The following message was received from the First Branch

In First Branch March 19, 1845

Gentlemen of the Second Branch of the City Council

We respectfully request your honorable body to reconsider the vote on the subject of James Roaches claim. The opinion of the late counsellor of the city is entitled to the highest respect and but for the decision of the court of appeals in the premises would have been the governing rule with us. That court in the case of the corporation against the Messrs Whites decided that the walling up of Jones falls after the flood of 1837, was to done at the expense of the city, and was not chargeable to the riparian proprietors, Mr. Roach entered his wall under an agreement with the city commissioners that in the event of this decision being made the sum expended by him should be refunded. The petitioner has for a long time been deprived of his dues, and we trust upon a reconsideration you will see the propriety of now allowing them

By order
George F. Woodward, Clerk
