Horace Greeley on Woman Suffrage.

A Mrs. Duniway, an eminent woman suffragist, has been making an effort to draw out Mr. Greeley on the subject of woman suffrage, with the following result:

Mrs. Duniway—I am editing a paper in Oregon; I am opposed to Grant, and hence would like to get your opinion on the subject of woman suffrage, to lay before the people of Oregon. We want to know what we are to expect of you.

Mr. Greeley—Oregon is a very uncertain State. There is too much whiskey in that locality. There are more saloons than school-houses.

Mrs. D.—There are not as many saloons in proportion to the population as there are in New York, where you ought to have considerable influence. In my opinion, this is the most God-forsaken place I ever saw. I think you ought to have done more for your own city.

Mr. G.—Humph, yes.

Mrs. D.—Here is a copy of the New York *Tribune* of 1853, in which you advocate not only woman suffrage, but contend that women should be eligible to office. I understand that you have said that you had not changed your opinion on the subject.

Mr. G.—That's wrong. What I did say was that I had not changed my opinion within the past four years. I have two daughters, and I would prefer that they should remain women.

Mrs. D.—What do they think about it?

Mr. G.—I don't know. One of them is a Roman Catholic, and I don't think she cares much about it, either one way or the other. The other would rather go to the theatre than to a woman suffrage meeting.

Mrs. D.—I think either one of them might do better than they are, and I think you are responsible. What do you think of women holding office?

Mr. G.—I think they ought to stay at home and attend to their household duties. The women at the Department have become very much demoralized.

Mrs. D.—Do you mean to be understood that all are demoralized?

Mr. G.—No, not exactly; but I believe that none of them are as good as they would be if they had never seen Washington.

Mrs. D.—I had an idea that you might wish to place yourself on record now as favoring woman suffrage, since there is a strong probability that it will be successful at no distant day.

Mr. G.—I have no ambition or desire to place myself on record. As you say, it may be successful, but it will be so only for a short time. It cannot endure.

Drs. D.—I think it will endure as long as male suffrage, for that is about as corrupt as it can be.

Mr. G.—I think when everybody else is in favor of this matter I may be brought to think well of it, too; but then it will be no advantage to you. I wish you a pleasant good day, ladies.

International Prison Congress.—An international convention on the subject of prison reform will be held in London on the 3d of July, 1872. It is stated that delegations will be present from all parts of Europe, and also the United States. Several delegates have already sailed from this country indeed, and more may yet go. The convention will consider crimes and their punishment, prison discipline, and the best mode in which to attempt the reformation of the criminal population. There is a growing belief that out of the present variety of the system for the repression and prevention, as well as the punishment, of graver social offenses, there may be some one that presents more favorable results than all others, or at least that, taking some good points from one and some from another, better and more uniform methods may be determined upon than any at present in operation. In America, especially, for some time past there has been a desire to experiment, in the hope of finding some more effectual means of dealing with crime and criminals. Our prisons are not making such returns as moralists and philanthropists desire. But this is not the worst of it. It is alleged that in some of the institutions which have been established nominally for the reformation of offenders, the greatest cruelties have been practiced upon the inmates. It is to be hoped that the international convention will look into these alleged abuses of power over the criminal classes, and the weak and helpless beneficiaries in what are called charitable institutions.

French Investigation.—The French are certainly sifting thoroughly all matters connected with the late war, and are finding out in these investigations where the responsibilities for the disasters of France rests. The debates in the Assembly at Versailles have been animated, protracted and able. They have developed the fact of gross mismanagement in the army, and persistent deception of the Emperor as to its real state of efficiency through ignorance and incapacity, rather than knowingly. Here lies the first cause of failure. The courtmartial for the trial of superior officers, and the Committees of Inquiry into the different capitulations have, by their reporter, brought into public notice, in a manner that cannot be ignored, the utter absence of military skill and ability in the commanders of the army, from those to whom were entrusted with the more important operations in the field, down to those who held and surrendered the small but strong fortresses of Longway, Peronne and Rocroy. The laurels of the French leaders, civil and military, have been sadly tarnished; but the honor of the people they deceived and the troops they so badly led, is untouched by these developments.—*Balt Gazette.*

Type Setting Inventions.—The Albany (N. Y.) Times announces that Dexter Reynolds, Esq., a prominent member of the Albany bar, has invented a type-setting machine, which, having been pronounced a complete success by type founders in Boston, New York and Philadelphia, has been sold for $1,000,000 to a combination of New York capitalists.—The machine is said to be exceedingly simple in construction and easy of operation, with a capacity of setting 2,000 ems of type per hour. This is about the equivalent of four average compositors. Other type-setting machines, it should be stated, have been invented, proving only partially successful, and impracticable in competition with the machinery of nature.

Planting Trees.—The authorities of California have engaged a professional abroriculturist, at a salary of $15,000 per year, to attend to the setting out of forest trees in different parts of the State. They never did a wiser thing. Trees should be judiciously distributed everywhere—on the mountain side, in the fields, along country roads, in front of city residences, in parks and gardens; everywhere some, nowhere too many.

On and after the first of July next persons who sell or offer for sale tobacco, snuff or cigars, except manufacturers, will be required to pay a special tax of five dollars per annum, without regard to the amount of annual sales. The exemption of persons whose annual sales do not exceed one hundred dollars is repealed by the new law.

A Perilous Life—*Lengel, the Lion Tamer, Again in the Jaws of one of his Pets.*—The man above named has achieved notoriety by the number of times he has suffered laceration by the claws and teeth of caged animals. He was one day last week at Portage City, Minn., exhibiting his "lion taming" abilities in a circus. One of his cages contained three partially tamed brutes, two lionesses and a lion.—He had found, contrary to the usual experience, that the male lion was the most crafty of the three, and on two occasions before the one at Portage City he had detected this huge fellow in the act of sneaking up to seize his leg. During the afternoon exhibition at Portage City the tamer was going through his usual performance in this cage, with two men stationed outside with iron rods between the bars of the cage to assist if necessary in warding off attack. The lion had somewhat puzzled him, as manifesting a different nature from that of any with which he had dealt, and for that reason he kept his eye upon him; but at one point he was obliged to turn and face the two lionesses as they passed him, leaving the lion to be watched by the attendants.—But the attendants failed to see the monster sneak along the floor. The audience were watching closely, the danger was seen, and a cry of alarm was raised, but it was too late, the monster jaws had closed on the calf of Lengel's right leg, the teeth met, and Lengel fell to the floor of the cage. His club flew from his hand as he fell, and was beyond his reach; the moment was one of terrible suspense; the spectators were terrified and the two attendants paralyzed at the result of their carelessness. But Lengel's presence of mind did not desert him. The lion, even in his rage, could not forget the power of his fallen antagonist, and loosened his hold for a moment, and before the lioness could gather for an attack the tamer was on his feet, seized his whip and attacked his foe, lashing him into the corner.—Leaving the cage Lengel walked to his dressing-box, across the ring, where he sank faint from the loss of blood. It was found that no bones were broken, but the wounds were so large and deep that the surgeon who dressed them probed them with his finger and failed to touch the end. Lengel has been five times before bitten by his pets, and shows a scarred body, but in every case before his wounds have been from lioness. This, he thinks, is the second case in which he has been intentionally bitten, the other four being accidents, when in their snarls among themselves they have seized him by mistake.

The French Military Bill.—The French people have learned a dearly-bought lesson from their reverses in the late war with Prussia, and are determined to enforce the most stringent regulations of military service. The following clauses have been inserted in the Military bill: Clause 1 Every Frenchman is bound to serve personally in the army or navy. 2. No premium in money nor in any other shape for enlistment is allowed. 3. Every Frenchman who is not found to be physically incapacitated for service may be called out from twenty to forty years of age, to form part of the active army or the reserve, according to the mode specified by this law. 4. Substitutes are done away with; the exemptions in those cases provided for by the present law shall not be considered as equivalent to a final discharge of the men to whom they may be granted. 5. "The men in active service will not in any case be allowed to vote."

A Rich Coffin.—The burial casket in which the remains of the late James Gordon Bennett were encased was made in Rochester, New York, and was nearly square in shape, and constructed of a peculiar wood, which lasts for many years. The side panels were covered with costly Lyons silk velvet, and the eight handles were of a new design, made expressly for the occasion. The lid, which consisted of two panels of French crystal plate glass, covered, when required, by two black silk velvet caps, was hung on silver hinges and fastened with two silver locks.—The entire casket was mounted in a massive framework of silver moulding of chaste design, bolted and made fast in such manner that it cannot fall apart. The inside was upholstered and decorated in white silk, satin and Venetian lace.

The Postal Money Order System.—On the 1st day of July next, according to the new postal code, we are to have 300 new money-order postoffices in the United States, and arrangements are now in process for putting them in operation. This will complete the number of 3,000 money-order offices in the country. The business of our money-order offices last year amounted to over $42,000,000. The increase will give ten new offices to the city of New York, and one to Boston. It will bring the system in New York to precisely the London plan. It will diminish the rush at the main office, and enable people to buy or receive money-orders at their station postoffice.

A Week of Prayer.—The bishops of the Methodist Episcopal Church South have recommended that the week from the 11th to the 18th of August be observed as a week of fasting and prayer, "that the Lord would send more laborers in His vineyard, for His blessing upon our institutions of learning, and the conversion of the young, and the increase of His kingdom among men."

There are in Caroline county two persons who are 97 years old each; one 110; one 105; one 100; one 107; one 96, and one 86 years. The most of these old people are in the enjoyment of fair health and some of them bid fair to live several years longer.

Germany, through its Ambassadors, has presented to President Thiers the proposition for the evacuation of France.—The German Government accepts the plan proposed by Thiers, but requires full payment of the indemnity before the 2nd of March, 1874.

A Sabbath School Jubilee took place in Wilmington, Del., on Thursday week, of nearly all the Protestant schools of the city and vicinity. There were 6,000 children in the procession, and 4,000 sang in chorus at the picnic in the afternoon.

Talbot M. E. Church has decided to hold no camp-meeting this year, fearful that the influx of Baltimoreans might bring with it the small-pox.

Several pockets were picked at Denton lass week by the Circus men. In Easton a row was kicked up, and a circus attache shot and a citizen struck with a club.

Small-Pox Panic in a College.—Small-pox has broken out at Dickinson College, at Carlisle, Pa. Many of the students are leaving for home. There are several other cases in town.

Many children have their hair totally ruined by having it creped and pinched with a hot iron when they are quite young, in order to pamper the vanity of a foolish worldly mother.

A darkey says, "All men are made of clay; and, like meerschaum pipes, are more valuable when highly colored."

A Pitiful Condition.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitual condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain; but they have no relish for anything which affords mental or sensuous pleasure. In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function interrupted

Now, what does common sense suggest under these circumstances of depression? The system needs rousing and strengthening; not merely for an hour or two, to sink afterward into a more pitiable condition than ever (as it assuredly would do if an ordinary alcoholic stimulant were resorted to,) but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily given. Infuse new vigor into the digestive organs by a course of Hostetter's Stomach Bitters. Do not waste time by administering temporary remedies, but wake the system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depend for their nurture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant are taken, the feeble frame of the dyspeptic will begin to feel its benign influence. Appetite will be created, and with appetite the capacity to digest what it craves. Persevere until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve and brain, flows through the channels of circulation, instead of the watery pabulum with which they have heretofore been imperfectly nourished.

THE GOOD WIFE.

It is just as you say, neighbor Jones,
A treasure, indeed, is my wife,
Such a woman for bustle and work,
I have never found in my life.
She makes the best bread in our Town,
Her pies are a perfect delight;
Her coffee a rich, golden brown;
Her cakes and her puddings just right.
She uses the "EXCELSIOR COOK;"
And with coal, with coke or with wood,
My breakfast and dinner will cook;
I am sure of each meal being good.

EXCLUSIVE RIGHT.
Having the EXCLUSIVE RIGHT to sell the
WARDEN & EVANS
Stave Peach Basket
FOR NEW CASTLE COUNTY,
We can offer great inducements to those who buy now, and would say to those who postpone it, we shall be glad to sell to them when they get ready to buy, but will have to make them pay for being slow.
This basket is undoubtedly the handsomest, cheapest and best basket ever made on this Peninsula, and some of our largest Peach Growers say they believe it to be the best basket to sell peaches in, and intend to use nothing else. We can prove that nice peaches, packed in nice, clean, new, even sized baskets will bring over and above what they would in dirty, uneven and unsightly baskets, enough to more than make it pay to burn the old baskets and buy new—especially in a season like this, when peaches will probably be high. Our Commission men tell us to have our baskets the right size, and bright and pretty, and they can always get enough excess to pay for the package.
☞Buy early and cheap and save money. Give me good paper, and I will not be so bold as to ask for cash. I offer you now just what has been needed for a long time, a cheap and handsome basket.

Percival's Maple Wood
VENEER FRUIT BASKET,
PATENTED AUG. 18, 1868.
This Basket has already attained such popularity among berry growers and fruit dealers generally, as to require but little notice or commendation from us. For transporting all kinds of small fruits to market, their superior cannot be found; combining as they do, great strength, beauty, durability and facility for ventilation. Our acquaintance with the Berry Basket business warrants us in saying that no other style, yet offered, secures all the above advantages so fully and completely, as the PERCIVAL VENEER FRUIT BASKETS.
It is a well authenticated fact that during the past season berries marketed in these baskets presented a better appearance and uniformly brought better prices than those forwarded in the various other styles of baskets or boxes.
These baskets are double nailed at the bottom, making them the strongest and best baskets in the market.
These Crates are strongly made; Iron bound, and secured with hasplock and hinges, and Stencil marked without charge, when ordered.

Roasted, Broiled, Fried, Steamed and Stewed. BEEF STEAK and COFFEE, HAM & EGGS, and anything that can be furnished in this market.
THE BAR
Is furnished with the BEST LIQUORS, such as Pure French Brandy, Lavender Brandy, Cherry Brandy, Maryland Club Whiskey, old Jackson Whiskey, Moore's Old Rye Whiskey, Hannisville Whiskey and Old Finch Whiskey; Pure Apple Whiskey, Old Holland Gin; Pure Sherry Wine, Port Wine, Claret Wine, Massey & Collins' XX Ale, and Philadelphia Lager.
Also, the finest Segars.
mh30 3m. JOHN ARMSTRONG.

Livery Stables.
The subscriber takes pleasure in informing the public that he has now
THE BEST LIVERY STABLE
that has ever been kept in Chestertown. The most of his horses are fine travellers, and his Carriages are neat and comfortable, while his charges are reasonable. Travellers conveyed to any part of the Peninsula.
He is also running a Stage, connecting with the Kent Co. Railroad. Any one wishing his services will apply at Hines & Burchinal's Express Office, and he will call for them at their residence. Also, Baggage called for and delivered at the Depot.
mh23-3m. JOHN W. RASIN.

A Card.
I respectfully inform my friends and the public that in the future I can be found at all hours, night or day, at my
DRUG STORE ON HIGH STREET,
where I will be at all times, ready to
COMPOUND MEDICINES
Accurately and with Dispatch.
I take pleasure in showing my
FINE ASSORTMENT OF

THE EUREKA
FANNING MILL.
THE GREATEST INVENTION OF THE NINETEENTH CENTURY!
Farmers Look to Your Interest!
THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public.
It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras—EUREKA!—signifying in the Grecian language, "I have found it." This has given the name to this new Mill.
In this Mill are all the former improvements to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention:
It combines ECONOMY, UTILITY and PRACTICABILITY!

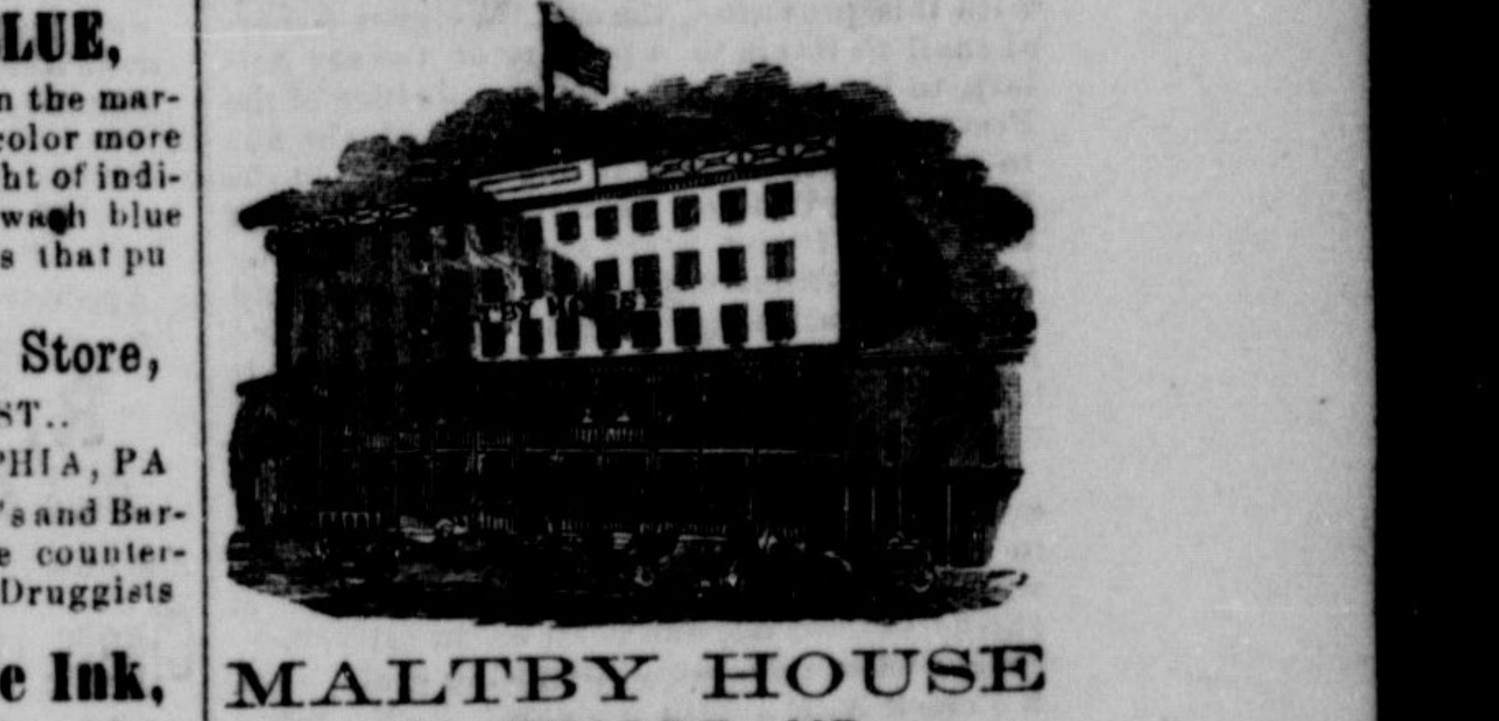

THE "EUREKA" MILL
Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented.
IT IS THE ONLY MILL
that will successfully remove from wheat all such pests as Cockle, Garlic, Oats, Rye, &c.
Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of: for nearly one quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.
HINES & BURCHINAL,
Chestertown, Maryland,
Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of Noland & Co., Port Deposit, Md., which is a guarantee that they will be put up in the best manner. je17-tf.

MANHOOD,
How Lost, How Restored
JUST PUBLISHED, a new edition of DR. CULVERWEL'S CELEBRATED ESSAY on the *radical cure,* without medicine, of Spermatorrhoea, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy and Fits, induced by self-indulgence or sexual extravagance.
Price, in a sealed envelope, only 6 cents
The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically
This Lecture should be in the hands of every youth and every man in the land.
Sent, under seal, in a plain envelope, to any address, postpaid on receipt of six cents, or two post stamps.
Also, Dr. Culverwell's "Marriage Guide," price 25 cents. Address the Publishers,

MILLIONS Bear Testimony to their Wonderful Curative Effects.
They are not a vile **Fancy Drink,** Made of **Poor Rum, Whiskey, Proof Spirits and Refuse Liquors,** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms are the offsprings of Dyspepsia.
They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequaled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
Pin, Tape and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No system of Medicine, no vermifuges, no anthelmintics, will free the system from worms like these Bitters.
Sold by all Druggists and Dealers.

ROSADALIS

R O S A D A L I S

THE GREAT SOUTHERN remedy for the cure of Scrofula, Scrofulous Taint, Rheumatism, White Swelling, Gout, Goitre, Consumption, Bronchitis, Nervous Debility and all diseases arising from an impure condition of the Blood.
The merits of this valuable preparation are so well known that a passing notice is but necessary to remind the readers of this journal of the necessity of always having a bottle of this medicine among their stock of family necessities.
Certificates can be presented from many leading Physicians, Ministers, and heads of families throughout the South, endorsing in the highest terms the *Fluid Extract of Rosadalis.*
Dr. R. Wilson Carr of Baltimore says "he has used it in cases of Scrofula and other diseases with much satisfaction.
Dr. T. C. Pugh of Baltimore, recommends it to all persons suffering with diseased Blood, saying it is superior to any preparation he has ever used.
Rev Dabney Ball of the Baltimore M. E. Conference South says he has been so much benefitted by its use that he cheerfully recommends it to all his friends and acquaintances.
Craven & Co., Druggists, at Gordonsville, Va., say it never has failed to give satisfaction.
Sam'l G. McFadden, Murfreesboro, Tennessee, says it cured him of Rheumatism when all else failed.
Rosadalis is not a secret quack preparation, its ingredients are published on every package. Show it to your Physician and he will tell you it is composed of the strongest alteratives that exist, and is an excellent Blood Purifier. Did our space admit we could give you testimonials from every State in the South and from persons known to every man, woman and child either personally or by reputation.
Rosadalis is sold by all Druggists.
