CUT WORMS DO GREAT DAMAGE

Spring plowing of sod ground spells cutworms if the reports of damages done are true. Tomato plants that are now being transplanted to the fields are being cut off about as fast as they are set out.

The cut worms were hatched from eggs laid by moths on grasses and weeds early last fall. They fed on grass roots until winter, then hibernated until this spring. The plowing this spring cut off their food supply, so corn and transplanted crops are attacked by the hungry caterpillars.

Poisoned bran mash is the best thing to destroy them. This is made by mixing one pound of Paris green with 52 pounds of bran. This is made into a stiff mash by moistening with two quarts of feeding molasses that has been mixed with a gallon of water. The mash should not be thin or watery so that it will cake when exposed. It should be applied broadcast a few days before the plants are set or a few days after the seed is planted. It may be applied by hand, placing a tablespoon near each plant. The mash should be distributed late in the afternoon, so that it will still be moist when the worms feed at dusk. Poultry should be kept from fields so treated.

THE ROTARY NEWS

The Rotary Club met at the Hotel Westminster Wednesday evening and promptly at 6:30 P. M. we were ushered into the dining room and we assure you justice was done a sumptious spring chicken dinner. President Pearre presided and like the saying of old "He improves with age." The birthday of two of our members was fittingly observed. "Pete" Gehr celebrated his 73rd mile stone on May 21st, and "Punk" Billingslea his 79th on May 23. May you young men enjoy many more such occasions. Upon motion of W. Frank Thomas the Boys' Work committee was instructed to take up the question of a play ground for the boys and girls of Westminster. This is a very worthy as well a needy proposition and the citizens of Westminster should get back of it 100 per cent.

The "Big Feature" of the evening was the beautiful selections sung by Miss Caroline Wantz and Miss Charlotte Zepp with Mrs. Noah Schaeffer at the piano. Only after response with several encores were they permitted to enjoy their strawberry short cake in peace. Immediately following the dinner a special meeting of the Boys' Work committee was called by the chairman Howard Koontz. All members of the Rotary Club were most urgently requested to attend the Memorial services to be held on Sunday next, May 29.

SANDYVILLE

Sunday school this Sunday morning at Sandy Mount at 9:30; preaching at 10:45. Memorial services will be held in the cemetery at 7:00 o'clock. Members and friends are invited to attend this service. Christian Endeavor at 8:00 o'clock.

WESTERN MARYLAND COLLEGE

The attention of our readers is directed to the advertisement of Western Maryland College appearing in this issue. The college has made a record for thoroughness and excellence not surpassed by any in the state. It holds the highest rating for colleges by the standardizing agencies, being in every respect a Standard A-1 college. Its beautiful location in the highlands of Maryland, its fine equipment in buildings and grounds, its high-grade faculty, its modern courses of study, make it an attractive place to get a higher education.

A new dormitory for women, costing $150,000 and a new athletic field, built at a cost of $50,000 and considered one of the best fields in the eastern part of the United States, are features.

The college offers a wide election in courses leading to the degree of Bachelor of Arts. Courses may be elected which prepare for the schools of law, medicine, and engineering, and which admit to the best professional schools. A four year course in Home Economics leading to a degree is offered. Students may also elect a course in education, the completion of which secures a certificate of the State Board of Education enabling the holder to teach in the high schools of this and other states. In addition to the regular courses offered, there are supplementary courses in Music and Speech. A regular unit of the Reserve Officer's Training Corps is established at the college, the Government supplying the teachers of Military Science and Tactics and uniforms and equipment. During the year just ended Western Maryland ranked high among the schools of the Corps Area in this department.

The college has recently been honored by the General Education Board (the Rockefeller Foundation). That body, after making a careful and comprehensive survey, gave the college a high rating and made an appropriation of $125,000 to the Endowment Fund.

We commend Western Maryland College to our readers who may be considering sending their sons and daughters away to college. The college opens Tuesday, September 13th, for its 60th year. Students are advised to register in advance.

ADDITIONAL LOCALS

Mr. William H. Myers has returned to his home on Liberty street after being a patient in the Frederick City hospital.

Miss Ruth Benson, Fair Ground Hill, entertained at bridge on Saturday afternoon in honor of Miss Caroline Foutz.

Is Your Farm Modern?

Efficient farming demands modern methods and equipment. Buildings, as well as implements, should be of the up-to-date type if your farm is to produce satisfying profits.

Go over your property with a critical eye. Does the barn need replacing or repairing? Have you a machine shed, a corn-crib, a well arranged hog-house? Do you need a feeding floor or a concrete watering trough?

These and many other improvements are fully described in a book called "Concrete on the Farm." We have a copy for you. Be sure to call for it when you are next in town.
