving the company a chance to state its case.

In recent years nearly all cases of prominence or importance are tried in the columns of the metropolitan press long before the courts have had an opportunity to docket the case, or the plaintiff or defendant to state the complaint or defense. If this method of deciding legal matters is to be pursued what use are courts or public service commissions?

Rules and regulations are necessary and absolutely requisite in all well governed bodies but when the press encourages contempt for the established agencies of government very soon there will be no government.

The telephone company has published its proposed increase in rentals which, if we understand them, will work no hardship on any one. The increases are small indeed compared to the increased amount of service, and when one will take the trouble to compare the increased cost of materials and maintenance during the past few years one is surprised at the small amount of increase asked.

Let us, therefore, withold our criticisms and objections until the company has laid its cards on the table, and in the meantime thank our stars for the advent of the telephone.

WOMAN'S CLUB MEMBERS VISIT HARRISBURG AND HERSHEY

On Tuesday, May 27th, the ladies of the Woman's Club with Mesdames G. W. Albaugh, Sidwell, Doyle, Reifsnider and Miss Clemson, Messrs. J. Pearre Wantz, Frank Mather, Carroll Albaugh and Prof. M. S. H. Unger, as their guests, motored to Harrisburg to see Pennsylvania's magnificent Capitol building. This building is 520 feet long, 254 feet wide and 272 feet high, is one-half mile in circumference and covers two acres of ground. In it there are 475 rooms. The cost of construction, furniture and equipment was $11,033,400.89. In its construction and furnishings there is materiai from every country in the world, and the most famous artists of the world devoted their talents to making it beautiful.

Ex-President Roosevelt, when he dedicated the senate chamber, pronounced it the most beautiful room he ever saw. The paintings in this room are by Miss Oakley. The Supreme Court was in session and the party spent a short time casually listening to the presentation of a case, but carefully looking at the mahogany fittings in the room which are the finest in the entire building.

After just a passing view of this wonderful work of art and architecture, the Capitol building, the party decided to go to Hershey, the home of the famous chocolate candy, and there enjoy a real picnic lunch which had been prepared by the ladies of the club.

While in Hershey, as a courtesy to Mr. Carroll Albaugh, the entire party was personally conducted through the plant which was in full operation. Much of the intricate machinery, by which the candy is made, moulded, stamped and wrapped, was explained which made the tour through much more instructive. When leaving the plant, a large bar of chocolate was presented Mr. Albaugh for each member of the party.

The day was typical of the days during the month of May; rained very hard, but with closed cars, and good roads, no discomfort was experienced, and the day stands out prominently as one of the very enjoyable and profitable ones in the history of the club.

Tuesday Mr. and Mrs. Roy Ebaugh, of Detroit, Michigan, who were visiting their parents, and other relatives in this city and vicinity, left for their home in an automobile. Mr. Ebaugh is the only son of Judge and Mrs. J. Webster Ebaugh, this city, and Mrs. Ebaugh is a daughter of Mr. and Mrs. Jesse Robertson, of Spring Mills, this county.

Robert Holt, aged 26 years, an employee of Messrs. Thomas, Bennett and Hunter, contractors this city, Wednesday evening was killed at Hampstead, this county, while helping to unload a carload of stone. He was in the car and a shifting engine of the W. M. R. R. Co., ran other cars in on the siding with a speed and force sufficient to throw Holt down into the pit of the car in which he was working and fracture his skull. He resided at Lewiston, Frederick county.

A NEW HOOK AND LADDER TRUCK NEEDED VERY MUCH IN WESTMINSTER

The apparatus now used by the Westminster firemen is excellent as far as it goes, but it does not go far enough. Ever since the firemen acquired the new swiftly moving and efficient new trucks it has been apparent to every one that the need of long ladders was imperative.

The old village truck, pulled by hand, has outlived its usefulness, and the new truck ladders are entirely inadequate for a fire in a three-story building. When the village ladder truck was purchased in 1879 few houses in Westminster were over two stories high, but since then many three story buildings, such as The Babylon, The Post Office, The Shriver Apartments, the Firemen's Building, Western Maryland College, and others, have been erected, and should a fire breakout on the top floor of either of them there will be no way to reach the same except by a single stairway, which, in all probability would be impossible.

Realizing the serious situation in the matter of efficient ladder equipment, the firemen, and others, shortly will take proper steps toward collecting a sum of money sufficient to purchase the necessary equipment, and it is hoped that the citizens of this city and of this county will be liberal in their contributions. This week a representative of one of the fire apparatus manufacturers was expected to visit this city to confer with the officers of the Westminster Fire Department in the matter of efficient ladder equipment for the department. Next week a definite statement as to kind of apparatus, and cost of the same will be made known to the public through the columns of the Sentinel.

For the Sentinel.

BASEBALL

At a meeting of the directors of the Westminster Baseball Club, held Monday night, June 2nd, it was very evident from the facts disclosed that Westminster either does not want a ball team this year or the directors are NOT satisfactory to the public.

As a means of ascertaining the sentiment of the people a letter was addressed to all those who contributed last year, with a pledge card enclosed, requesting same to be returned stating the amount they were willing to subscribe.

We received about thirty cards aggregating less than $200.00.

It is evident you do not want a ball team or you have neglected to return your card.

After a general talk about the situation it was decided to make an effort to have some local clubs join in and form a small league, the clubs last year declining to get up teams this year. This should create some interest and enthusiasm and we are now working to that end.

Another meeting of the directors will be held Friday, June 13th, at which meeting a final decision will be made as to having a ball team this year.

Indicate it by signing pledge card and return before, June 13th.

What shall it be; success or failure?

WESTERN MARYLAND COLLEGE

The attention of our readers is directed to the advertisement of Western Maryland College appearing in this issue. This college has made a record for throughness and excellence not surpassed by any in the state. During the past year, it has received the highest rating for colleges by the standardizing agencies, and it is now in every respect a Standard A-1 college. Its beautiful location in the highlands of Maryland, its fine equipment in buildings and grounds, its high-grade faculty, its modern courses of study, make it an attractive place to get an education.

A new dormitory, costing $150,000 and a new athletic field, built at a cost of $50,000 and considered one of the best fields in the eastern part of the United States, are features. The college plant has now a value of $1,500,000 and it is proposed to augment this by at least that much more.

The college offers eight courses leading to the degree of Bachelor of Arts. Courses may be elected which prepare for the schools of law, medicine, and engineering, and which admit to the best professional schools of the United States. A four year course in Home Economics leading to a degree is offered. In addition to the regular courses offered, there are supplementary courses, in Music, Speech and Education. Completion of the last named course secures a certificate of the State Board of Education. A regular unit of the Reserve Officer's Training Corps is established at the college, the Government supplying the Professor of Military Science and Tactics and uniform and equipment.

We commend this institution to our readers who may be considering sending their sons and daughters away to college. The college opens Monday, September 15th, for its fifty-eighth year. Students are advised to register in advance.

Wednesday evening an ardience which filled Centenary M. E. church, this city, heard a spirited debate between Paul P. Kelso, of Ohio, and J. W. Langley, of Chicago, on prohibition, the question being, "Can the law be enforced?"

Mr. and Mrs. David Smith, of Fort Dodge, Iowa, who were visiting Mr. and Mrs. Calvin Starner, W. Main street this city, today will leave for their home., Mrs. Smith is a daughter of Mr. and Mrs. John Burns, and a cousin to Mrs. Starner.

This evening the Alumni Banquet of the Westminster High School will be held at the Westminster Hotel, to be followed by an entertainment in the high school building. Miss Katheryn Grumbine, Kemp Hoff, Charles Foutz, Earl Lippy, and Philip Royer will take parts in the program.
