February 1835 Passed the West End Island

Saturday 6th Commences with Moderate W.S.W. winds and
Lat 28-38 Steering N.W. West and Light showers of rain and at
Log 63-08 2 P.M. hove to sail the Long Boom Latter fast
the wind at East & N.E. the Long Boom Latter fast
William & Olive Left her for our port to E.S.E.

Sunday 7th Commences with Moderate winds from S.E.
Lat 27-58 Steering N.B. West under all sail for the
Log 64-00 American Coast we have been 4 months on our
passage from Tahiti to this Latitude Latter fast
a fine Breeze from E.S.E. Steering N.N.W. West to E.S.

Monday 8th Commences with a fine Breeze from S.E. Steering
Lat 28-00 W.N.W. West with Studding sails out and royal and
at 4 P.M. the weather Begins to grow hazy and at
Log 64-50 5 P.M. it Began to Blow from S.E. and N.N.W.
West and Caught us Between 2 gales and a squall
of rain and we Began to take in Canvas and
in 15 minutes we were under 3 Close reef
topsails in a Moderate gale from N.N.W. West
Dead ahead this is Bermuda in the midst of
our Confusion and trouble and our Conical Spin
d Mizzen mast bagged about to Ships Length behind
of the Ships midship if it had struck here we Pantt
would have attended with serious consequences the
last time out for us to Carve of the yards
and one or 2 did Leave the topsails Slamming
go down on Deck but we got unfurled Braces and
the wind fitted at N.N.W. West through the night
and we Laid under Short sail Latter the Land

Lat 28-30 Bermuda
Long 64-31 W. Lat 32-18 N.
Log 66-04 Bermuda

Tuesday 9th Commences with Moderate winds from N.E. to E.N.E.
Lat 28-50 and made not much headway Latter fast the land
Log 66-08 and got out the Stbd anchor to Ends this Day

Wednesday 10th Commences with Light winds from E.N.E. steering
Lat 29-04 N.B. West and the wind Just begins to feel Cool
Log 66-45 Middle fast Calm and at 6 P.M. a Light Breeze sprung
up at S.W. and got out Studding Sails and at 8 P.M.
a Squall struck her that Brought us down to Close
reef topsails in 10 minutes and a neat Jacket Bermuda
So Ends this Day

Thursday 11th Commences with Strong winds from W.S.W. Steering
Lat 30-02 by the wind at 6 A.M. and in the morning Saw a Brig
Log 66-00 Steering S.W. with Bright varnished Waist and
no Lat & about 4 P.M. a Light and Lost Down our Stayse
Topsail out Yards and Mast Heads

February 1835 Passed the Bermudas Island

Friday 12th Commences with Moderate winds from N.N.E. steering
Lat 31-42 By the wind at 8 under Moderate sail Middle fast
Log 67-00 Short Squalls one Blows as Cover to Blanket Sheets under
and at 8 P.M. a Light Breeze from E.S.E. and hauled
the topsails round the Cabin port let the topsail sheets
and great yard fore topmast Studding sails fast Middle
top of about Studding and we Liable to be in 5
minutes under Close reef topsails to Ends all well

Saturday 13th Commences with Moderate winds from E. steering
Lat 32-02 N.N.W. West Middle fast the Long Latter fast the wind
Log 69-12 hauled to N.N.E. and steered N.W. West under all sail
with not much to E. we have about weathered the land

Sunday 14th Commences with a fine Breeze from N.N.E. steering N.W. West
Lat 33-00 and passed the Island of Bermuda that Noted Place
for hurricanes and gales and Squalls now for the gulph stream
Log 70-06 and Cape Hatteras the Land of Lumber but little we are
Lat 34-10 Bermuda to Leeward and once more set our fast on
our native soil after treading the heather soil for
the Last 3 years and more yet amusing Sailors and
amusing Lounges and Gambles onboard of the Ship to Ends

Monday 15th Commences with Strong winds from N.E. East
Lat 35-10 with topsails of rain and at 8 P.M. hove to sails
Log 73-26 of the weather quarter steering S.W. West and at 4
P.M. we Lett down the fore topsail mast and
remove the rigging Latter fast Bent the hemp
Cable to Ends this Day Ends

Tuesday 16th Commences with Moderate winds from East and made
Lat 27-19 all sail and steered S.W. for the gulph but I hope
Log 79-00 we shall have fetch the Coast of America Ends
for we more 6 hours heading the stemp which is 15
minutes worth but that is a fair specimen of the
rough and Gambles Middle fast found the water
very warm we Entered the Gulph stream fast of the
Gulph the first fast and found a heavy Swell
rolling from N.E. which makes the Ship
roll and Labor very much not bearing strong
winds to stephen to the swell we have Light airs
with rain so far Middle and Latter fast the
same and have nothing except a heavy Swell but
we have got Clear of the gulph and Halow
so we take nothing to Land but the star Coast

Lifting Hands
off the Coast of America
