The Carmelite Nun at Cracow.

We published last week an article from a Vienna paper, giving a detailed account of the discovery and rescue of a Nun from a Carmelite convent in Cracow. The following is another and quite different view of the affair:

The *Univers* of the 5th instant gives some information received by it from a correspondent who, when an inhabitant of Cracow, had been acquainted with the unfortunate nun, whose case has been turned to such bad account by the enemies of Christianity. It appears that she belongs to an honorable family, and had received an excellent education.—Under the impression that she was called to a religious life, she first intended to enter the Convent of the Visitation.—After several trials, however, she was thought to be mistaken as to her vocation. Her piety was fervent, and, in many respects, she showed great merit; but she was so excessively scrupulous that the Sisters feared she would lose her senses. At a later date she offered herself to the Carmelites, and, by this time, her attacks of scruples had probably become less frequent or more under control, for she was received into their convent.—Her mental infirmities, however, eventually returned and grew worse and worse until scrupulosity ended in absolute madness. There was no other cause whatever for her becoming deranged, and there is not a syllable of truth in the filthy stories invented on this occasion by liberal journalists, who are incapable even of respecting the chaste reputation of a poor mad nun. When a daughter unhappily loses her senses, her family is filled with natural repugnance to send her away to a madhouse. The good Carmelite Sisters of Cracow obeyed the human feeling, and, under the just and good idea that their insane sister would fare better in their hands than under the care of a mad doctor, they kept her in their convent. It was a heavy cross to them, but Carmelites only live to bear the cross. Had they, on the other hand sent her away from them, they would inevitably have been accused of want of sisterly charity. It is asserted that she was ill-treated, and the nuns are accused of endless atrocities towards her. But is there any foundation for these most unlikely stories? What man of sense will believe them on the strength of newspaper paragraphs, picked up no one knows where? These writers first stated that the poor mad woman had lived twenty-one years in a hole so small and so filthy that a strong man would not have existed twenty-one days in it. They have since been compelled to acknowledge that the "filthy hole" is in fact a clean and well-aired room, and, in a word, so unobjectionable a chamber, that the authorities allowed her to remain in it during the thirty-six hours which elapsed between their first visit and her removal.—The same journalists have also admitted that a close examination of the poor nun's body has disclosed no traces of the torture she was at first said to have suffered for twenty one years. But these odious calumnies were invented for the purpose of exciting the people to a riot, and by the help of the Polish Jews they were successful. The Austrian Government is indebted to these worthies for having supplied the long expected pretext for attacking the religious bodies. It has been immediately laid hold of; and on the 29th of July, Dr. Giskra, the Minister of the interior, wrote to the chief of the Administration at Lemburg, to inquire if any motive could be suggested for delaying the withdrawal of the yearly allowance of 1,800 florins which had previously been granted to the convent, and also whether either the Bishop of Cracow (Mgr. Galecki) or the admintstrator thought it desirable that the existence of the convent itself should be prolonged.—The reason given in this letter is simply the excitement occasioned by the Carmelite affair, together with the "revolting facts" of the case:—and this, without any inquiry into the truth of the story and without any opportunity for defence being allowed to the sisters. It appears to the *Univers* in conclusion, that there is not the shadow of proof against the Carmelite Sisters of Cracow, and that they have been made the victims of an abominable combination of intriguing Jews, Protestants and free-thinkers, with the complicity, if not under the direct inspiration, of the Austrian Ministry.

MILK ADULTERATION IN NEW YORK.—According to the forthcoming report of the Board of Health on milk adulteration, the retail dealers are responsible, the wholesale dealers bringing pure milk to market. The tests have been thorough and exhaustive, and have developed the fact (not unsuspected before, but still not officially promulgated,) that more than two-thirds of the milk sold here is diluted. The presence of so much water requires that the milk should be thickened by chalk or other material. A physician who lectured some time ago on infant mortality, attributed three-fourths of the deaths under one year of age to adulterated milk; and now there comes in support of his opinion, the intelligence that of 200 milk dealers the proportion of honest men is only 40—just 20 per cent.—while the milk sold by others ranges from poor and indifferent to positively deleterious. The crime is the more heinous because its effects are chiefly manifested upon infants, among whom there has been a constantly increasing death rate for years past.—*New York Tribune.*

THE NATIONAL CAPITAL.—The St. Louis (Mo.) journals, on sober, second thought, have discovered that their advocacy of the plan of transferring the capital of the United States to that city was injudicious, and the assistance rendered to that project by the Chicago newspapers is considered as influenced by insincere motives. St. Louis has put herself so prominently forward that the jealously of other Western cities has been aroused, and the journals now think that it would have been wiser to have secured first an agitation and a strong public sentiment in favor of removal to some point in the Mississippi Valley, and then to have brought forward the claims of St. Louis. They are so confident that a mistake has been made that they call for an abandonment of the proposed coavention and even hint that the "people of St. Louis are far from being unanimous in support of the project."

AMMONIATED
SOLUBLE PHOSPHATE OF LIME

Containing SIXTY PER CENT. of BONE PHOSPHATES—of which 12 per cent. is immediately SOLUBLE in WATER—3 per cent. of Ammonia, 3 per cent. of Potash, Sulphuric Acid, Mannesia, &c., &c.

Furnishing the essential elements of WHEAT, CORN, TOBACCO, COTTON, and of all Cereals which are removed from the soil in every crop.

To Agriculturists.

An extensive experience of twenty years, as importers and dealers in GUANO and Fertilizers of various descriptions, and by direct intercourse with farmers and planters, as Grain Merchants, has enabled us to learn their experience and results from all sorts of natural and artificial Manures and to form a practical knowledge of their wants in a fertilizer adapted generally to the various soils and crops of the Southern States, and at a price commensurate with present values and a proper regard to economy in outlay.

We have been induced to establish a manufactory in this city upon an extensive scale, with the appliances of steam and with every recent improvement in machinery for grinding, mixing and thoroughly combining the various chemical constituents, now well ascertained as forming the elements of a first-class fertilizer, and absolutely required to build up the truly vegetable part of the plant, and restore to the soil the elements of direct "PLANT FOOD," which previous crops may have drawn from it, and which can be relied upon for uniformity, containing the valuable properties claimed for it, and at a LESS PRICE *than any other similar manure offered in this market.*

Extracts from Letters from parties who have used this Fertilizer.

☞ FROM REV. S. A. GAYLEY.

COLORA, Cecil co., Md., June 20, 1869.

Messrs. Wm. Crichton & Son—Dear Sirs: Your "Ammoniated Soluble Phosphate" I regard as the best manure I have ever used. I dressed a lot of corn with it in the hill, putting one bag on *two and one-eighth* acres by actual measurement, (you will see the allowance to each hill was very small.) *It has acted like a charm.* That lot of corn is the best in the neighborhood of any planted at the same time. The corn has a very rich green color, and is growing rapidly.

From what it has done for me I give it the preference to any I have ever tried.

Yours, respectfully, S. A. GAYLEY.

OAKVILLE, St. Mary's county, Md., July 12, 1869.

I applied your "Ammoniated Super-Phosphate" on wheat and oats—top-dressed the wheat. The crops, where it was used, show a decided improvement, and present at this day a remarkably fine appearance.

I am perfectly satisfied with its effects, and its comparatively low price will induce me to use it again next season.

Yours truly, W. O. REEDER.

Annapolis Junction, Md, July 31, '69.

I used the Ammoniated Super-Phosphates, manufactured by you, with the greatest success on my wheat and vegetable garden.

I planted corn with it last May, and upon present appearances it will not be surpassed by any in the county. I prefer your combination of Plant Food to Peruvian Guano, even at the same cost. A. P. CORMAN.

PAW PAW, Morgan county, W. Va., June 27, 1869.

It gives me great pleasure to let you know that my Wheat upon which I applied your fertilizer last fall, is very fine. I used it entirely on corn stubble, and it is better than any I ever had or ever saw. It will, I am certain, yield over 20 bushels per acre.

I applied it on oats and corn in the spring, using about 200 pounds per acre on each, (stiff clay land.) The oats will double, I think, while the corn I never saw anything to equal it. I planted about 10th May, using a handful to two hills of corn, and after it started it seemed incredible to see it grow. It is now waist high, while on a *highly manured* piece of land by its side it is not over six inches.

Yours respectfully, N. N. CLABAUGH.

Centre Cross, Essex co., Va., July 27, '69.

In relation to your Guano, I take pleasure in stating that I regard it as a valuable fertilizer. I used about two hundred pounds per acre on oats, which, notwithstanding the excessive drought, produced 25 to 30 bushels per acre. The corn upon which this fertilizer was applied at the same rate looks stout, vigorous and promising, and the "oldest inhabitant" does not claim to have ever seen a more flourishing sweet potato and watermelon patch than I have this season, from the use of a handful of this manure to the hill.

Truly yours, R. P. W. FAUNTLEROY.

Put up in strong bags of 167 pounds in each.

PRICE $50 PER TON.

The Morning Star Bitters Co.,

HAVE determined to present their Bitters to the public, knowing that they will sustain the merits claimed for them. This is no novelty in the market, having been before the public for the last ten years, and has everywhere stood the test of the most searching scrutiny. This Medicine is accurately compounded from the purest ingredients by experienced chemists. Neither is it claimed that the ingredients were hitherto unknown to the medical profession, on the contrary the various component parts have for a long time (some for centuries) been used by the most skeptical and experienced Physicians as a Specific in cases of Dyspepsia, Poverty of the Blood, Nervous and Bilious Headache, and many diseases arising from derangement of the Digestive Apparatus It is not claimed for this article that it will cure all diseases. In BILIOUS FEVER and CHILLS AND FEVER, its value not only as a relief, but as an actual cure, has been fully proved. It is especially recommended in all diseases resulting from an impoverished state of the Liver, such as Hepatic Congestion, Biliary Obstruction, excess of Bile, &c.

It is recommended by prominent Medical men, who though opposed in principle to all patent or proprietary Medicines, have been forced by the result of their experience with the M. S. BITTERS, to recommend its use to their patients and the general public. We append a few of their certificates:

CHURCH CREEK, Aug. 15, 1866.

Having been made acquainted with the composition of the "Morning Star Bitters," I have no hesitation in stating that they are well adapted to cases of debility of the digestive organs, in which a purely vegetable tonic is required. THOS. KING CARROLL, M. D.

NO. 230 BARRE ST., BALT., MD.

I hereby certify that for a number of years I was afflicted with Dyspepsia, it resisted all treatment and finally became so bad that I was compelled to abandon my business, regarding the case as hopeless. A persevering use of the M. S. Bitters completely removed the troubles.

YOU ALL
HAVE HEARD OF
HOOFLAND'S GERMAN BITTERS,
AND
HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1823,

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,
and all Diseases arising from a Disordered Liver, Stomach, or
IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate disease of the Liver or Digestive Organs, combined with impure blood.

Hoofland's German Bitters

is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

Hoofland's German Tonic

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY,

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These Remedies are the best

Blood Purifiers

ever known, and will cure all diseases resulting from bad blood. Keep your blood pure, and your digestive organs in order, keep your Liver in order, keep your stomach in a sound, healthy condition, by the use of these remedies, and no disease will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything you must try these preparations.

FROM HON. GEO. W. WOODWARD,
Chief Justice of the Supreme Court of Pennsylvania.
PHILADELPHIA, March 16, 1867.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action, in the system.

Yours truly,
GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON,
Judge of the Supreme Court of Pennsylvania.
PHILADELPHIA, April 28, 1868.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect, JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,
Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—*I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.* Yours, very respectfully,
J. H. KENNARD.
