John Bulls Epistle
To my Lord of Essex

Why Caly Strong my Jo Cale
What have you been about
You lazely have me
I've fairly found you out

You've proved yourself a trator
You've lied to me you know
You are an arrant Coward too
O Caly Strong my Jo

Great Caly Strong my Jo Cale
Before the war began
A thousand times you promised me
That you would be my man

That you'd divide the union
You wold ~~divide~~ Split it all to blow
The northern half you'd give to me
Dear Caly Strong my Jo

Great Caly Strong my Jo Cale
to you we've Henry Sent
To aid you and your Colleagues
Some project to invent

To put your rulers down Cale
Your Congress overthrow.
You plans I - but feard to Execute
O Caly Strong my Jo

Great caly Strong my Jo cale
To you was Henry sent
To aid you and your colleagues
Some project to invent

Great caly Strong my Jo caly
O length & Far begun
Then you prick'd up your Ears Sir
And all you dard you've done

You did withhold your troops Sir
Refused to let them go
When Madison call'd load for them
Friend Caly Strong my Jo

Great Caly Strong my Jo Caly
Your striving to prevent
the Enlisting of your Subjects
To aid your government

Your feeding of my carnier
With mutton Beef and So
You have received my thanks for
Good Caly Strong my Jo

Great Caly Strong my Jo Cale
When our Convention met
In hartford famous City
To over turn the State
