me two nights - She is a good
nurse & as willing as good
to help about any thing.
I am glad to say the Boy
is much better and is
I think improving all the
time but this breathing
so bad on Chas. It is
raining fast & is cold
too. Joe is in Carroll
to-day - was obliged to be
there to meet a business
engagement. I have to
do some writing for him
and must close -
With love for your dearself
and all - I must say
you have had neuralgia.
and hope you will soon
be well. Good by your child
Fanni
