If you have any cattle for sale drop me a post card and I will call.

I pay the highest cash price for calves.

CHARLES E. OWINGS

DEALER IN
ALL KINDS OF LIVE STOCK
WESTMINSTER, MARYLAND. Day Phone 73-R. Night Phone 55-R.

MOTHERS and FATHERS

It's up to you to open an account for every one of your youngsters and see that they add to it each week or month—this will foster in them the habit of saving and a plan for the needs of early manhood or womanhood.

THEN the stiffening of the moral backbone and the development of the judgment are sure to come with the practice of thrift.

SAVING MONEY strengthens character through the lessons of SELF-DENIAL; SELF-CONTROL.

THIS BANK IS ALWAYS PLEASED TO HAVE THE YOUNG FOLKS' ACCOUNTS.

PICTORIAL LIFE OF HERBERT HOOVER

No. 1 By Satterfield

1. Herbert Hoover's ancestors, of Quaker faith, came to America from France and Holland.

2. They became settlers first on farms in Maryland, thence moving to North Carolina and Ohio.

3. In 1853 the Hoovers migrated to Iowa, where they and their neighbors founded the town of West Branch.

4. Before clearing the land for their farms, these Quaker pioneers built a Meeting House.

Much of the energy that used to go into pushing baby carriages, is now devoted to stepping on the gas.

MANY INDUSTRIES FACE DUST EXPLOSION HAZARD

Studies of the hazards of dust explosions in several branches of manufacturing have been added by the United States Department of Agriculture to the program of research into the causes and control of dust explosions which at first included mainly the grain milling and handling industry.

David J. Price, engineer in charge, and his associates in the Bureau of Chemistry and Soils have devised methods to decrease the dangers. Explosions of dust in mills and elevators are well recognized as sources of danger and loss. The research chemists have found that dust explosions in other industries also call for special safety studies. They have records of nearly 400 similar accidents in 15 industries other than milling and grain handling in which many lives were lost and much valuable property damaged.

Most industries which create dust from materials which can be burned may suffer from dust explosions. There are cases in which explosions have been attributed to other causes which were in reality dust explosions. Among the industries in which this danger exists are the painting of automobile bodies, sulphur crushing, rubber salvage, starch manufacture, sugar refining, woodworking, cork pulverizing, metallic dust manufacture, fertilizer preparation and mixing, spice grinding, pitch pulverizing, rosin handling, milk drying, chocolate and cocoa preparation, celluloid making, and textile weaving.

In a spice plant, for example, in which spices are being ground to powder in mills adapted for that purpose, a flinty pebble may catch in the steel rolls, cause a spark that ignites the spice dust, and cause an explosion that may wreck the machine, or even the mill, and kill or injure employees. Other causes of ignition reported are static electricity, overheated bearings, vapor arcs, overheating of drying apparatus, open-flame lamps, the sparking of a motor in an exhaust fan, the breaking of an electric light bulb, and other electrical sources.

In starch-working plants alone 16 explosions have been reported with a loss of life amounting to 115 persons and 91 injured.

The American people can't seem to remember to vote, but they never forget it if someone owes them a dollar.

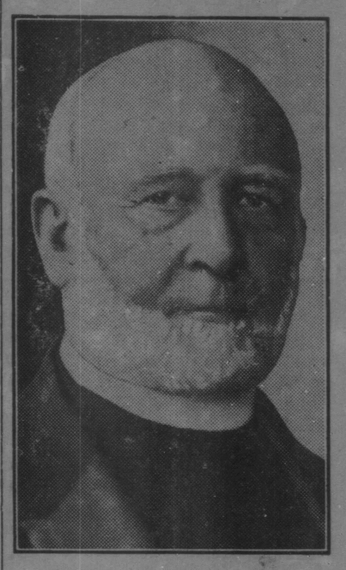

DEFENDS MUSICIANS

AMELITA GALLI-CURCI

THE famed soprano is at the head of a committee of musical artists which is backing the Hoover candidacy. "There is a belief," she says, "that musicians are not practical. This is untrue, for if they were not practical they could not reach the hearts of the people. Therefore their support is important."

SENIOR BISHOP

REV. JOSEPH BERRY

THE senior Bishop of the Methodist church, who has been called the "Grand Old Man of Methodism," has announced himself for the Hoover candidacy. "He is the strongest man," says Bishop Berry.

ROAD TO UNITY

RETURNING from a vacation in Bermuda, Chairman George K. Morris of the Republican New York State committee announced that he saw no crystallization of sentiment in New York State except for Hoover. This statement would seem to pave the way to unity in the Republican party in New York, since Mr. Morris hitherto held firm for drafting Coolidge.

LEADS WOMEN

DR. AMELIA R. KELLER

She has been named Indiana woman manager for the Hoover campaign.
