The following Resolution:

Resolved by the Mayor and City Council of Baltimore that the Sum of One hundred dollars be paid to Doctor Jno. E. I. Monker for the Services he rendered to the suffering Poor of Fells Point during the prevalence of the malignant Fever in the year 1821. all of which is respectfully submitted

Cosmo G. Stevenson Robert Miller

The following Communication was received from the Mayor yesterday & read

Gentlemen. Accompanying this you have an act to incorporate the Chesapeake and Ohio Canal Company, which it appears has passed the Legislature of Maryland, to say the least of it with great velocity; there is an amendment I understand made in the Senate of Maryland introduced by Mr Chambers, which you will find at length, I think, in the proceedings of the Senate, transmitted to the Council with a letter from Mr Scott; this amendment I understand was intended to obtain from Congress, if necessary a more explicit provision on the subject of the tapping the Canal without the District of Columbia, when the Council shall have examined the Amendment, & compared the intention with the 2nd Section of the accompanying bill reported to Congress which has relation to the subject of the amendment; they will be enabled to form a judgement whether if the provision in the act of the Legislature of Maryland is doubtful it is rendered more so by the Bill introduced in Congress. The Council having the several acts before them, and also a letter from the Honorable Isaac McKim, will be able to determine whether any & what instructions may be necessary to be transmitted to our Senators & Representatives in Congress, and whatever is done, it appears that it ought to be immediately done, as there appears to be a disposition in Congress to act upon the bill then pending, with as much rapidity as was practised in the Legislature of Maryland

Very Respectfully
Your Obedt Servt
J. Montgomery. Mayor

The following Report was read a second time & concurred in

The Committee to whom was referred the petition of Joseph Parker & others relative to the compensation of the inspectors of Scale beams and Weights, and the petition of J. W. & C. Patterson, Gerard T. Hopkins and others relative to a change of Weights, beg leave to report, that they have had the same under consideration and are of opinion that the rates allowed by the Ordinance of the 13th March 1817 for inspecting weights are too much, and if reduced to about two thirds of those rates, the inspector will be fully compensated for his trouble. In regard to the change of weights the Committee are of opinion that, inasmuch as a recent arrangement has been adopted in the Cities of Philadelphia and New York to buy and sell by the short hundred and as at a late public meeting held in this City, it was unanimously agreed, with the approbation of our Chamber of Commerce to purchase and sell in the same manner, our Citizens ought not to be deprived of the privilege of using such weights as may be most convenient for that purpose. The Committee therefore respectfully recommend the adoption of the accompanying ordinance

Robert Miller
