than to Baltimore County Court, unless the Judges of Baltimore City Court shall certify that a fair and impartial trial cannot be had in the City of Baltimore.

A message was received from the second branch proposing that when the Councils adjourn this evening, they stand adjourned until Monday next; this branch dissented therefrom, and informed the second branch thereof by message.

Mr. Heyser from the Committee, submitted the following report, which was read a first and by special order the second time, and on motion of Mr. Powel laid on the table and made the order of the day for Thursday next.

The Joint Committee on Fire Companies, to whom was referred the petition of Thomas Morgan, praying permission to change the location of the Kiln for burning Stone ware, from its present site on his lot north east corner of Pitt and Exeter Streets, O. F. to another on same lot, and the petition of Robinson Woollen and others, property holders and residents in the neighbourhood, counter to the petition of the aforesaid Thomas Morgan, report, that the Committee have examined the premises of the petitioner, Thomas Morgan, and the merit of the improvement contained in the prayer, and the influence which the said improvement is calculated to have on the property of others contagious to and binding on the property of the aforesaid Thomas Morgan, and after a full and impartial investigation, the Committee are of the opinion that the prayer of the petitioner if granted, and the Kiln be erected agreeable to the plan submitted by him, and which accompanies the aforesaid petition, that the same will be much less exceptionable than the old Kiln now in use, but as that the proposed new construction is eminently calculated to do away with many of the objections at present justly urged against the one now in use, but as the prayer of the aforesaid Thomas Morgan, is inconsistent with and in direct violation of Ordinance No. 49, Sec. 28, and a counter petition having been received signed by the property holders and residents contagious to, and binding on the lot on which the aforesaid improvement the petitioner prays permission to be made, the Committee therefore respectfully recommend the adoption of the following resolution. All of which is respectfully
