Mary A.

Excuse so much bore so much obliged for you nothing in my album you wanted to know if it would do me any good, yes. It will.

Yours

Written with "Kathleen"

If you & truly

July 25th

If you don't believe

Respect

High Bluff is a rock of

~~Europe of Russia.~~

~~1. The whole of the south eastern part of the continent is in possession of France~~

~~Africa of Russia.~~

France.

This region consists of the central plateau bounded on the east by the Cevennes mts with the Rhone & Saone rivers at the base the Atlantic on the west & the mountainous lands are rich in minerals its plains are generally fertile. All the southern half of France is warm enough for the growth of ~~plants~~ olive & Mulberry the remainder for grain & flax & pasturage. It is thus fitted for every variety of occupation & the abundant agricultural products are flax & grapes for wine more wine is produced here than in any other country. The Mulberry is cultivated & an immense number of silk worms are raised. The olive oil making is the best in the world. In the south the best not for sugar making In the north the minerals are iron coal lead & copper. The manufactures are very extensive & includes almost every variety of articles In the north the principal products are laces woolen goods & beet root sugar in the middle woolen & cotton goods & cutlery in the south silks of every kind great variety & fineness
