This branch then returned to its own chamber and adjourned until tomorrow afternoon 3 o'clock

By Order, Th^s Rogers Clk

In 2^d Branch March 4th 1815

Branch met agreeably to adjournment. Present James Calhoun Esqr Pres^t and all the Members.

A report was received from the Flour Inspectors appointed to visit Philadelphia for the purpose of examining the quality and fineness of the flour inspected there; accompanied by a petition from Messrs Wright & Byrnes and others, praying an amendment to the Ordinance requiring that Flour Barrels should be of a certain weight; Which were read and referred to Messrs Payson, White and Bolton to consider and report thereon.

Mr Payson from the Committee delivers a Bill, Intitled, a Supplement to the Ordinance, Intitled, an Ordinance for the inspection of flour; Which was read the first time and ordered to lie on the table.

A petition was received from Andrew Myer, praying relief in the case therein mentioned; Which was read and referred to Mr Herring to consider and report thereon.

A Bill, Intitled, an Ordinance directing the measurement of Charcoal, was received from the first branch, was read the first and by special order a second time, passed and returned to the first branch.

A Bill, Intitled, a Supplement to an Ordinance Intitled, an Ordinance for regulating weights and measures used within the City and precincts of Baltimore, was received from the first branch, was read the first time and ordered to lie on the table.

A ~~petition~~ communication from William Finn recommending the use of his newly invented Fire Machine, called the 'Salamander Hose' was received from the first branch, accompanied by a Message proposing to refer said communication to the consideration of a joint Committee, and nominating on their part Messrs Slimmer, Wilson & Dyer; to which this branch agreed and appointed on its part Messrs White & Herring.

The following report and resolution, were received from the first Branch for the concurrence of this were read the first and by special order a second time concurred in, and returned to that Branch.

The joint Committee appointed on the petition of Peter Zacharie, by leave to state that they have with great attention examined the Machine, and also two other Machines exhibited by Mr William B. Dyer, all of which Machines we recommend to be referred to the Port Wardens, having as we believe a more perfect knowledge of such Machines as also their utility.

Therefore we by leave to report
