AGAIN AT HOME.

The Hon. Jacob Thompson, of Mississippi, has again returned to his home at Oxford, in that State, after an exile of some four years or more. His coming having been generally known, a large crowd of ladies and gentlemen, with a fine band of music, greeted his arrival. Colonel L. Q. C. Lamar, in behalf of the people, welcomed him back in a speech of great eloquence, which was enthusiastically applauded. Mr. Thompson, in response, after reciting a history of his residence in exile and expressing his pleasure at again meeting old friends, said:

"In the late struggle for self-government we went to sea in a hastily constructed boat, which for four years gallantly bore the buffetings and beatings of the wind and waves, and finally went down amid the breakers, attracting the admiration of the world. We, the passengers, were thrown out into the turbulent waters, and have been gradually picked up and hauled on board the ship Nationality, where we are permitted to breathe and live, but not allowed any lot or employment in sailing the new ship on which we are embarked. Few among us can hold office, a greater number cannot vote.—Possibly this is for the best, and in the end it will prove a great blessing. You are relieved of all responsibility in helping to govern the country. Purer and better and wiser citizens, in their own estimation, at least, will freely undertake to discharge all the onerous duties of office, and relieve you from all its anxieties and perplexities. This state of things, I hope, will result greatly to the advantage of our community, increasing its wealth, happiness and security.

"While I was in Paris an intelligent Frenchman undertook to prove to me that under the French empire the people were the freest, happiest and most prosperous people in the world, secure in all personal rights, in the rights of property, person and reputation, each man allowed to pursue happiness in his own way, and certain of reaping the fruits of his industry. He was debarred from one right only, and that was for his good and welfare. He had no voice in the conduct of public affairs. He could hold no public meetings or criticise the acts of the Emperor or his officials. Hence he was exempt from all care and anxiety on this head, and consequently the Frenchman was a happy man. Why cannot we in the conquered South reason and feel in the same way? Under such circumstances my opinion is that we ought to imitate, as far as practicable, the example of the great King David. When his child was sick nigh unto death, he mourned, fasted, prostrated himself upon the ground and put on sackcloth, but when the child died, he arose, washed himself, put on gay clothing and appeared to his attendants with a cheerful countenance. So, while our contest lasted, we suffered, fasted, prayed, shed our blood and spent our treasure freely. Now, that it is over, let us meet the actualities of life with a brave, cheerful and manly heart, submitting to the inevitable and exerting ourselves with energy to take care of ourselves and families. Owing to the institution of slavery which once obtained among us, our people have been misunderstood and greatly traduced abroad.—Let us, by industry, skill and economy, reap all the advantages which have been placed within our grasp by the bountiful hand of Providence in our prolific soil and genial climate. Let us, by the practice of virtue and sobriety, and all the charities of life, disarm all criticism. Let us maintain a high standard of education and morality for our youth, that they may be fitted for all the duties and responsibilities which may be possibility devolve upon them. Above all, let us struggle with a hearty good will to build up the waste places and secure prosperity and plenty to our people."

THE "PATRIOTS."—A Washington correspondent of the Baltimore *Gazette* thus discourses of the feelings of that array of "trooli loil" patriots which has been in Washington for a couple of months trying to induce President Grant and his Secretaries to believe that in them reside the virtue, intelligence, &c., necessary to fill the offices. Hear what the disappointed say:

"It is amusing to witness the different tunes sung by the office-seekers at their advent, sojourn and exit from the National Metropolis. When they arrive they are brimfull of the vilest abuse of the "traitors," "Rebels" and "Secessionists" of the South, and over-flowing with encomiums upon the rich, black blood of the African race. At the start a negro is held to be little less than an angel, and a Southern white somewhat worse than a devil—anon, as the pleasant business of getting "big places" progresses, these sentiments are gradually modified—and finally, when about to depart, "dejected and forlorn," the change of the key note is wonderful. I accidently encountered a horse-car load of such gentry this morning, on their way to the depot "for *him*." Every man of them professed to have "seen the elephant, and to have become thoroughly "satisfied." They d—d Grant, his Cabinet and Congress in a lump, and without stint; and as for the negro race, bodily and individually, I will not trust myself to repeat their invectives. One of the party, in addition, swore *he had been much deceived as to the Southern people*, by lying politicians and lying newspapers, and his comrades significantly acquiesced! What a set or miserable, selfish knaves."

GOOD TEMPLARS.—Church Hill Lodge has elected the following officers for the present term: W. C. T., Rev. Samuel Gardener; W. V. T., Miss Mollie Mason; W. F. Sec. Miss Annie Burgess; W. R. S., Thomas T. Gawthrope; W. T., William Hurlock; W. C., Benj. E. Cook; W. M., Jas. Johnson; W. I. G., Wm. Deford; W. O. G., Curtis J. Crane.—The lodge has about sixty five members. —*Centreville Observer.*

DESTRUCTION OF WHEAT.—The Wilmington (N. C.) Journal learns that the farmers of Anson county, in that State, have found it necessary to plough up their wheat fields, one of the most disastrous hail storms ever experienced having destroyed the wheat of that section on Wednesday night of last week.

BARLEY is harvested in California about the middle of May. On the 25th ult. corn was ten inches high there.

THE RESTORATION.—Under the recent act of Congress prompted by General Grant's influence, the State of Virginia is about to be restored, in a manner. The election will probably be ordered for some day in the course of the coming month, and, by its close, we may look for a re-establishment in the "Old Dominion," of some kind of tolerable government.—There will probably be but two tickets in the field, the Walker or genteel mongrel, and the Wells or out-and-out curs, like our West Virginia Radicals. The hybrid constitution patched up in Richmond last year by the menagerie of niggers, carpet baggers and scalawags, is to be the proposed character of Virginian liberties. But the intolerable features of Disfranchisement and country organization like ours, will be separately submitted and probably rejected. Nigger suffrage is a *sine-quanon* to the ratification by the devil Congress at Washington. It is believed that the Walker ticket will carry a majority of 60,000. If so, Virginia will be under the rule of men who want to be respectable. Men of wealth, intelligence, decent ambition and fair social standing, will hold the government; men who practically recognize the difference between a gentlemen and a human dog, will regulate society, and a man of honor may live in peace in Virginia. Virginia will then quickly fill up with a thriving and decent population, fit to associate with her honored people, and she will flourish. *The necessities of the government will soon necessitate a fair and kind treatment* and her territory will blossom. Our bastard State will be left for a few years to the scalawags and their kindred, *until Virginia resumes her ancient rights;* then comes the resurrection.—*Union County (West Va.) Register.*

WILLIAM TREGO, *Manufact'g Chemist.*
LAWRENCE SANGSTON, *Pres't.*

This Company, incorporated by the Legislature of Maryland for the Manufacture and Sale of Fertilizers, are now prepared to furnish the agricultural community with their products.

Deriving their supply of material from the richest of the recently discovered deposits of Bone Phosphates in South Carolina, they have established, and will inflexibly maintain, a higher standard of Fertilizing value than any similar productions hitherto in the market.

While the material they use contains 60 per cent. of Bone Phosphate of Lime, it is guaranteed to contain a larger percentage of *Soluble Phosphate* than any heretofore used.

Fine Ground Bone Phosphates,
Price $30 per Ton in Bags.

Containing by the average of the Analysis of Professors Piggot, Leibig and Popleiu, 60.20 per cent. of Bone Phosphate of Lime.

The unusual per centage of *Soluble* Phosphate will make this form very desirable to Farmers who prefer to use it in its natural state, or to manipulate for themselves.

ALKALINE SUPER PHOSPHATE
Price $50 per Ton in Bags.

This Preparation has special reference to the growth and development of the Seed or Grain, and is intended for the soils that produce large crops of Straw, and small crops of Grain.

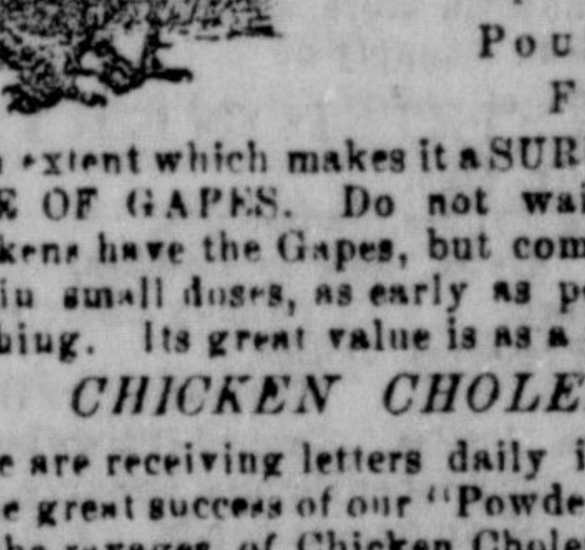

Ammoniated Super Phosphate,
Price $55 per Ton in Bags.

Adapted to Lands that require a full development of the crop, both Straw and Grain.

The superiority of the South Carolina Phosphate is fully demonstrated by the fact that most of the leading Manufacturers of Artificial Fertilizers are now using, or making arrangements to use it, as the Phosphatic base of their Preparations, and large quantities are being shipped to Europe.

The various preparations of the Maryland Fertilizing and Manufacturing Company are made under the personal supervision of a Manufacturing Chemist of thirty Years' experience, and are confidently recommended to the Agricultural Community.

Messrs. O. P. Merryman & Co.,

Gentlemen:—The Raw Bone Phosphate I bought of you last Spring, I applied to Corn by the side of Peruvian Guano in equal quantities, and if there was a difference at all it was in favor of the Phosphate. My Corn crop was excellent. I applied it also upon Oats and Potatoes with the most satisfactory results. I prefer it decidedly to Peruvian Guano from the fact, that whilst the Guano spends itself upon the growing Crop, the effects of the Phosphate can be strongly seen in the crops following. Some that I applied to Potatoes by the side of Fish Manure, made a splendid yield, the Fish turning out an abundant crop of vines, the Phosphate the Potatoes. I have used it this fall upon my Wheat, and at this time it looks as well as I could desire.

GEORGE EDWARDS,

12th Dist., Balto. Co., Nov. 11, 1868.
Messrs. O. P. Merryman & Co.,

Gentlemen:—I applied the Raw Bone Phosphate purchased of you last Spring on my Corn side by side with one of the most popular and expensive Fertilizers in the Market, and I could see no difference; yours was fully equal to it. I also applied it to Turnips with perfect success. It gave such entire satisfaction that I used nothing else upon my Wheat this Fall. I sowed the most of it the latter part of September, and at this time it bids fair to make as good crop as I ever produced by the use of Peruvian or any of the expensive Guanos. I have every confidence in it. It is only to be tried to be appreciated. Yours, Respectfully,

JOHN E. WILLIS.

Anne Arundel Co., Md., Nov. 10th, '68.
Messrs. O. P. Merryman & Co.,

Gentlemen:—In answer to your enquiry as to what I think of your Raw Bone Phosphate purchased in July last, allow me to say—I gave it a fair trial on Cabbage by the side of three other Fertilizers of acknowledged merit and found it equal if not better than the other, and at less cost. I am so well satisfied with it, I intend to use it the coming Spring.

Yours, truly, REZIN HAMMOND.

THE SOMBRERO GUANO, of which MORO PHILIPS' PHOSPHATE is, and always has been manufactured, (and of which he has sole control for the United States,) contains *fifty per cent. more Bone Phosphate than Raw Bone,* therefore it is more durable. A large per cent. is *Soluble,* and will immediately yield its nourishment.

The *Ammonia* it contains is pure and ready to yield its value—*not* animal matter, capable of yielding its ammonia after decomposition in the soil.

Nothing is spared in its manufacture to render it the most valuable Super-Phosphate and Crop Producer in the market.

Eight years' experience has proved to the farmer that it is *durable* and can always be relied on as *uniform in quality;* and the numerous unsolicited testimonials continually received of its use in competition with other Fertilizers, attests that it has not been excelled.

April 17. J. K. ALDRIDGE,

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC,

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys.
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, Stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heart-burn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits. *All these indicate disease of the Liver or Digestive Organs, combined with impure blood.*

Hoofland's German Bitters,

is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

Hoofland's German Tonic

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These Remedies are the best

Blood Purifiers

ever known, and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order; keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no disease will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything you must try these preparations.

FROM HON. GEO. W. WOODWARD,
Chief Justice of the Supreme Court of Pennsylvania.
PHILADELPHIA, March 16, 1867.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action, in the system.

Yours truly,
GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON,
Judge of the Supreme Court of Pennsylvania.
PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,
Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—*I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.*

Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates street.
