January 1852
Middle part the wind continued the same
at 6 o'clock p m were obliged to the west
ward Latter part more moderate even
from the southward steering by the
wind on the Lubboard tack heading
W under double reefed topsails
fore sail and main sail employed at
7 3 cleaning old muskets
Latter
10 commences more moderate than friday
Latt left off the winds as from the Southward
Lat 2:00 we are steering by the wind on the
Long the Lubboard tack under all sail heading west
48 41 saw a fin back and porpesses imployed at
a little of every thing which if all
summed up would a mount to more
nothing Middle part calm and a heavy
swell seting us to the Northward Latter part
strong winds from N W steering by the
7 4 wind heading W S W under all sail imployed
Sunday at seting up the bobstays and twisting out the Lubboard forms.
11 commenced the same as the last day ended wind
Latt with strong winds and bad weather furled the
42 36 top gallant sails and singled reefed the top sails
Long and set the top gallant sails over them but
48 38 the wind increased and we had to take
them in saw a sail a head and a whale
of the finbacks Specie Middle part light
winds from west made all sail steering by
the wind to the southward Latter part light
winds from the Northward saw y rambus
lowered for them without success 2 sails
in sight steering the same as we are
7 5 S W by W under all sail
Monday
12 commenced with fine breze from the N E
Latt and steering S W by W under all sail
42 30 the 2 sails still in company with us
Long weather thick and foggy Middle part stro
27 breze from N W west steering S W
by west to W under all sail one of the
sails drowing up to us Latter part the
wind increased to a gale at 10 o'clock p m
we had a small whirlwind strike the
ship but done no damage had a great
deal of rain got no observations

76 January 1852
Monday
13 This day commences with strong winds
Latt from N W which lasted for the first
42 50 24 hours accompanyed with rain and
Long fog and some thunder the air was so thick
55 to see sightning if there was any
from 2 to 4 the wind blowed S S E were obliged to
the westward more moderate set the main
royal saw a ship on our weather bow steer
the same as we are think it the same one
that was a stern last night
Middle part strong breze from S E
course S W by W & W at 10 at the
peeved the top gallant sails to ease the
ship from pitching as we had a
heavy head swell at 1 p m set
them again Latter part strong winds
and heavy squalls from the westward
steering by the wind heading W
N W and N W saw finbacks and
porpesses the sail we saw the first
part of the day in sight a head
imployed at grinding boats craft
turned up one of the new boats
to fit for the bow drains the leak
in the ship seems to increase we
|||||||| have had but 400 strokes per 24
|||||||| hours untill the last we had 600
|||||||| it may be caused by carrying a
77 heavy press of canvass
Tuesday
14 strong winds from the westward tacked
Latt to the southward furled the top gallant
Long sails and reefed mizen topsail
weather cold and rainy saw finbacks
5:19 which are of but little profeit to us
we are now when this ship had the good
fortun to get 300 barrels of sperm
oil voyage before last and why
cannot we have the same luck
Middle part blowing heavy from S W
laying by the wind under doubbled
reefed main topsail reefed fore sail
and spencers tore the gibs to ring
to haul it down in a squall
Latter part from 5 to 8 moderate set
the main sail and doubbled reefed top
sails unbent the gibs and bent a new
