man I was much attached to him and it would afford me
much pleasure to renew our acquaintance in our years
of maturity - Should you ever meet with him make my
best regards to him - How is he on the present political
contest - I sincerely trust, like an old patriot, true to the
cause of Liberty and correct principles, he is not to be
intrapped by a little Military glory - Make my respects
to him and request him to let me know, if, in our ad-
vanced, as in our younger days, he still thinks alike -

Should he at present be in favour of Jackson, which
I should hope would be impossible, tell him our old friend
will reflect - I have written a very hearty letter, as my f
serve a very hearty letter, as my
ride on to the office in the morning
will take our letter - My best respects to your family
in which Mrs P. begs to unite - Should our fortunes of-
fer, of seeing Daniel Webster, let me know the result of
your interview - - Who is talked of on your shore as
our next Governor - I have always suspected you were
in the main - If so, I do not know, but that I should
like a seat in your council - this tho entirely between
ourselves -

Very sincerely yours

J Tilghman
