is just getting over the grippe & I
expect Lettie is taking it - you know
how it does. We had a bad trip home
but no trouble, I never saw it rain
harder - We got in about 8.30 &
the others came in at Ten - The
ladies were about to kill Larry for
the way he drove - The traffic in
to Washington was bad & he drove
so recklessly scared them all
nearly to death - he said he was
a terribly henpecked man - Sitty
was mad; but alls well that ends
well so thats that. We are thinking
about you & living for all we can
and want you to get well & come
home - I feel so thankful you are
safe & miss you more than
I can say - Anything you want tell Turner
she will get in touch with us, Sincerely
Mary -
