does not mind me, and is not obedient in the least degree - when it conflicts with her own pleasure. I have had a great many callers this week - among them Mrs Livingston, who knows Lizzie so well - Also saw Mrs Favor on the street, and talked with her sometime about Lizzie & family - I can see my lines - it is so dark. About 30 young ladies & gentlemen came here last night, and held "a soviable" - Nothing to eat or drink - just talking, and a little dancing - very few of the boys or girls know how to dance. Many of the girls played on Diana. Fannie Joe said She was going to Papa's house today, and would'nt stay here no more - She took hold of my hand & made me feel my bonnet & hers - but I told her Papa was in town & we have to leave him behind - So she said, "wait till he comes Monday, and then we will go dis morning" I have rheumatism in my left arm & shoulder all night it is very painful and I sometimes get up to rub it in the night. I hope You will go to Ga - and tell my Dear Son my love to him &
