WM. CRICHTON & SON'S

AMMONIATED SOLUBLE PHOSPHATE OF LIME

Containing SIXTY PER CENT. of BONE PHOSPHATES—of which 12 per cent. is immediately SOLUBLE in WATER—3 per cent. of Ammonia, 3 per cent. of Potash, Sulphuric Acid, Maunesia, &c., &c.

Furnishing the essential elements of WHEAT, CORN, TOBACCO, COTTON, and of all Cereals which are removed from the soil in every crop.

To Agriculturists.

An extensive experience of twenty years, as importers and dealers in GUANO and Fertilizers of various descriptions, and by direct intercourse with farmers and planters, as Grain Merchants, has enabled us to learn their experience and results from all sorts of natural and artificial Manures and to form a practical knowledge of their wants in a fertilizer adapted generally to the various soils and crops of the Southern States, and at a price commensurate with present values and a proper regard to economy in outlay.

We have been induced to establish a manufactory in this city upon an extensive scale, with the appliances of steam and with every recent improvement in machinery for grinding, mixing and thoroughly combining the various chemical constituents, now well ascertained as forming the elements of a first-class fertilizer, and absolutely required to build up the truly vegetable part of the plant, and restore to the soil the elements of direct "PLANT FOOD," which previous crops may have drawn from it, and which can be relied upon for uniformity, containing the valuable properties claimed for it, and at a LESS PRICE *than any other similar manure offered in this market.*

Extracts from Letters from parties who have used this Fertilizer.

☞ FROM REV. S. A. GAYLEY. ☜

COLORA, Cecil co., Md., June 20, 1869.

Messrs. Wm. Crichton & Son—Dear Sirs: Your "Ammoniated Soluble Phosphate" I regard as the best manure I have ever used. I dressed a lot of corn with it in the hill, putting one bag on *two and one-eighth* acres by actual measurement, (you will see the allowance to each hill was very small.) *It has acted like a charm.* That lot of corn is the best in the neighborhood of any planted at the same time. The corn has a very rich green color, and is growing rapidly.

From what it has done for me I give it the preference to any I have ever tried.

Yours, respectfully, S. A. GAYLEY.

OAKVILLE, St. Mary's county, Md., July 12, 1869.

I applied your "Ammoniated Super-Phosphate" on wheat and oats—top-dressed the wheat. The crops, where it was used, show a decided improvement, and present at this day a remarkably fine appearance.

I am perfectly satisfied with its effects, and its comparatively low price will induce me to use it again next season.

Yours truly, W. O. REEDER.

Annapolis Junction, Md, July 31, '69.

I used the Ammoniated Super-Phosphates, manufactured by you, with the greatest success on my wheat and vegetable garden.

I planted corn with it last May, and upon present appearances it will not be surpassed by any in the county. I prefer your combination of Plant Food to Peruvian Guano, even at the same cost.

A. P. GORMAN.

Put up in strong bags of 167 pounds in each.

RUTH'S CHALLENGE Soluble Phosphate!

The Most ACTIVE and DURABLE Fertilizer ever offered to the Farmer.

This article is made expressly to supply the place of A No. 1 Peruvian Guano, and will be found as active as Guano and much more durable in its effects. It is made upon the principle that the measure of our prosperity is the prosperity of the farmer, and every farmer who uses it may confidently rely upon large crops, unless injured by providential acts.

It is indeed the "CHALLENGE" Fertilizer of the times, and in order that it may always remain such we have engaged in its preparation the very best Chemical skill in this country. Give it a trial.

Its adaptation to Wheat, Corn, Oats, Buckwheat, Tobacco, Garden Truck, Grasses, &c., has been thoroughly and most satisfactorily tested. Finel ground and suitable for drilling. —Messrs. O. P. Merryman & Co.—Gentlemen: I used one ton of your Phosphate last Fall, and my wheat where I applied it has turned out well. I think it a good Fertilizer.

Yours respectfully, SAMUEL ROLPH.

Chestertown, Md., July 26, 1869.
Messrs. O. P. Merryman & Co.,—Sirs: In answer to your inquiry, as regards the result of an application of your Raw Bone Phosphate upon my wheat crop, I will state that it gave entire satisfaction. It was used by the side of two different kinds of approved Fertilizers, which cost at least thirty-three per cent. more than yours; but throughout the entire season it was impossible to perceive the slightest difference in the wheat. Respectfully.

THE MARYLAND Fertilizing and Manufacturing Co.,

DIRECTORS:
WM. G. HARRISON, WILLIAM MUMSEN,
LAWRENCE SANGSTON, RICHARD J. BAKER,
ROBERT TURNER, WILLIAM TREGO.
WILLIAM TREGO, *Manufact'g Chemist.*
LAWRENCE SANGSTON, *Pres't.*

This Company, incorporated by the Legislature of Maryland for the Manufacture and Sale of Fertilizers, are now prepared to furnish the agricultural community with their products.

Deriving their supply of material from the richest of the recently discovered deposits of Bone Phosphates in South Carolina, they have established, and will inflexibly maintain, a higher standard of Fertilizing value than any similar productions hitherto in the market.

While the material they use contains 60 per cent. of Bone Phosphate of Lime, it is guaranteed to contain a larger percentage of *Soluble Phosphate* than any heretofore used.

Fine Ground Bone Phosphates,
Price $30 per Ton in Bags.

Containing by the average of the Analysis of Professors Piggot, Leibig and Poplein, 60.20 per cent. of Bone Phosphate of Lime.

The unusual per centage of *Soluble* Phosphate will make this form very desirable to Farmers who prefer to use it in its natural state, or to manipulate for themselves.

ALKALINE SUPER PHOSPHATE
Price $50 per Ton in Bags.

This Preparation has special reference to the growth and development of the Seed or Grain, and is intended for the soils that produce large crops of Straw, and small crops of Grain.

Ammoniated Super Phosphate,
Price $55 per Ton in Bags.

Adapted to Lands that require a full development of the crop, both Straw and Grain.

The superiority of the South Carolina Phosphate is fully demonstrated by the fact that most of the leading Manufacturers of Artificial Fertilizers are now using, or making arrangements to use it, as the Phosphatic base of their Preparations, and large quantities are being shipped to Europe.

The various preparations of the Maryland Fertilizing and Manufacturing Company are made under the personal supervision of a Manufacturing Chemist of thirty Years' experience, and are confidently recommended to the Agricultural Community.

THE SOMBRERO GUANO, of which MORO PHILIPS' PHOSPHATE is, and always has been manufactured, (and of which he has sole control for the United States,) contains *fifty per cent more Bone Phosphate than Raw Bone,* therefore it is more durable. A large per cent. is *Soluble,* and will immediately yield its nourishment.

The *Ammonia* it contains is pure and ready to yield its value—*not* animal matter, capable of yielding its ammonia after decomposition in the soil.

Nothing is spared in its manufacture to render it the most valuable Super-Phosphate and Crop Producer in the market.

Eight years' experience has proved to the farmer that it is *durable* and can always be relied on as *uniform in quality;* and the numerous unsolicited testimonials continually received of its use in competition with other Fertilizers, attests that it has not been excelled.

Messrs. Lieutaud & Co., Dear Sirs:—The "Antidote" which you sent me for examination, and aplication to any obstinate case of Intermittent Fever which might come under my notice, has been received. I have analyzed the contents, and after discovering the ingredients, and recognizing them as applicable to the disease in question, I determined to give it a trial. I did so, and found the therapeutic effects precisely in accordance with the character claimed for it by you; in no instance has it failed, frequently half a bottle being sufficient for the complete cure of cases of long standing; even those in which chronic enlargement of the Liver and Spleen had been superinduced. I regard it as a decidedly scientific discovery. I would recommend it to all sufferers of Chills and Fevers. WM. D. M. LARKIN, M. D.
