had too many dependents to come for when they were needed.

My orderly from the battery is here with me. I sent back to Luxembourg for him today. He begged me to send for him. He came this P.M. and I saw him parading down the street a minute ago with a little blond fraulein like he owned the City of Cook.

He brought my baggage down in the auto. and he is billeted in my room so I won't feel so lonesome here after all. He is an Austrian and lives in Georgia. He has a Mechantile business there with 200,000 stock and 755 acres of cotton land.
