## *Woodwork of Authentic Design*

OF course, you want the woodwork in your home to harmonize with its general architectural style.

And, now, you can get such woodwork without made-to-order expense. The entrance illustrated is an example.

The Curtis line of doors, windows, trim, mouldings and cabinetwork was designed by architects of standing to meet the requirements of every type of home. Curtis designs are correct—and will be always in good taste.

Come in and examine the Curtis items in our stock. And note for yourself the many points of superiority in the materials and construction of Curtis Woodwork.

You'll probably be pleasantly surprised, too, when you learn how little it costs—less, in the end, than ordinary millwork.

Ask us for the beautifully illustrated forty page book, "Curtis Woodwork". It will be of help if you plan to build or remodel, because of its many ideas.

1866 CURTIS

*See that the woodwork you buy bears this trademark—the Curtis guarantee of quality*

"I WON'T LOSE IT"

This phrase is spoken by every one over and over again.

As a boy, he says it to his mother as she starts him off to the store with a piece of silver for a loaf of bread.

As a youth, he makes this statement to his father, when he has persuaded Dad to back his first business venture.

As a man, he says it to himself whenever he puts his hand in his pocket and the feel of a roll of bills suggests that he give them better protection.

The amount of money lost annually by pilferage, carelessness or misplacement is so great as to be incalculable.

Open a checking account and pay all of your bills by check.

When travelling at home or abroad, let us furnish you with the added protection of American Express Travelers Cheques.
