Miss Anna M. Munday
Cambridge

My Dear Sister

Oxford Friday Sept. 4th 1801

I received your kind and affectionate letter dated the 7th of August which gave me much pleasure, and have postponed writing on account of not having a private opportunity, but Mr. Hunt intends going down to the general Court next week and that I can't let go without writing — I don't know what to make of your dream, but I should think myself very unfortunate to be obliged to ask parental consent, at so early an age, it will be time enough to think of marrying this 4 years to come — At last I have the pleasure of telling you hence that I have finished my Education, and am ready to go into a counting House for that is the profession I mean to pursue if agree
