My most intimate acquaintances, and the fair stranger, who in the course of the day, got very well acquainted with me, and am happy to say that in my opinion she is a very charming Girl, and hope I shall derive a great deal of pleasure from her acquaintance

I am sorry that all the people went to Baltimore last week as I intended paying them a visit — you must be sure and write me when they are to return, and mention when B. Tropp is coming back, as my visit will be postponed until his returns, as I am most mad to see her — give my love to Maria Thomas and all who inquire after your affect

P.S. I have a most violent cold and pain in my breast which renders it necessary that I should have my shirts —

Brother

A. Heisley
