June 1871

Monday 19th This morn lowered five boats. & went mile
Feb 5 Lat Long Mr Brightman & Silva chasing whales
Mr Brightman fastened to one but lost it
Wanted Bark Morris Reed 15 Bbls. one went to the Boats but the whale dove
Lite about ½ past two, then steer back
on shore. here just anchored again the
whale is a small one, have got it cut in
the Globe boats have got two small ones
today Capt Snell, son & long Jack and Spike
viz. he has taken nothing more and is
feeling quite badly. The Starlight Boats
have been chasing whales but taken none
also the David but without success. Have
been working on Geo's Slippers.

Tues 20th Lowered two boats this morn. have been chasing
whales but did not get any. the Globe Boats
today interfered with ours and chased the
whale our boats had been chasing for several
hours before they lowered their. hence has the
Street our boats did not have their colors set.
42 Bbls. Globe has come down near us and anchored
26 Galls. have finished the flowers on Geo's slippers.
they are now ready to be filled in. I have
also prepared two brass stem frames, for keeping
shall map. them in the morn. Geo with his
Boats crew have stowed down the remainder
of Oil, 92 Bbls, 26 galls. here have 105 Bbls.
besides the small whale the waist boat got
yesterday.

Wednes 21st All our boats have been down today but
have been nothing. I have mended two brass
stem frames, and made one my black hat.
Have caught several fish. Lettie is feeling the
most of the time. has caught quite a lot.

June 22. This morn built two beck tables for Geo.
this afternoon, have been trying to fix my
Organ have not finished, but hope tomorrow
to get it in good order. the five Boats
have been down today chased two whales
this afternoon after the Lucinius got them
up but could not get to them the

June 1871

Capt of Lucinius struck a whale but lost it
and got his boat turned over. lost to
tubs of Lard, he on the wind, the
Globe & Mr Long struck a Finback. a
fan thus Kelly got his hand hurt badly
the iron drew out they have taken nothing
yet this season. Long & Kinney passed this
morn, bound to Ambrizette.

Friday 23rd This morn lowered five Boats, and soon
after heard the bomb of Boats are chasing
Gee went to Mackdeal, and in a short time
saw Mr Holmes fastened to a large whale, and
soon saw the boat was stove. the Waist
Boat with the Starboard and part of the Bow
& Waist crew came to the ship. the Boat
was badly injured but none of the crew
were hurt in the least. they saved everything
Gee with the Shipkeepers, got down a boat
from the house launched it and sent it
with Cooper, Cook and two men to help
row the Stove Boat. Mr Holmes took
the Starboard Boat with Mr Brightman
for Boatsteerer and with the Bow Boat
went after the whale, again the Bow Boat
fastened and the Iron drew then the Starboard
Boat fastened, and killed the whale, it took
parting first lines, so there is but one left,
and Mr Liston is anchored beside it in
the morn the other boats are going to
Mr to try to get more irons in and
mise it if possible it is very large, and
they think it will make seventy Bbls and
we have it all. The Starlight has taken
two today, and is now anchored near
us. I spent the forenoon trying to get my
Organ in order and at last succeeded to
it works very well. This afternoon have
been working on a Toilet Cushion, similar
to the Slippers I have been making for Geo

Lieutenant Boat, Stove Boat, Hung Back, Lost a Boat fastened in about 80 fathoms
Capt of it. Lowered Boats about 20 Bbls.
