Honolulu Nov 9. 1858.

When I employed to day in braking out oil, with the help of ten or twelve men the the 10 and 11 employed the same

Sat this morning commenced to leave the wood up from the lower hold at 9 P.M. the harbor master came off and hawled the ship up and moored her carring the best bower out astern. did not get time to day to go ashore after our dinner but eat hearty at supper time.

Sun 14 this day commenced with a summer like day. attended the meeting to day at evening the Chaplain of the English man war preached at the bethel I enjoyed myself the best to day at the Hospitle. and then I heard a Female voice in prayer. it being very smooth & since I last heard ~~an~~ a Female voice in prayer

Mon 15 this morning went ashore got a scow and cared barrels of sperm oil on board of the Francis Parmer bound to San Francisco employed ~~to~~ the latter part of the day in clearing out the main hold and carring the chills off on the reef. this evening William R Bowen spent the evening with me on board the old ship Sharon

Tues 16 th this day commenced with a summer like day. employed to day in clearing out the main hatch and other work. We 17 th this day have been employed in ~~f~~ stowing down the g

Remarks on board of the

round bar. and braking out shooks. have white man and several kanakers health employed to day in stowing down a few empty casks and and healing ship for the men that is putting on per. and the latter part in filling the round bar with salt water. on the we filled about 50 barrels of water on the ater in order to bring her down by the ern. at 5 P.M. on the 18 we let it run t. Th 19 th employed to day in filling ll water and stowing the long shooks in ~~fore~~ forward. at one went ashore d saw Mr Butt. and had a chat with him. Sat 20 th employed to day braking out the after hold all the ief and wrigging around the casks and found out what they contained. and had to use the club hammer at night Sun I stept ashore with William R Bowen and laid with him until he roaded and completly out of the head. and then had to float into another bed this being the second night that I have stept away from the ship unless on ship duty

Sun 21 st this day commences very pleasent and continued so throughout the day. attended service three times to day and the Sabath school. on the whole I enjoyed myself very much it has been on my mind of late

Mon 22 employed the fore part of this day in stow down the things in the after hold such as beef wrigging and tarpaulins employed the after part in braking out the
