[From the Sun of Tuesday]

The Horse Epidemic in Baltimore

Continued Suspension of Street-Car Travel—Novel Scenes on the Streets—Wagons Drawn by Men—Exercising Sick Horses, &c.

The stoppage yesterday of all the street cars of the main lines of the horse railways in Baltimore indicated the crisis in the horse epidemic, which has now reached the full proportions of a public calamity. Except on Sundays, the street cars have never been forced to suspend their trips for twenty-four hours since they began operations, now about fourteen years ago. The absence of horse cars from the main thoroughfares during the active hours of a business day, such as Monday, was, therefore, particularly noticeable. The day was clear, with a bracing atmosphere, which made walking a pleasurable exercise. On Baltimore street and other main avenues of business the side-walks were crowded all day, while there was a painful absence of the usual din and rush of vehicles.

In the vortex of business about Exchange Place, and in the narrow way of Light street, usually crowded with vehicles and horses burthened with merchandise, there was, comparatively speaking, almost a Sabbatarian quiet. Nearly all the horses at work on the streets were blanketed, and gave evidence of the epizootic calamity which has fallen upon them so universally. A great many vehicles appeared on the streets drawn by men. In several instances colored men appeared on the streets regularly hitched to vehicles of different kinds, which it became necessary to remove from one place to another. Several wagons loaded with merchandise were drawn in this way, followed by crowds of volunteer bipeds, to the great amusement of the crowds on the sidewalks.

In the more retired sections of the city advantage was taken of the delightful weather by owners to exercise sick horses, and numerous convalescing animals appeared, well wrapped up in blankets and attended by grooms, to enjoy the fresh air and gather renewed strength. It was gratifying to note everywhere evidences of humanity in the treatment of the poor animals upon whom we depend so much for everyday usage and service. Even the sick horses which the necessities of so many persons continued in harness portions of the day, at least were treated with consideration and allowed to move at whatever pace they were able to keep up.

Towards noon, when Baltimore street was crowded with pedestrians, a lumber wagon drawn by colored men passed uptown, followed soon after by the employees of an oyster packing house, drawing a wagon loaded with oysters, which it was necessary to ship at once for the West. Hand-carts and wheelbarrows were very numerous. It was evident that all were accepting the situation with the best possible grace. Furniture, bedding, hoop-iron, huge baskets of goods, bundles of dry goods, in fact every description of small articles, could be seen borne about on the shoulders or heads of men and boys, who were in demand on all sides, and were liberally paid. The number of vehicles drawn by horses was very few, and the drivers became the butt for jokes by the crowd, and cries of "Give him a smoke, old man," "Feed him on tar," "Better go home, epizootic," &c., could be heard from the sidewalks. It was worthy of notice, however, that there were very few sick or ailing horses being worked, the owners having followed the humane example of the large corporations, by stabling their horses and resting them.

Large quantities of freight have accumulated at the wharves and depots, which must be still further increased before it will be possible to deliver it, unless at the most exorbitant rates. Drays now command from $ 50 to $5 per load,. At the oyster wharves the average charge for cartage was from $2 to $3 per load, and each cart had half a dozen applicants.—The hand-carts, usually plentiful at 50 cents per load, commanded from $1 to $2 for every trip made.

It is probable that to-day a number of oxen will be introduced. Four yoke appeared on the streets yesterday. In Boston this class of beasts of burden were very common during the prevalence of the horse disease there. Being exempt from the influenza, they were able to work without interruption, and proved very valuable to those who introduced them on the streets. It is learned that a number of business men are seeking to bring in unemployed oxen from the surrounding country for temporary service.

As on yesterday, there will be no street cars on the main routes of the city. The City Passenger railway lines and the Citizens' railway line hope to resume travel to-morrow, (Wednesday,) but on the York Road railway the notice "No more cars till further notice is posted up at the office on Hollyday street, even the mail car being taken off. On the Catonsville road only two cars are running, on the Powhatan two, on the Hall's Spring three, and on the other roads none at all. All hope to resume, however, within two or three days. In consequence of the scarcity of cars or suspension of travel on the suburban railways yesterday, many residents of the county were obliged to walk to and from the city. The York road was lively with pedestrians in the morning after breakfast, and again in the evening after business hours in the city.—Many of the "walkists" were ladies and servants, carrying the days' shopping in their hands.

About 9½ o'clock last night the first fire since the advent of the horse malady occurred on West Lombard street. An alarm was sounded from box 18, and in a few moments engines Nos. 2, 3, 7 and 8 and truck No. 2, were rattling over the streets drawn by firemen and policemen, orders having been given by the police authorities for six officers to attend each engine-house in the event of an alarm of fire. As the engines moved along, numbers of citizens joined the firemen in pulling the engines, and the spectators were entertained with a sight suggestive of the days of the old volunteer fire department, when the boys ran with the machines.—The engines were prompt at the fire, and some of the firemen claimed that they had made better time than the horses could have done, but of course due allowance must be made for such a statement, although the performance was praiseworthy.

A CENSUS OF THE HORSES.

The general prevalence of disease among horses, and the special interest in them which grows out of their present condition, gives the following census statistics from our Washington correspondent a current interest:

The whole number of horses in the United States is 8,619,219. Of these 7,132,-849 are on farms, and 1,547,370 in cities and towns and otherwise, not on farms. The number in each State is as follows: Alabama 92,807, Arizona 4,432, Arkansas 102,240, California 241,146, Colorado 13,317, Connecticut 54,139, Dakota 3,248, Delaware 18,633, Florida 14,451, Georgia 110,237, Idaho 2,775, Illinois 1,017,646, Indiana 553,203, Iowa 482,-786, Kansas 152,000, Kentucky 351,200, Louisiana 62,584, Maine 79,782, Maryland 102,216, Massachusetts 86,266, Michigan 258,670, Minnesota 102,678, Mississippi 104,600, Missouri 545,822, Montana 6,733, Nebraska 84,901, Nevada 14,400, New Hampshire 48,335, New Jersey 103,663, New Mexico 26,500, New York 856,241, North Carolina 114,-406, Ohio 704,664, Oregon 64,625, Pennsylvania 611,488, Rhode Island 11,113, South Carolina 54,052, Tennessee 273,-200, Texas 574,641, Utah 14,281, Vermont 60,775, Virginia 68,938, Washington 13,922, West Virginia 99,362, Wisconsin 270,083, Wyoming 3,753.

HORSES IN MARYLAND.

In the State of Maryland there is 102,-216 horses, of which 89,696 are on farms and 12,520 in cities and towns. In the city of Baltimore it is estimated that there are 10,000 horses, and the census shows that there are 7,482 in Baltimore county, outside of the city, a very lare proportion of which are used in the city.

The following is the number of horses *on farms* in each county of Maryland, the census showing no means of ascertaining the number in Annapolis, Frederick and other towns: Alleghany 4,002, Anne Arundel 4,075, Calvert 1,814, Caroline 2,155, Carroll 6,564, Cecil 4,824, Charles 2,004, Dorchester 1,678, Frederick 11,-860, Harford, 4,247, Howard 2,958, Kent 4,535, Montgomery 5,211, Prince George's 3,434, Queen Anne's 3,703, St Mary's 2,577, Somerset 1,235, Talbot 3,298, Washington 8,423, Wicomico 1,-521, Worcester 2,096.

MURDER.—John Barwick was arrested on Thursday morning, in Tuckahoe Neck, by Sheriff Evitts, on the charge of murdering Geo. Aringdale, of Talbot county, on Tuesday evening last. It appears they had been drinking together at Barrett's store, in Talbot, and left there together as friends, in a dearborn. They passed through the farm of A. Gadd, Esq., and stopped at his barnyard, and whilst there a misunderstanding occurred, and Barwick having in his possession a gun, struck Aringdale over the head with the butt of it, whilst he was in a stooping position in the act of untying his horse.—Mr. Alexander Gadd was present, happening there just in time to witness the sad affair. Aringdale lived only about four hours after receiving the blow. Barwick is about 35 years old, and claims to be ignorant of the whole affair, stating he was crazed by what he had drank.—*Denton Journal.*

EMBALMING BODIES BY INJECTION.—The statement is made in Les Mondes that the system of M. Gannal of embalming bodies by injection, which was effected by opening the jugular vein or the carotid artery, is probably to be superseded by M. Audigier's plan, in which the preserving fluid is introduced through the mouth and larynx. About six ounces of the fluid is sufficient fer the purpose, and the body should be covered with some vegetable powder soaked in the same fluid. The body is by these means completely preserved, and is entirely "mummified;" it acquires a durability equal to that of wood or stone, and the facial color remains as it was at the moment of decease. The most eminent physicians, surgeons and anatomists in France have testified to the efficacy of this system, which has, in addition to the advantages already mentioned, that of perfect innocuousness and complete disinfection. The liquid here referred to is presumed to be carbolic acid, some time ago employed for the same purpose in this country by Professor Seeley.

THE CENSUS.—Gen. Francis A. Walker, superintendent of the ninth census, in his report to the Secretary of the Interior, recommends the taking of an intermediate census in 1875, in preparation for the approaching centennial celebration of the political birth of the nation. He believes also that this experiment would secure the taking of the Federal census thereafter at regular intervals of five years instead of ten. The latter interval he is of opinion is far too long in this rapidly growing country for all the uses to which statistics of the census are put by the legislator, the journalist, and the social and political philosopher. Much improvement has been make in the manner of arranging and illustrating the details of the ninth census, but the superintendent regards the existing census laws entirely too clumsy for continued use, and recommends such action as will meet the case in view of its necessities and the advanced state of statistical science.

IT is alleged that bets to the amount of a quarter of a million of dollars were determined in Philadelphia by the election of Hartranft as Governor. This undoubtedly stimulated political activity, especially in the colonizing line. When sporting characters bet on elections their chief anxiety is to win. Little thought is expended on the character of the candidates and still less on ultimate results. The system is essentially demoralizing and calculated to foster frauds. If pipe-laying and ballot-stuffing are necessary to success, the patriot who has staked largely on the result will wink at, if he does not invent, such abnormal contrivances. Respectable men who are anxious to secure honest elections should discourage the practice as well by precept as example.

THE POPE'S HEALTH FAILING.—The Rome correspondent of the London *Times* says that the Pope is approaching the close of his earthly career. So patent is this fact that foreign ministers have long since begun to send daily bulletins concerning his health to their respective governments. His brother's recent death has made a great impression on his mind, and the spirit that once held up and strengthened the decaying frame is no longer there. His physical weakness, says the correspondent, is shown in the bent shoulders, the drooping head, the feeble gait, and, above all, in the failing memory.

PRESERVATION OF APPLES.—Some of the apple raisers on the hills, more especially in the town of Cummington, Mass., are about to test a new process for the preservation of that fruit. The experiment will consist in freezing the apples solid as soon as the temperature will insure that result, and then packing them in dry sawdust, or some other non-conductor of heat or cold, free from moisture, as a security against untimely thawing before they are needed for use. They feel confident that, by some peculiar process not yet known to the public, they can extract the frost from the apples, whenever demanded for use, without injury to the fruit, leaving it, in fact, as fresh and sound as when gathered from the tree.

The Gem of the Toilet

The world says is SOZODONT. It renders the teeth pearly white, gives to the breath a fragrant odor, extinguishing the ill-humors which usually flow from a bad and neglected set of teeth. Sozodont is so convenient, and produces a sensation at once so delightful that it makes it a pleasure to use it.

Spalding's Glue will mend your ways.

FREE OF CHARGE!

DR. A. BOSCHEE'S GERMAN SYRUP, lately introduced into this country from Germany, for severe coughs, consumption, or any disease of the throat and lungs, and GREEN'S AUGUST FLOWER, sure cure for dyspepsia, liver complaint, &c. Two doses of either of the above will relieve and convince any one. We will not publish certificates, print columns in the papers, or portray the ghastly features of disease, we simply say get a sample bottle, *free of charge*, and try them. Regular size, 75 cents each. Samples free at T. W. WICKES' and C. F. STAM & BRO.'S Drug Stores, Chestertown, Maryland.

The Warning Has Been Heeded.

Since the exposure of the attempts made by certain unscrupulous local dealers, to palm off their coarse astringents, made from cheap and impure materials, in the place of the great national tonic, Hostetter's Stomach Bitters, public opinion has set strongly against these empiries and their preparations. Their occupation is gone, or soon will be. When the light is let into deception it soon wilts down. Persons who trifle with their own health, by using unknown preparations, with no guarantee to sustain them, when an established specific, proven by twenty years experience to be exactly what it is claimed to be, is within their reach, are sure to repent their temerity. Many have done so in this instance, but it is hoped that the truth plainly spoken has arrested the evil. In the meantime the demand for the leading protective and restorative medicine of America was never so great as it has been this season. From the fever and ague districts of the west, south west, and south, it is literally overwhelming, and it may be said of the advices from all parts of the country of the cures it is effecting in dyspepsia, billious complaints, and chronic constipation, that "their name is legion." Everywhere the sick and feeble seem to have realized the importance of "holding fast that which is good," and of avoiding what is spurious and dangerous.

The numerous "Bitters," under various names, which mercenary dealers endeavor to substitute for Hostetter's Stomach Bitters, should be avoided, for their own sakes, by the sick and the public at large. Hostetter's Bitters are procurable in bottles only, and never sold in bulk.

The Great Cause of HUMAN MISERY

Just Published in a sealed envelope—price 6 cts.

A LECTURE

on the nature, treatment & radical cure of Spermatorrhoea, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy and Fits, induced by Self-Abuse, &c.—By ROBERT J. CULVERWELL, M. D., author of the 'Green Book,' &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience, that the sad and alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically

THIS LECTURE WILL PROVE A BOON TO THOUSANDS AND THOUSANDS.

Sent, under seal, in a plain envelope, to any address, postpaid on receipt of six cents, or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 50 cents. Address the Publishers,

The Great Fertilizer.

WHANN'S RAW BONE SUPER PHOSPHATE.

FARMERS who are about purchasing Fertilizers for seeding their WHEAT should by all means use WHANN'S RAW BONE SUPER PHOSPHATE, which, for the past ten years, has met with unexampled success on this important crop.

Wheat grown with Whann's Phosphate has a large well filled head, stiff straw, and is far less liable to smut and rust than when grown with stable or other manures.

Whann's Raw Bone Super Phosphate

is a COMPLETE MANURE, containing all the elements needed by growing plants. It is rich in SOLUBLE PHOSPHATES and AMMONIA, and while it possesses the prompt and active properties of *Peruvian Guano*, it has the more durable qualities of *Pure Dissolved Bones* from which it is made

FARMERS

Who have not yet used WHANN'S RAW BONE SUPER PHOSPHATE,

would do well to try it on this year's crop.—That it has no superior in the market is attested by thousands who have used it.

Pamphlets giving full directions, with testimonials, mailed free on application.

WALTON, WHANN & CO.,
MANUFACTURERS.

For sale by

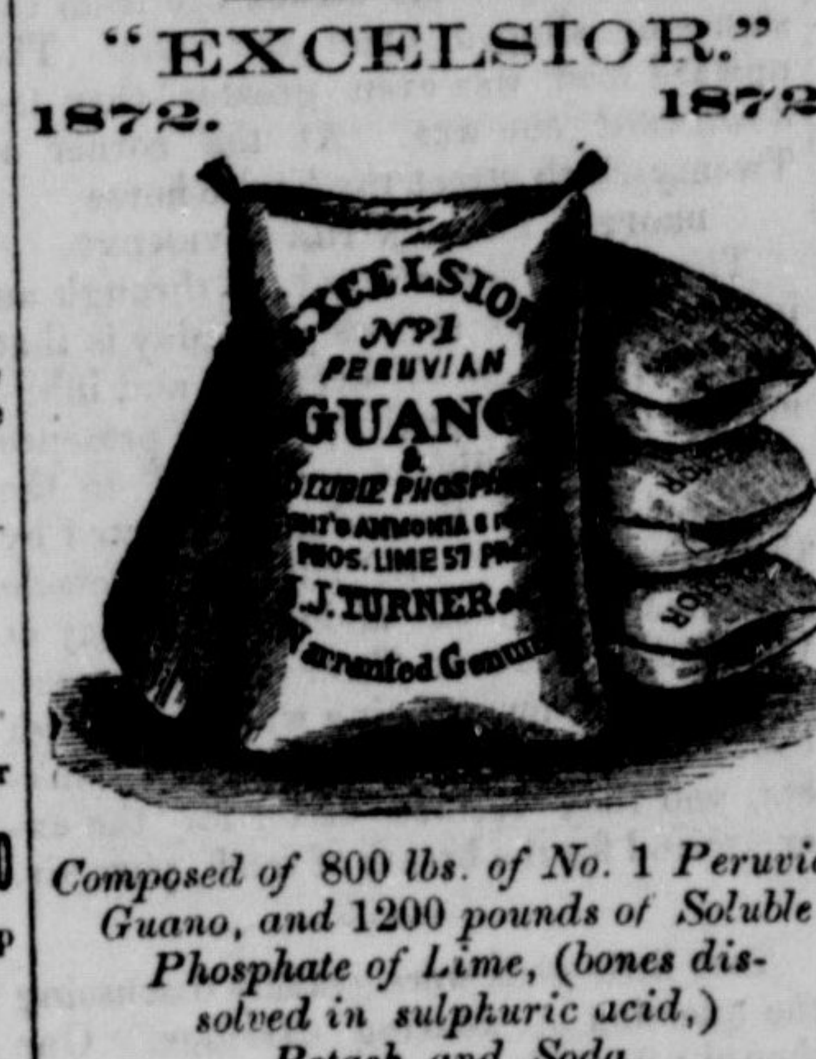

T. W. ELIASON, Jr., Chestertown, Md.
MANUFACTURER'S AGENT.

Aug. 17—3m.

To Wheat Growers!

"EXCELSIOR."

1872. 1872.

Composed of 800 lbs. of No. 1 Peruvian Guano, and 1200 pounds of Soluble Phosphate of Lime, (bones dissolved in sulphuric acid,) Potash and Soda.

Forming the most concentrated, universal and durable fertilizer ever offered to the farmers—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones,—in fine dry powder, prepared expressly for drilling, and can be applied in any quantity, however small, per acre; and it is the opinion of many close calculating farmers, after THIRTEEN years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to from 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 300 per cent. cheaper.

Look out for imitations and counterfeits. The popularity of Excelsior has induced *unscrupulous* parties in this and other cities to copy our trade mark, and resort to other dishonorable means to sell their *worthless* compounds.

Farmers should see that every Bag is branded as above, with ANALYSIS and OUR NAME in RED LETTERS. All others are counterfeits.

Price $60 per Ton.

Ayer's Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidote and disappear. Hence its wonderful cures, many of which are publicly known, of **Scrofula,** and all scrofulous diseases, **Ulcers, Eruptions,** and eruptive disorders of the skin, **Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm,** and internal **Ulcerations of the Uterus, Stomach, and Liver.** It also cures other complaints, to which it would not seem especially adapted, such as **Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility,** and **Leucorrhœa,** when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even when no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

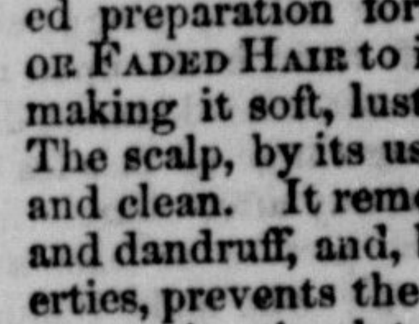

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists,

SOLD BY ALL DRUGGISTS EVERYWHERE.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Sold by all Druggists, and Dealers in Medicines.

Price One Dollar.

Buckingham's Dye.

FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in *one preparation;* which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents.

Manufactured by R. P. HALL, & CO., NASHUA, N.H.

ROSADALIS

THE GREAT SOUTHERN remedy for the cure of Scrofula, Scrofulous Taint, Rheumatism, White Swelling, Gout, Goitre, Consumption, Bronchitis, Nervous Debility and all diseases arising from an impure condition of the Blood.

The merits of this valuable preparation are so well known that a passing notice is but necessary to remind the readers of this journal of the necessity of always having a bottle of this medicine among their stock of family necessities.

Certificates can be presented from many leading Physicians, Ministers, and heads of families throughout the South, endorsing in the highest terms the Fluid Extract of Rosadalis.

Dr. R. Wilson Carr of Baltimore says "he has used it in cases of Scrofula and other diseases with much satisfaction.

Dr. T. C. Pugh of Baltimore, recommends it to all persons suffering with diseased Blood, saying it is superior to any preparation he has ever used.

Rev Dabney Ball of the Baltimore M. E. Conference South says he has been so much benefitted by its use that he cheerfully recommends it to all his friends and acquaintances.

Craven & Co., Druggists, at Gordonsville, Va., say it never has failed to give satisfaction.

Sam'l G. McFadden, Murfreesboro, Tennessee, says it cured him of Rheumatism when all else failed.

Rosadalis is not a secret quack preparation its ingredients are published on every package. Show it to your Physician and he will tell you it is composed of the strongest alteratives that exist, and is an excellent Blood Purifier. Did our space admit we could give you testimonials from every State in the South and from persons known to every man, woman and child either personally or by reputation.

Rosadalis is sold by all Druggists.
