Mr Turner from the committee, submitted the following report and resolution, which were read the first and by special order the second time, adopted and sent to the Second Branch, who returned the same, endorsed "concurred in"

Martin and others, asking that something may be done with the lots in the neighbourhood of the Eastern Foundery, report that the lots in question, are in a situation that requires the immediate attention of the health department of the city, in causing the low grounds to be drained properly, as their present situation is such, as no doubt produces considerable uneasiness to those in the neighborhood regarding the health of their families — they therefore offer the following resolution
